SATURDAY, JUNE 20, 1908.

THE Supervisors of Election have appointed the registrars of voters. Those interested please take notice and qualify on July 14th.

THE TRANSCRIPT wishes for the graduates both of Washington College and the High Schools of the county a most successful and prosperous life.

THE PEOPLE of this community should be glad that they live in a college town, the influence of which is of untold value to the social, moral and educational life of our people. This influence has been keenly felt during the past week.

NEITHER Mr. John D. Urie, who was elected an alternate delegate-at-large to the Republican National Convention, which has been in session in Chicago this week, nor Mr. D. B. McMenamin, who was elected a district alternate delegate attended the convention. Why did they not go?

TAFT was nominated by the Republican Convention at Chicago on Thursday, receiving 702 votes on the first ballot out of 980. His nomination was made unanimous, but there are evidences of great discontent in the party. Gov. Cummins, of Iowa, will likely be Taft's running mate.

THERE is no longer a national Republican party. It is now the Roosevelt party, dominated by him, its policies dictated by him, and its nominee pledged to carry on the reforms stolen by Roosevelt from William Jennings Bryan. That's the truth, brethren, and the difference between Taft and Bryan is that Taft is a *me too* man, while Bryan is possessed of so much independence and originality of thought as to make him appear radical to those interests which live and thrive by violating the very principles for which Bryan stands. That's the truth, brethren, and it will be Mr. Bryan's biggest card in the presidential campaign.

ATTENTION, CITIZENS.

Two alarms of fire have been sounded in Chestertown within a week, to both of which the Volunteer Fire Company responded with commendable promptness and by quick action succeeded in subduing the flames before any damage had been done. The latter fire would have been a serious conflagration had it not been for the gallant work of the volunteer firemen. But there is a serious reflection upon the citizens of the town especially those in authority, in the fact that these young men who are risking their lives and giving their time to save the property of the people are receiving no material encouragement from the source from which they should receive financial aid. The TRANSCRIPT several weeks ago urged the Town Commissioners to purchase the necessary equipment for the fire company, who, if they are willing to sacrifice their lives and time without one cent of remuneration, should be provided at once with the necessary equipment. If the commissioners have not the ready money, it is far better to go in debt for the cost of the equipment than to risk the loss of thousands of dollars worth of the people's property for lack of proper equipment. This is a matter which calls for no delay. The people at the last election voted for fire protection and it should be given to them at once, regardless of the time when the water system passes into control of the town. No better use of the premium on the sale of the water bonds can be made than to invest the whole amount in new hose and ladders. We have it from the best authority that there are only about 550 feet of good hose in the town, and no ladders.

The writer of this article, as a member of the Water Board into whose possession the money comes over and above the cost of the waterworks on July 1, is willing that the commissioners take the premium on the sale of those bonds and invest it *at once* in proper equipment for the fire company. We are very glad to state that a public spirited citizen who has the welfare of the town at heart, has a letter in this issue offering to contribute $100 if five others will contribute a like sum, or $50 if ten others will do likewise for the benefit of the fire company. This is the kind of spirit that counts for something, but no citizen should be asked to do this. This town is able to provide the equipment, the people gave their consent at the town election for an increase in the tax rate to provide for funds to secure protection against fire, and if the commissioners have not the ready money now they can borrow the money and pay the debt when they collect the taxes.

We do not censure the commissioners in the least for being careful of the people's money, but we believe they are acting unwisely in this respect not to provide at *once* the necessary equipment for the company. A great fire may destroy thousands of dollars worth of property in a few moments, when the outlay of a few hundred dollars in proper equipment may prevent the loss of a penny. Do something before the young men who have so generously volunteered their services lose interest. A meeting of the fire company is called for next Monday evening. Every member is urged to be present, as matters of importance are to be discussed.

PEOPLE'S COLUMN.

☞ The columns of the TRANSCRIPT are open to the proper discussion of all topics of public interest or importance. Whether the editors agree with the sentiment expressed or not, the people should and may be heard through the TRANSCRIPT's columns—the paper will be the People's Forum from which they may be heard on all subjects—purely personal matter excepted. The Editors are not responsible in any manner for articles that appear in this column.

MESSRS. EDITORS:—The citizens of Chestertown, having by their votes approved the purchase of the waterworks by the corporation, they have thereby assumed part of the responsibility of providing adequate protection against fire. This responsibility devolves primarily upon the corporation, and it will doubtless endeavor to discharge its full duty; but it requires no argument to show that the proper equipment of the recently organized volunteer fire company cannot be provided without the liberal co-operation of the property-holders and citizens. The first cost of proper helmets, coats and axes for the men, and hose, reels and ladders, will be beyond the means of the corporation to provide forthwith, as is necessary, if the company is to be established on a permanent basis. It is to the credit of the young men of the town that they have so promptly volunteered their services, but the property-holders and citizens cannot expect a high standard of efficiency to be maintained, unless their appreciation and sympathy is manifested by a liberal and generous support of reasonable needs of the fire department. The immediate need is for equipment, and it is hoped that all the citizens will feel the justice and recognize the wisdom of prompt contributions for this purpose according to their means.

You are authorized to say that the writer will be one of five to subscribe one hundred dollars each, or one of ten to subscribe fifty dollars each, for this purpose.

When this is accomplished, the corporation may reasonably be expected to provide a suitable site and building for headquarters of the fire department.
