IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Troubles. A Chestertown Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Chestertown people testify to permanent cures.

James B. Hendrix, living on Cross street, Chestertown, Md., says: "Doan's Kidney Pills cured me of a severe case of kidney complaint and it gives me pleasure to recommend them to others. I contracted a severe cold which settled on my kidneys and left them greatly disordered. Very soon my back began to ache and bother me constantly, and the pain was so acute at times that I was forced to stop work and go home. I was strongly urged to try Doan's Kidney Pills and at last decided to do so, procuring a box at M. A. Toulson's drug store. They helped me from the first, I continued taking them, my back improved, the pains finally left and the kidneys were restored to their normal condition. I can conscientiously recommend Doan's Kidney Pills to others."

For sale by all dealers. Price 50 Cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SOLVED THE PROBLEM.

The Simple Secret of Blowing the Big Glass Globes.

Emperor Nicholas wished to illuminate the Alexander column in a grand style. The size of the round lamps to be used for the purpose were indicated and the glasses ordered at the manufactory, where the workmen exerted themselves in vain and almost blew the breath out of their bodies in the endeavor to obtain the desired size.

The commission must be executed—that was self evident—but how?

A great premium was offered to the one who could solve the problem. Again the human bellows toiled and puffed. Their object seemed unattainable, when at last a long bearded Russian stepped forward and declared that he could do it; he had strong lungs; he would only rinse his mouth first with a little water to refresh them.

He applied his mouth to the pipe and puffed to such purpose that the vitreous ball swelled and puffed nearly to the required dimensions, up to them, beyond them.

"Hold! Hold!" cried the lookers on. "You are doing too much. And how did you do it all?"

"The matter is simple enough," answered the long beard, "but, first, where is my premium?"

And when he clutched the promised bounty he explained.

He had retained some of the water in his mouth, which had passed thence into the glowing ball and then, becoming steam, had rendered him this good service.

PET ANIMALS IN WILLS.

Fortune to "My Red Horse"—Parrot Bequeathed to Queen Victoria.

A. T. Newbold, the Salford brewer, who has left his greyhound, Wildfire II., an annuity of £25, is one of many testators who have remembered their pet animals in their wills.

A farmer near Toulouse who died a short time ago left his entire estate to "my red horse." One John Spooner of Chicago bequeathed £400 to his dog "in recognition of his sympathy and tender nursing when I was seriously ill," and the will of a Mr. Garland contained this clause: "I bequeath to my monkey, Jacko, the sum of £100 per annum and to my faithful dog, Shock and my well beloved cat, Tib, a pension of £5."

Dr. Christians of Venice left 60,000 florins for the maintenance of his three dogs, a Mr. Harper settled £100 on his "young black cat," and a Frenchman named Souchat left his entire fortune to his tortoise.

A good many years ago an old lady bequeathed her pet parrot to Queen Victoria, with 100 guineas a year for its keep, on the amusing condition that "her majesty publicly exhibits it before her court twice a year to prove that the person intrusted with its care has not wrung its neck."—Westminster Gazette.

All Three Kinds.

There is a village in New England which clings fondly to the customs of the past and has small regard for innovations. Not long ago an old resident died. The lawyer who went up to settle the family affairs stayed overnight at the little inn. He was a dyspeptic and ever cautious about his food. Therefore he looked searchingly at the waitress as she stood at the breakfast table the next morning to greet him.

"I'm—er—obliged to be very careful of myself," he said solemnly. "My diet is extremely limited. What sort of breakfast food have you? That is all I take in the morning except dry toast."

"We have apple, squash and mince," said the girl, regarding him in kindly and sympathetic fashion. "You can take your choice or have all three if you like."—Youth's Companion.

Melbourne and the Garter.

Lord Melbourne seems to have held the title holder in legitimate contempt. The London Chronicle reminds us that once when that statesman was invited by his secretary to grant an interview to an importunate applicant for a title he exclaimed wearily: "What the mischief does he want now? Does he want a garter for the other leg?" Melbourne himself was pressed by Queen Victoria to accept the blue ribbon, but he declined. "A garter," he explained, "may attach to us somebody of consequence whom nothing else can reach, but what would be the use of my taking it? I cannot bribe myself."

Hiding Places of Diamonds.

If the Regent diamond as shown in the Louvre is only a model in paste and the real stone is hidden away, it is a case of history repeating itself, for in 1797 when the Regent diamond was pawned for house furniture to Vandenberg, a banker of Amsterdam, and he was remonstrated with upon the danger of exhibiting it to the public he replied: "The Regent that is in the glass case is a sham. The real Regent is in my wife's stays."—Pall Mall Gazette.

Takes both to make Good Wheat

POTASH

Good clover follows good wheat, but it takes Potash to set the clover.

Starved clover won't feed the crop that follows it. It needs a vigorous root and a sturdy growth for itself before it can gather nitrogen for you.

Give it a good start by *enough* Potash with your phosphates in *this* Fall's seeding of wheat or rye.

The clover will do the rest—you'll see when you cut the clover.

Clover, timothy, rye and oats, for turning under, or a crop in rotation—all need *more* Potash than *most* commercial mixtures afford.

Do not use fertilizers that contain less than 6 per cent. Potash. If your dealer does not carry them, then mix 15 pounds of Muriate of Potash with each 100 pounds of your fertilizer. *Potash is profit.* Buy the Potash first.

Send for pamphlets containing *facts* about soil, crops, manures and fertilizers. Mailed free.
