Opposite Stam's Hall Chestertown Md.

FINE MLIK RECORD.

Twenty-five Tons of Milk From Five Cows in One Year.

This may sound somewhat extravagant to the natives, but is in fact a conservative estimate, based upon official tests, of the production of five Guernsey cows owned by Mr. H. H. Pearson, Jr., Rich Neck Manor, Claiborne, Talbot county, Md.

Guernsey cattle are very popular at present, and anything good that will produce are eagerly sought after and quickly snapped up by buyers and dealers. The five cows owned by Mr. Pearson, are, by breeding and production, enough to make any owner feel proud. They are all entered or have finished official tests for admission to an advanced registry, whose requirements call for the production of a certain amount of milk and a certain per cent. of butter fat is 365 days. These requirements are according to the age of the cow.

Mr. Walter T. Morris is the largest breeder of Guernsey cattle in Kent county, and is enjoying remunerative returns from his forethought in embarking into the breeding of Guernsey cattle. Buyers are constantly in communication with Mr. Morris looking for cattle. One prominent buyer was here a couple of weeks ago looking for a carload. He found two cows instead of the carload. A certain county in Wisconsin has a national reputation for the fine Guernseys raised therein. The reputation was gained by a few farmers some years back forming an association and all hands going into the breeding of the same kind of cattle, which happened to be Guernseys. Now, buyers visit that county and if they want a carload of Guernseys they can get them. Would not the farmers of Kent county find the same plan equally remunerative here? Those that did not feel able to own thoroughbreds could buy a thoroughbred bull and raise grades, gradually working up by using a purebred sire until everything produced would be a high-grade. It has long been recognized that the bull, is half the herd. It is now held by many that he is more than half the herd. Several years ago Mr. Hiram Smith spoke at an institute and he was asked the following question: "If you were going into the dairy business, what would you buy?" Mr. Smith replied, "a bull." It is difficult, indeed, to estimate the value of the prepotent sire.

Mr. Pearson's cows are all doing advanced registry work. Some have finished their first year's test and are reentered for the second year's test, which is expected to show 12,000 lbs. of milk per cow. The blood lines are red ripe and will interest anyone familiar with Guernsey blood lines, showing the advantage of a producing sire and several generations of producing dams. Like begets like or the likeness of some ancestor. You can raise just as good cows on the Eastern Shore of Maryland as any place in the world. Build a silo and get busy.

Bloomfield Pandora, No. 20760, A. R., 1354, has produced 9159 6 lbs. milk, 464 45 lbs. butter fat. She is sired by Imp Mashers Jewel, A. R., 116, No. 8868, dam Imp Pandora, of Lillyvale, II, No. 18547. This young cow possesses the blood lines of Golden Secret, A. R., 84; Rose of Gold, 3668; May Rose, II; Frances Jewel, II; Masher, II. The May Rose and France and Masher families are admittedly the most popular lines of breeding. This cow is expected to produce 11 to 12,000 lbs. of milk on next test.

Bloomfield Ednah, No. 20758, A. R., 1422, produced at 4 to 4½ years 10894 9 lbs. milk, 486.24 lbs. butter fat; sired by Imp Masher Jewel, A. R., 116, he possessing the blood of the Mashers and France family and of Masher, II, the sire of Masher Sequel, and on the dam side, the blood of Manager, A. R., 5, Imp Lord Stranford, Sheet Anchor, A. R., 9, ect. She has just calved and is milking 20 lbs. per day higher than on the same day from calving in her first test. A great record is expected from her.

Cora, of Elm Shade, No. 17711, A. R., 1275, at 5 years produced 10200.75 lbs. milk, 479.35 butter fat, equal to 559.25 lbs. butter. Sired by Imp Coronation, King, 1st, 8840, his dam, Butter Queen, 1983, F. S., (she the dam of Imp Island Butter Queen, M. 12158.8, fat 619.3), said to be the highest testing cow of the France family. Cora, of Elm Shade, is said to be the closest related animal in America to Imp Island Butter Queen. Expect 12000 lbs. from her in next test. Record made without silage.

