Amatite Roofing.

Not an imitation, or a counterfeit.
A genuine natural protection from the elements.

Owing to inquires from our customers for a thoroughly reliable, reasonable-priced roofing, we have made arrangements to supply an article that has no superior. A rigid investigation was made as we felt our word could not be given to the trade until thoroughly satisfied the roofing would support the confidence in every way. This roofing is suitable for any climate, steep or flat roofs.

GET A SAMPLE OF THIS ROOFING.

All kinds of building paper, tar felt and Abestesos in stock. Give us an opportunity to estimate on your work. We furnish everything in the building line from the smallest article to a completed building as we are practical builders and have a large force of men.

Yours very truly,

W. S. & A. M. CULP,

GOING!

Our line of **Clothing, Hats and Furnishings** are complete, and while the season is quite young, our suits are beginning to make their appearance on the streets. If you are undecided as to what style suit you shall wear this winter, come in and talk the matter over with us. We can show you so many good suggestive styles, peculiarly fashioned to suit your individual idea and shape, that you'll be sure to find something among this vast collection of ours to suit you.

Men's Hats and Overcoats

from $5.00 to $20.00, and our five dollar ones have that same individual style and fit about them that characterize all Lucas suits.

HATS

to fit every head, with prices pinned on them to fit every purse.

UNDERWEAR

we can't be beat on variety and lowness of price. Men's Heavy Fleece Lined Shirts, 39c—why pay fifty? Men's Wright's Health Shirts, 79c—why pay a dollar? This is about the way you'll find it all through our establishment.

GLOVES

the best dollar glove on earth is right here. Many other things of great value.

Wedding Bells.

The most important social event of the season in Millington was the marriage on Thursday at 1 o'clock of Miss K. Pearl Ahern, daughter of School Commissioner and Mrs. John P. Ahern, to Mr. David Barr Ford, one of Chestertown's most prominent young business men. Asbury M. E. Church was thronged with friends and relatives of the contracting parties, and was beautifully decorated in evergreen, potted plants, etc. Promptly at the appointed hour, to the strains of the wedding march skillfully rendered by Miss Mabel Toulson, of Chestertown, the bridal party entered the church, the ushers leading the way, followed by the bridesmaids, maid of honor, flower girls, ring bearer, and the bride leaning upon the arm of her father, by whom she was given in marriage. She was met at the chancel by the groom and his best man, Alva A. Lamkin, Esq., of the Baltimore bar. Immediately after the bridal party reached the church Miss Mary Ahern, a sister of the bride, sang "O, Promise Me," accompanied on the violin by Mr. Warren C. Hurlock and Miss Toulson at the organ, and while the organ played softly the ceremony was impressively performed by Rev. E. C. Sunfield, of Felton, Del., assisted by the pastor of Asbury, Rev. Mr. Moore. The bride wore an exquisite gown of white satin empire, made with court train and trimmed with duchess lace and pearls, directoire sash and panel in sheath effect, with tulle veil, caught with orange blossoms. She carried bride roses and lilies of the valley. The maid of honor, Miss Ethel Merrill Holbrook, of Philadelphia, wore a handsome gown of pink satin made empire, trimmed with Irish lace, directoire sash and chiffon panels in sheath effect. She carried pink roses. The bridesmaids were Misses Ruby and Claire Ahern, who wore white lace empire gowns over pink silk, pink directoire sashes and plaited panel in sheath effect; pink roses, and Misses Laura and Mary Ahern, who wore white lace empire gowns over blue silk, blue directoire sashes and plaited panel in sheath effect. They carried white roses. The flower girls, Miss Marguerite Ahern wore white lingerie with blue sash; Misses Dorothy Wilson and Kathryn Dudley wore white lingerie dresses with pink sashes. All carried baskets of white and pink carnations. The ring-bearer, Master Thomas Wilson, wore a white serge Russian suit, and carried the ring on a white satin cushion garlanded with flowers.

Mrs. John P. Ahern, mother of the bride, wore a pearl grey duchess satin gown, trimmed with princess lace and velvet. Miss Sue B. Ford, sister of the groom, wore black spangled net over black taffeta silk with large picture hat. As the bridal party proceeded to the chancel, the four bridesmaids sang very impressively Lohengrin's wedding march.

The ushers were Messrs. J. Howard West, of Dover, Del.; E. Gilbert Clark, Philadelphia; Wm. D. Maslin and Jos. Brice, of Chestertown; and these, with the groom, best man and father of the bride, wore the usual black suits, with white vests, pearl puff ties and gloves to match and white carnation boutonniers. Immediately following the ceremony a luncheon, in charge of a caterer, was served at the home of the bride, at which fifty relatives and friends were present. The house was decorated with greens, potted plants and pink carnations. Mr. and Mrs. Ford left on the 3 30 train for an extended wedding tour. They were the recipients of many valuable and handsome presents. They will be at home after January 1 in the residence formerly occupied by Mrs. Snitcher, corner Maple avenue and Queen street, Chestertown.

Fire Company to Build.

The efforts put forth by the officers and members of the Chestertown Volunteer Fire Company for the establishment of suitable quarters have been crowned with success. Plans have been made and contract executed for the erection of an imposing and commodious building on the site of the present frame structure on Cross street. The building will be of cement blocks with grey pressed brick front. It will be 28x48 in size, two stories, and will cost about $3,000. The ground floor will be used for the storage of fire equipment, and offices of the town commissioners and water board. The second floor will be used as an assembly hall and reading room for members of the Fire Company. Work will be begun on the building next week, and it is expected to be ready for occupancy by March 1.

