The members of the Jr. O. U. A. M. enjoyed a pleasant evening Monday. There were several sparing contests, and one which should have special mention, a blind boxing contest. Both contestants were blindfolded and were held apart with two ropes, a third party stepping up would lightly tap one and then the other. While these could not get together there was some great fanning.

Mr. Elmer Leary was very badly cut by one of his new machines, a jointer, last week. In facing up a small block which turned with him, he had two fingers severed at the first joint and another barely escaping with a slight cut. Dr. Schwatka dressed the wound and Mr. Leary is getting along nicely.

Galena Kipples.

Our little village is recuperating after being out of business for six weeks, owing to the great Christmas blizzard. Some of our roads are passable and some impassable. But we are not much for complaining, as things might be worse. We have not joined the meat boycott, but we have a meat famine; no butcher in town and roads in such condition that our old friend Jim Watts cannot get through the blocked roads, so we are waiting patiently for a look at our old friend Jim with his nice clean country beef, bought in the country and killed in the country. No cold storage about Jim, as he always has an ample supply of the finest nice clean Jersey beef.

We have all got an ample supply of ice, but coal is very short; no coal to be had nearer than Black's Station. Some of us allowed our supply to run out and were compelled to go over fences and ditches to Black's for a few pounds to keep body and soul together until the beautiful spring, which we hope will soon be with us.

Our old friend Geo. Star is with us again. He has been in the Land of Flowers for two months for the benefit of his health.

We have a little time now to look around and see the uncertainty of town life. We almost envy our surrounding farmers with their nice sleigh and horse, with their own raising of provisions—plenty of everything. They do not care a rap about the meat boycott or anything else, as some of them have been shut in for six weeks and do not care if they are in for six more, as they have an ample supply of everything, nothing to bother them. O, don't we all wish that we were all farmers, that we might all wear smiles and be content with ourselves and everybody else. Hope we may be all good tillers of the soil some day.

Science has made it possible to increase egg production in Winter by adding to the hen's ration the materials contained in her Summer diet. Fairfield's Egg Producer contains these elements, combined with elements that perfect digestion and purify the blood.

Lack of exercise induces Constipation in your horses. The poisonous wastes back up in the system and poison the blood, opening the way to disease. Fairfield's Blood Tonic for Horses Only regulates the bowels, strengthens digestion, expels worms and purifies the blood.

Many medicinal elements so beneficial to one kind of animal cause serious injury to some other kind. That's why there is a Separate Fairfield Blood Tonic for each kind of animal. Ask for free book.

The Cow's Winter food is not so rich in milkmaking elements as the summer diet, consequently winter milk is not so rich in butterfats. Fairfield's Milk Producer supplies the needed elements and increases the quantity as well as the quality of the milk.

Fairfield's Egg Producer contains the elements of which eggs are formed. These are so combined with elements that tone up the digestion that they are immediately assimilated and carried to the Egg Sac of the hen, where they develop the embryotic eggs.

Your horses will be in better condition for Spring work if you feed them Fairfield's Blood Tonic for Horses Only. It cleans the digestive tract, purifies the blood, expels worms and increases vitality. Results are guaranteed when directions are carefully followed.

Poultry diseases are caused by lack of proper care or wrong combinations of food. Fairfield's Egg Producer makes the regular ration a properly balanced one, increases egg production and fortifies the system against all forms of disease.

The annoyance caused poultry by Lice Reduces vitality to such an extent that egg production is hindered, and the way opened to disease. The regular use of Fairfield's Lice Killer exterminates lice and makes the fowl comfortable.