Imp Froome's Queen, No. 24706, A. R., No. 1421, produced 9993 5 lbs. milk, 500.3 lbs. fat, equal to 586.68 lbs. butter. Record made without silage, and calved twice during test. Sired by Harley, of Chetral, 4320, dam Lady Mary de Carteret. Her two-year-old bull, Prince Billy, of Rich Neck, Imp. in dam, sired by Billy France II, winner of reserve prize on Guernsey in fall 1911, owned by Mr. Pearson and should make a noted sire.

Pandora's Valentine, of Rick Neck, the first heifer raised by Mr. Pearson, sired by his herd bull, Lavanton, son of Imp Merry Auton, A. R., 79, who cost $1,000 in England as a yearling, bids fair to be a record breaker. Lavanton is a grandson of May Rose, No. 1132 May Rose is the grandsire of Spotswood Daisy Pearl, A. R., 790, who at 7 years has just made the wonderful record of 18602 80 lbs. of milk, 957.38 butter fat, making her the champion Guernsey cow, displacing the famous Dolly Dimple.

Pandora's Valentine is Lavanton first heifer in milk, and at 2½ years, will complete her first year's test with 10000 lbs. milk, 529 lbs. fat, equal to 617 lbs. butter. She is 5 months in calf, and at present, just one year since she calved, is giving around 28 lbs. of milk. I predict a great reputation for this young cow. Besides the bulls mentioned, Rick Neck has another young bull, Splendid, of Rich Neck, sired by Glenwood Boy, of Haddon. This young gent is 2 years old, is a very handsome animal and should make a great sire.

Millington Items.

Mr. Walter Green has bought from Mr. Gilbert Green the lot adjoining his home. He intends erecting a story to his house, and a large room front. His property is on Cypress street, near the bridge.

Miss Evelyn Cochran is spending sometime with Mrs. Bruce Massey.

Mr. and Mr. Clarence Comegys have moved to the Andrew Legg farm on the river.

The dramas being rehearsed for the P. E. entertainment are about ready for presentation Easter week.

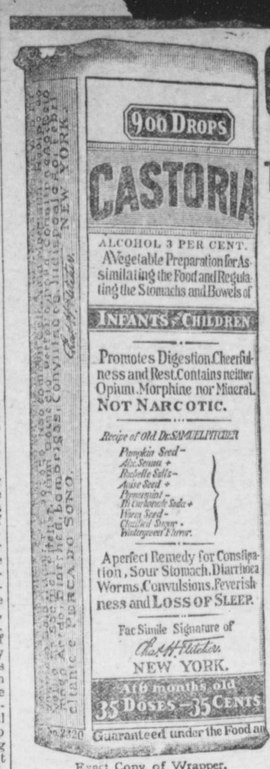

Mrs. While, Mr. Harris' mother, is quite sick.

Mrs. Whittington has moved to Mr. Harris' house, and the Misses Cole to their new home.

Whooping cough has made its appearance in town. Quite a number of the school children are effected with it.

The schools had holiday Good Friday, April 5, and Easter Monday, April 8. Some of the schools had an Easter entertainment Thursday, April 4th.

Mrs. Wm. Tolson is a little better.

CARD TO PUBLIC.

We the undersigned candidates for Election as members of the Chestertown Water Board at the election to be held in April 1912 do hereby pledge to the people of Chestertown that if we are elected we will make the following changes in the management of the system:—

1st. All supplies to be purchased will be advertised and sealed proposals asked for to be opened at a stated time by the Board in the presence of all bidders if they desire to be present.

2nd. To install immediately after our election a set of platform scales at the Pump House for the weighing of all supplies and materials that are bought by weight, said weighing to be done only by the superintendent of the system and in the presence of any citizen or citizens of the town if they elect to be present.

3rd. To make such changes in the management of the system, in the operation of the machinery, in the hours of pumping, in improvements to the domestic service, and additional protection against fire as the people from time to time may require and the revenues of the system will justify.

We indorse Mr. Wm. M. Culp as the third member of the Board.