Besides the additional hose and other apparatus recently received, the company has just placed an order for a ladder truck of the latest improved type. President France and his staff of assistant officers are to be commended for their splendid efforts, and the town congratulated upon the assurance of this great public improvement.

The work on the building will be done largely by members of the Fire Company, with the superintendence of Mr. A. M. Culp, who drew the plans for the building and who is chairman of the building committee.

SPLENDID HOMES.

Mr. and Mrs. Clifton L. Jarrell are occupying their handsome new home on Washington avenue. For style of architecture and general finish this is perhaps the finest house in the county, and scarcely unexcelled on the Eastern Shore. Its style of architecture is colonial, with massive Ionic columns, and it commands a most beautiful view of the avenue and sourrounding country. Mr. Walter T. Pippin, the well-known contractor and builder, was the designer and builder of the home, which is certainly a great credit to his workmanship. The first floor of this palatial home is beautifully finished in the finest oak and hard wood, and the arrangement of the rooms is most indicative of convenience and comfort. This floor is divided into a spacious reception hall, parlor, living room, den, dining room, nursery, pantries, kitchen and lavatory. There are in this floor 4,000 square feet of space. There is the same amount of space in the second floor, which is divided into six bedrooms, large hall and bath. This floor is finished in white enamel, with mahogany doors. One of the bath rooms is tiled wainscoting with quartered oak floor, while the other is finished in mahogany paneled wainscoting with quartered oak floor. The third floor is divided into five rooms finished in natural wood. There are more than 200 lineal feet of porch room. The house is heated by model hot water boiler, installed by Mr. Wm. C. Sutton, who did all the plumbing, and there is a private water system forced throughout the house by air pressure. It is lighted by electricity throughout. The house is beautifully furnished, and altogether is one of the finest homes on the Eastern Shore.

There is scarcely a home in the town or county which is more thoroughly equipped with modern conveniences than is the new home of Prof. Thos. H. Topping, owner of the flouring mills near town. The house was erected in modern style by the well-known firm of W. S. & A. M. Culp, but the aim of the owner seems to have been more towards a complete and comfortable interior rather than for exterior embellishment. In the first place, there is a new system of heating in this house, unlike anything else in the town. It is known as the Vapor System, and its great utility is the automatic arrangement for the heating and cooling process. A trial was made of the plant this week, and Prof. Topping is highly satisfied with its effectiveness. He claims it to be the best heating process on the market today. Another great convenience is the lighting system. The entire house is lighted by acetelyne gas, manufactured from a plant in the cellar. The tank is so located as to render the system absolutely safe, and the light produced would make some of the residents of the town who use electric light or oil lamps turn green with envy. The lighting arrangement of the house is even as effective as the heating. But possibly the most effective arrangement is the water supply for the house and furnace. A well about eight feet deep was dug at the kitchen door, and by a system of pipes and storage tank the machinery in the flour mill is made to supply the force for pumping the water through the entire house. Not only is the supply of water from the well pure and good for all purposes, but the force with which it is sent through the house is such as to make the system as effective, if not more so, than the system in any home in Chestertown supplied by the water works. The plan of the house, its conveniences and arrangements are the products of Prof. Topping's thought and painstaking investigation, and with its handsome furnishings it is one of the most complete and up-to date houses in the town or county. Prof. Topping will occupy his new home very shortly.

Runaways.

Miss Katie Little, Mr. Morris Barroll and Mr. James Brown's son figured in an exciting runaway on Monday. Mr. Brown's horse became frightened at a tandem bicycle ridden by two children, and tore into High street. At the Candy Kitchen corner the horse swerved into Mr. A. L. Sparks' hitching rack, where Mr. Morris Barroll's dog-cart and pony were standing. Miss Little was sitting in the cart, when the runaway team struck the dog-cart, throwing Miss Little to the ground with considerable force. Fortunately she escaped with only a slight shock. Morris was just coming out of Mr. Sparks' store with a new hat when the accident occurred, and he and the hat were saved from the wreck. The pony was knocked flat, but was not injured. Mr. Brown held on to the reins of the runaway horse with death-like grip, and he was stopped after running a short way down the Quaker Neck road. The carriage was only slightly injured.

Mr. George Roland's horse ran away on Monday afternoon and demolished the wagon. One of the horse's feet was slightly cut.

*†*Edward Kennard was arrested by Deputy Sheriff Lockerman on Sunday night, charged with selling liquor. He was given a hearing on Tuesday and held for the action of the grand jury.

TO WHOM IT MAY CONCERN.

The unpaid accounts of the late firm of Smith & Graham, have been returned to me by Mr. J. H. Simpers and I will hold same for payment for thirty days and if not paid within that time they will be placed in the hands of our attorney with orders to collect same by law. Nov. 28, 1908.

TRY A SEWING MACHINE ON THE RENTAL PLAN.

The purchase of a SEWING MACHINE is altogether too important a transaction to be decided offhand, because it soon becomes a family institution.

When You Rent A Sewing Machine

even for so short a time as one week, you give yourself an opportunity to test a machine that will do its daily work so perfectly and noiselessly from the start that you will hesitate before you let it go out of the house again. No reason why it should go out, either, for your rental payments may be applied to the purchase of the machine if you decide to keep it. All makes of Sewing Machines repaired, and old machines taken in part payment for new ones. Also easy threading needles, can be threaded in the dark.
