The New Deere No. 9 Planter

New Deere No. 9. Planter

This is the corn planter which has demonstrated to thousands of farmers that it is practicable to obtain a perfect stand of growing corn. Our unrivaled edge selection drop, used only on Deere Planters, has become immensely popular. More corn per acre can be grown when the New Deere Planter is used, because it puts the required number of kernels in every hill. And a full stand is the first and most important step in securing the maximum yield of corn. If you are interested, write for our book containing full particulars. It contains information which will enable you to improve the quality and increase your yield of corn. Our handsome and useful pocket companion free

Johnston FARM TOOLS

NOT IN THE TRUST

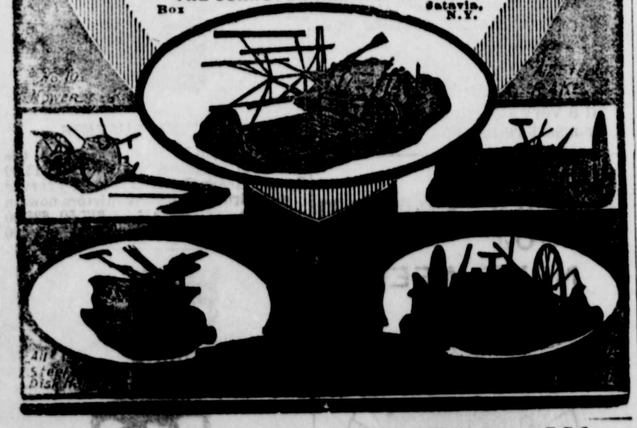

When you put your money into a **Johnston** farm implement you can rest assured you will get the very best value you ever obtained in farm machinery.

The reason why they stand so high with the thousands of farmers in this and foreign countries is because they give that **real, genuine satisfaction in the field** which every buyer of farm tools hopes to get. They fulfill the highest expectations; are so positively **dependable**, so thoroughly **practical** and do the work so much better, quicker and easier that when compared by **actual service** with others, their superiority is at once apparent.

Here we show some of them. We cannot tell you all their special strong features here; their exclusive advantages—the points that make them superior to others, or show you by illustrations just why they do their work better, quicker and easier, just why they last longer, why the breakage is so rare, why they are the cheapest; but our 1908 Catalog gives full description of our full line. You should not buy a single tool until you read it. It will help you to avoid making a mistake and post you on latest improvements. A postal brings it. Write today.

ROAD PETITIONERS' NOTICE.

To the Honorable Board of County Commissioners for Kent county—Gentlemen:

We, the undersigned tax-payers of the Seventh Election District for Kent county, do petition the said Board of Commissioners to take over and control the road running from the public road to Skinner's gate, as the same has been used as private road and we deem it to be to the best interest of our locality that the said road should be under the control and management of the Board of Commissioners.

A FINE STATE OF AFFAIRS

One Bill Recently Passed by Senator Slay Gives the Chestertown Water Board Absolute Powers in Controlling the Affairs of the Water Works, While the Other Bill Kills These Powers And Makes the Water Board a Figurehead as it Has Been for the Past Two Years.

Ever since the appointment of the Chestertown Water Board, there has been a disposition on the part of a few citizens of the town to make a mere figurehead of that most august body. How well these few citizens are succeeding may be seen from the following disgusting, as well as amusing state of affairs which has been created by the introduction and passage by Senator Slay of two bills in the Senate effecting the Water Board. One of the bills, No. 211, which defines the powers and duties of the Water Board, gives this Board absolute control of the Water Works in the following clause in Section 8 which reads as follows:

"SEC. 8. *And be it enacted*, That the said Water Board shall have charge of the said water works so purchased and shall operate same, with authority to employ and pay such superintendent, engineers, workmen, laborers and employees as may be necessary to carry on and maintain the same and supply said town and the inhabitants thereof with water, and shall have authority to purchase material and supplies necessary to operate same, and to make repairs and additions thereto as necessity may require for fire protection and domestic use."

This bill was prepared by the attorney to the Water Board at the request of the Water Board, and simply restores to the Water Board the powers that were taken from it by a makeshift typewritten bill substituted for the original bill, passed in the Legislature of 1908. The other bill to which we have reference in this article is Senate bill No. 371, introduced and passed by Senator Slay, providing for a bond issue of $10,000 to be voted upon at the next town election, in April next, which money is to be turned over to the Water Board, *to be expended in strict accordance with the recommendations of a committee of citizens of Chestertown made to said Water Board and by said board approved and adopted on the 16th day of February, 1910, and now filed in the office of the Commissioners at Chestertown.*

The bill providing for the bond issue was also prepared by the attorney to the Town Commissioners. It will be seen from the bond issue bill, making it mandatory for the Water Board to expend the bond issue in strict accordance with the recommendations of the committee, that the provision of the bill makes null and void the bill defining the powers of the Water Board, as seen in Section 8 above, and simply takes away from the Water Board all authority in the expenditure of the money, and in the free exercise of their judgment as to what is necessary for increasing water supply and for adequate fire protection. This is a most unfortunate state of affairs. We asked a member of the Board of Town Commissioners, this week, if he knew that the provision of the committee report had been included in the bond issue bill, and he admitted that he did, although he stated that the Commissioners protested against tying the hands of the Water Board by making them do something, which, as a matter of fact, they have never agreed to do. The Water Board has never adopted the committee's report as a whole. Mr. Satterfield signed the report with the distinct understanding from the attorney to the Board that his signature did not legally bind him to carry out the provisions of this report, and the report was passed up to the commissioners appointed with the exception of two sections, which were held under further consideration, and are still being held under consideration. Mr. Bowers has never signed the report. We understand that Mr. Thomas W. Eliason was in conference with the attorney to the Board, and suggested and urged the inclusion of the provisions of the committee's report in the bill, thus tying the hands of the Water Board, and making them unwilling instruments in Mr. Eliason's hands for doing what *he* wants done. Mr. Bacchus, president of the Water Board signed the report and has been in close touch with Mr. Eliason and the attorney to the board during the preparation of these two bills which, it seems, has been shoved through the Senate by Senator Slay without a careful study of the provisions of either.

The conditions which these two bills presents to the people of the town is simply disgusting. Here is a board elected by the people to do their bidding and to protect their interests, and on the other hand there is a citizen or several citizens who are content to treat the Water Board as a mere figurehead, simply that his or their wishes in the matter might be observed. It is a deplorable state of affairs when this rule or ruin policy is applied to the financial interests of the people, and made to apply for the financial good of a few. We attach no blame to the commissioners whatever. In every conversation we had with them they were in favor of giving the Water Board absolute and full power in the management of the water works. Their suggestions as to the character of the bill fell by the wayside, and we believe that Mr. Thomas W. Eliason, acting through the president of the Water Board and its counsel, is responsible for the deplorable and disgusting condition which exists today, and this is not the end of the struggle.

Grange Notes.

The first quarterly meeting of the Kent County Pomona Grange will be held in Fairlee Grange Hall, on Thursday, April 7th. A big crowd is expected and a fine program is being arranged by Lecturer Wm. G. Smyth.

The Fairlee Grange Minstrels repeated their fine show in Still Pond Grange Hall, last Tuesday evening. A big crowd was present and the jokes and various acts were much enjoyed.

The following question was debated by the members of the Fairlee Grange last Wednesday evening.—Resolved that $1000 invested in an education is better than $1000 in cash.
