DE LAVAL CREAM SEPARATORS

The World's Standard

Used Exclusively by 98% of World's Creameries

Ten years ago there were a dozen different makes of creamery or factory separators in use. To-day over 98 per cent of the world's creameries use De Laval separators exclusively.

When it comes to buying a separator why not profit by the experience of the creameryman, which qualifies him to advise you correctly.

He knows which separator will give you the best service and be the most economical for you to buy. That's why 98 per cent of the world's creameries use the De Laval exclusively.

There can be no better recommendation for the De Laval than the fact that the men who make the separation of milk a *business* use the De Laval to the practical exclusion of all other makes. They *know* from experience.

Easiest to turn, easiest to wash, skims the cleanest, lasts the longest.

SOONER OR LATER YOU WILL BUY A DE LAVAL

LOCAL MATTERS

Found Corn in Appendix.—Three grains of corn which had begun to sprout were found in the appendix of James B. Powell, a wealthy farmer of Lawrenceburg, Ind., when he was operated upon for acute appendicitis on Tuesday. The appendix was 11 inches long. Powell said he had a habit of eating a few grains of corn every time he fed his stock. Look out, farmers.

Transferred to Other Conferences.—The following transfers from the Wilmington Conference, now in session in Wilmington, to other conferences have been announced: J. M. Arters, to the Maine Conference, E. A. Gillespie to the Wyoming Conference, A. E. Craig to the Northwest Iowa Conference, Isaiah Lusk to the Chicago Conference, and A. S. Mowbray to the Baltimore Conference. Only one transfer to the Wilmington Conference was announced.

Elected Director of Large Ins. Company.—Mr. Wilbur W. Hubbard, of this town, has been elected a director of the Southern State Mutual Fire Insurance Company, of Philadelphia, to succeed Col. John M. Berry, of Atlanta, Ga. The honor came to Mr. Hubbard as a complete surprise, and he and Mr. Frank Scott, of the National Bank of Elkton, are the only Maryland directors. The company is composed of a number of the largest manufacturers of cotton oil and other products in the country and though in its infancy its capitalization and scope are such as will enable it to do millions of dollars worth of business in a very short while. Mr. Hubbard has accepted the honor.

SHORT NEWS ITEMS.

A civil service examination will be held in Chestertown on Saturday, April 6th, to fill a vacancy in the position of rural carrier at Galt's.

Abe Cohen, the Sandy Bottom department store man, advertises that he will pay 35 cents per dozen for eggs next week. They are bringing only 16 cents in Chestertown.

Mr. Thomas S. Bordley has associated with himself in the clothing, shoe and gent's furnishing business, his sons, Messrs. T. Kemp and Carl N. Bordley, as by reference to his adv. on page 4 will more fully and at large appear.

Do not forget Mr. James T. DeCorse's sale of fine personal property on Monday next on his farm near Fancy School house. This is your chance to get fine horses, cattle and sheep, as well as good farm implements. Jack Jester and John H. Greenwood, auctioneers.

Working about a stove in the home of Mrs. O. D. Hynson, in Church Hill, Sunday morning, the clothing of Miss Willie Diggins caught fire and the young woman narrowly escaped burning to death. Hearing her screams persons nearby rushed in and extinguished the flames.

Messrs. Stewart R. Matthews and Arthur K. Joiner are erecting a commodious machine shop and warehouse on the Eliason lot, near the old depot, where they will be prepared in the very near future to do all kinds of machinery and automobile repairing at moderate rates.

The well-known firm of Stavely & Bowers, contractors and builders at Lynch's, is booking numerous contracts for dwellings and outbuildings during the coming season. This firm employs one of the largest forces of workmen in the county, and their work is of the most reliable and substantial character.

A rough calculation by a competent engineer gives the great Safe Harbor ice gorge at Port Deposit a tonnage of 350,000,000. The george is the largest yet reported, being about 25 miles long. It is disappearing gradually at the rate of about 35,000,000 tons a day according to the engineer quoted.

A. S. Turner, the hustling Worton grain buyer and farm implement dealer, has purchased from Mr. J. F. Thompson, agent, a fine 1912 model Ford touring car. Mr. Turner is going after business in a hurry this year, and is going to make somebody hustle like dust to win.

While cutting timber in the woods near Church Hill, Monday, Mr. Taylor Frank was severely injured when the bough of a young sapling slipped from his grasp and struck him in the stomach. Mr. Frank was knocked unconscious and Dr. N. S. Dudley was called to render medical aid. The injured man is unable to walk, but is slowly improving.

At the regular meeting of the Mt. Vernon Literary Society last Saturday evening the following subjects were discussed in parliamentary debate: "Resolved, That there should be educational qualifications for every voter." After the question had been thoroughly discussed by both sides it was put and lost. "Resolved, That the automobile will do more good to mankind than the horse." After this subject had been discussed the majority of the house seemed to think that the horse would predominate in the future.

The Somniloquist.—Mr. and Mrs. Vail, with a great company of entertainers will appear in Firemen's Hall, next Thursday, Friday and Saturday evenings, portraying the Mystic Art and Mental Phenomena, as demonstrated by the East India Mahatma. BUICK MODEL 35.

PRICE $1060. Fully Equipped.

Read this unbiased Government opinion of the Buick Cars, copied from the Philadelphia Inquirer:

Government Approval of the Buick Car.

Last week a model 28 Buick Motor Car was delivered to Colonel Spencer Cosby of the Department of War at Washington, to be used by the inspector of public buildings and grounds on his daily trips.

The government invited all the leading manufacturers of cars priced from $900 to $2000 to submit a car in competition to a committee of mechanical experts. The cars were driven to the designated place and the drivers dismissed. The examination was then made with no representative of any of the cars present. Motor for motor, shaft for shaft, bolt for bolt, the cars were compared, tested and appraised by the government experts. One by one cars were eliminated until but one remained. It was the Buick. Of the seventeen or eighteen cars submitted the Buick alone stood the rigid tests of quality and construction upon which the examination was based. This car was at once turned over to the government for immediate service.

This is not the first time the Buick has been selected for government use. Last year when an appropriation of $250,000 was made for experiment on road construction the Buick was the car used to drive over the various road surfaces that were laid and tested.—Philadelphia Inquirer, January 14, 1912.
