The crop report just issued by the U. S. Department of Agriculture shows that the crop of winter wheat of 1912 is 92,000,000 bushels shorter than it was in 1911. This would indicate that the price of wheat should be higher than it is now.

Monday was the hottest day of the summer, the mercury reaching 95°. The heat in Baltimore and other large cities was sweltering and there were numerous prostrations. There has been noe rain thus far in the month of July, though some of our farmers say the crops are not suffering for rain.

A number of our merchants are closing their stores at 7.30 and 8 o'clock during July and August. Why do not all our merchants get together and have a general closing? A number of our business people pretend to deplore conditions in politics which of necessity create factionalism, and yet do not stop to think that these same conditions exist in their business relations. Perhaps if our merchants would "get together" in their business relations, it might be the means of breaking up factionalism in politics.

The garage was filled with smoke by the ignition of the oil.

Wheat Yields.

The yield of wheat this year, judging from those who have threshed, will be below the average. No one seems able to give a good reason for the poor yield except that it is believed there was too much rain and cold weather in May and June, and the heads failed to fill. In Talbot county the crop is almost a total failure. One farmer in that county who had been getting 40 bushels per acre in years past, this year got from 13 to 20 bushels.

In Kent we have heard of the following yields:

Mr. John Gale Usilton 20 bushels per acre.

Mr. Edward Robinson, on the Barroll farm, 18 bushels per acre.

Mr. Howard Rees got 15 bushels per acre.

One of our farmers who had 15 acres planted got 80 bushels as his entire crop.

Mr. Geo. Hatcherson, on the Thomas farm near town, got 15 bushels per acre from corn ground, and 20 from fallow.

Wheat in Queen Annes is turning out very poorly, too.

In Double Creek section the average yield is 12 bushels, while it is reported that in some sections of the county the yield is not over from 1½ bushels to 2 bushels per acre, not as much as they seeded. One farmer did not cut his wheat at all, just let it go and will turn the straw under.

Clerk of the Court Wm. F. Watson, who has some of the finest land in the county, which usually grows from 30 to 40 bushels per acre, got only from 10 to 12 bushels per acre this year.

Mr. Edgar J. Watson, near town, got a yield of 18 bushels per acre on corn ground and 16 bushels on fallow.

Mr. H. Clay Lusby is reported to have gotten 32 bushels per acre from one of his fields. It is a new variety of wheat and was not affected by the weather.

The Nickerson Boys on the Porter farm in Quaker Neck, got 17 and 20 bushels per acre.

Britton Townshend got a yield of between 200 and 300 bushels from a small acreage.

Mr. Wm. A. Bell reports the largest yield we have heard of this year. He got an average of 30 bushels per acre, on some ground getting as high as 40 bushels to the acre.

Mr. Carson W. Harris was in our office on Thursday and he stated that the average yield in his section of the Third District will be between 12 and 15 bushels, though in a few instances some fields will yield close to 20 bushels per acre. The Shanghai and Miracle varieties are the best producers this year. Mr. Harris says that in his judgment the wheat was badly hurt by the heavy fogs for several mornings while it was in bloom.

In Morgnec section the average yield is between 12 and 15.

Mr. Tucker near Morgnec bridge got 12½ per acre.

Mr. Sewell Lee got 14.

Mr. Lewis Ford got 13.

Prof. Milton Melvin got 14.

Mr. Earle Nicholson on the R. R. Hatcherson farm got a yield of 15 and 19 per acre.

Mr. Frank Crow got a yield of 15 per acre from one of his fields.

Mr. Harry C. Willis' average yield was about 20 bushels per acre.

Mr. J. Kennard Aldridge got a good yield, a 50-acre field sewn in Shanghai yielding 1000 bushels.

IN MEMORIAM.

SHROPSHIRE—In sad but loving remembrance of our dear and loving wife and daughter, Isabelle Starr Shropshire, who departed this life July 12th, 1909.

Once our home was bright and happy.
Oh! how sad and drear to-day;
For our loving wife and daughter
Has forever passed away.
As we sit to-day so lonely,
Our poor hearts are filled with pain;
But her spirit softly whispers,
Courage, my dear loved ones, we'll meet again.

Sadly missed by her HUSBAND, PARENTS and DAUGHTER.

Resolutions of Sympathy.

The following resolutions were passed by the Kennedyville Grange at its last meeting on the death of Mrs. Harry J. Hill:

WHEREAS, The Lord of the harvest has seen fit to gather into the Heavenly garner, our beloved sister, Mamie Wilson Hill, wife of Harry J. Hill, and

WHEREAS, Her beautiful christian character, her fidelity to duty, her devotion to home and loved ones, her strong friendships gave evidence of the beauty and strength of the inner life. We, the members of the Kennedyville Grange, desire to pay the following tribute to her memory:

Resolved, That in the death of Mrs. Mamie Hill, the Kennedyville Grange has lost a bright, earnest and much-loved member; the community, one of its highest ideals of noble womanhood; her husband, a devoted, sympathetic and tender wife; her little daughter, a distinctively gentle and beautiful mother; her family, an exceptionally lovely embodiment of all that is pure and true and good.

Resolved, That with deepest sympathy for the bereaved ones in their great sorrow, we pray that they may find consolation in knowing that their loss is her eternal gain
