LOCAL MATTERS

Grange Note.—The next regular meeting of the Fairlee Grange will be held next Weduesday evening, September 4, at 7 o'clock. A full attendance of the members is desired.

Won Silver Cup.—Mr. William E. Moody, owner of the fastest launch in these waters won a handsome gold lined silver cup at the boat races at Annapolis last Saturday. Mr. Moody and Mr. Charles W. Kibler attended the races as spectators, with no thought of competing for a prize. Mr. Moody however was induced to give an exhibition of the speed qualities of his fine launch, and he so far outclassed the other boats that he was given the handsome cup for his exhibition. There are very few if any boats in Maryland waters that can pass Mr. Moody's speedster on the water course.

Coal will advance 10 cents in price beginning Monday morning. This is an additional tribute which the people are unnecessarily forced to pay to the coal barons. There is no reason in the world why coal should be more than $5.25 per ton, except for the protection which the Republican party gives the coal sharks and railroads at the expense of the people.

A livery horse attached to a wagon ran away on High street on Tuesday morning creating considerable excitement and causing the reliable horse of Mr. Samuel Chairs hitched to a truck wagon at Mr. D. A. Bacchus' store to become frightened and kick itself loose from the wagon. The livery horse ran the full length of the cement pavement from the Third National Bank to Waddell's corner, and on down High street to Mr. Wilbur W. Hubbard's tenant house, near the wharf, which he circled twice before being caught.

In a game replete with brilliant plays and opportune hitting the locals defeated Dr. Dudley's proteges at Church Hill Saturday by the score of 4 to 2. The setto was, as the week before when the locals were defeated 4 to 3, a battle between the local twirler, "Rats" Blackway, and the Church Hill slab artist, Wallace; the former getting the better of the argument. Batteries—for Chestertown, Blackway and Coleman; for Church Hill, Wallace and Robinson.

The organization of the Chestertown Produce Exchange is progressing nicely and the movement bids fair to be a success. A stock company is being formed upon the basis of similar produce exchanges down the Shore, and stock is being offered at $5 per share, no holder to purchase less than 5 shares. A meeting was held on Thursday night and a temporary organization affected. The stock will be distributed among as many of those interested as possible. This is a brief statement. More later.

Mr. James Brice met with a slight accident to his automobile en route to Tolchester on Wednesday. When nearing Mr. George Hatchersons farm gate his car skidded and ran into a telephone pole lying in the road. A tire was burst, the radiator was smashed and there was other slight damage. None of the occupants including Mrs. J. Hydie Thompson, Mrs. J. E. Ferguson and her neice, Miss Lois Anderson were hurt. The ladies were picked up by Mr. Hadaway and taken to Tolchester, while the car was hauled to town behind Mr. Hatcherson's farm wagon and taken to Davis & Satterfield's shop where it is being repaired.

To take a horse out of a delivery wagon, put him in training for only one week, and then have him go to Tolchester and win his race in straight heats from a field of good horses, in 2.26½ fastest time, not only speaks volumes for this horse, but certainly attests the skill of his trainer and driver. Such was the record of John B., the handsome son of Bedworth, Jr., owned by Capt. W. C. A. Thompson, and his driver, Mr. George Sutton. John B. is one of the finest horses ever raised in this county, and Mr. Sutton proved himself to be a most competent driver by the manner in which he handled John B. on Tuesday, and Lady Thompson, Capt. Billie's sweet little pacer which took easy second money in the county pace on Wednesday.

Work on the new race track on Mr. Walter Wright's farm adjoining town has begun and will be pushed to rapid completion. Mr. James G. Beck, president of the association, has a letter from Mr. Joe Rising, of Payette, Idaho, who has a string of fifteen fine horses, including two thoroughbred stallions, who wants to lease the track for a term of years as a training and breeding place. The gentleman is now in Easton with his horses. Mr. Beck was in consultation with several well-known horsemen at Tolchester on Tuesday and Wednesday, each of whom gave him some valuable information about building the track, and promised to bring their horses here in the fall, when it is proposed to hold the first matinee. Mr. Adkinson is building the track and Prof. Gilbert Taylor did the surveying.

Mr. and Mrs. Thomas Caldwell, of Galena, had quite an unusual accident on Sunday last. They with Mrs. Chester King, of New York, were on their way to Warwick, and while attempting to cross the bridge over the stream at Frazier's hill the bridge broke allowing the two hind feet of the horse to fall through. Mr. Caldwell was unable to free the horse, so Mrs. King summoned Mr. Legg. He came with a saw and axe, but was obliged to get a crow-bar and pry up the planks before the animal could be released. After nearly an hour's work the men succeeded in lifting the horse out and found he was not seriously injured, but very much scratched and bruised. The occupants of the carriage suffered no bad results from the experience other than nervousness and were able to resume their journey in a short time.

Diocese of Easton Statistics.

The journal of the forty-fourth convention of the Diocese of Easton is about to be issued by Dean Rich, secretary of the convention, and there is much general interest in its 150 pages, especially the statistical portions.

There are thirty-six parishes in the diocese, not including Trinity Cathedral, which, being the Bishop's church, is not governed by parish canons, but by the convention. There are 2,180 separate families represented in the parish registers and nearly 8,000 baptised members and 8,595 parishioners.

There are 2,300 Sunday school members, and the number confirmed during the past year was 114.

In the matter of contributions the reports show $2,133.57 for general missions, $321.29 for general clergy relief, $350.34 for diocesan clergy relief, and for diocesan missions, $1,395.49. For all diocesan purposes $6,069.78 was given.

The value of all parochial property is $470,575.76, while the various funds held in the name of the diocese will make this total about $600,000.

During the year the total amount contributed for parish purposes was 242,397.67, of which $10,674.24 was for repairs and improvements. Salaries paid were about $20,000, and for current expenses, $7,502. For charities $816.15; Sunday school expenses, $340 and other parish objects, $1,321.

NUPTIAL EVENTS.

GISRIEL—REEVES.

A quiet but pretty wedding took place in Trenton, N. J., August 16 at the home of the bride's mother, Mrs. Florence N. Reeves, when Miss Bertha Reeves was united in marriage to Prof. Stewart Wesley Gisriel, the fourth son of Mr. William Gisriel, of Baltimore, Md., in the presence of relatives and a few friends of the contracting parties. The Rev. F. X. Moore, of Still Pond, Md., a brother-in-law of the groom performed the marriage ceremony. After an elaborate luncheon the bride and groom left on an extended trip to Newfoundland, Quebec and Niagara Falls, after which they will reside in Marshalton, Mo., the seat of the Missouri Valley University, where Mr. Gisriel will occupy the chair of history.

CIRCUS TUESDAY.

Downie & Wheeler's Shows Give Two Performances—Large Crowds are Pleased With Exhibitions.

Shelly had the largest crowd Wednesday that she has had since the great celebration on July the fourth, when the crowd was estimated at 10,000 or 12,000. The occasion was the coming of Downie & Wheeler's "World's Best Show," and the general verdict is that the exhibitions were novel and well worth the price of admission.

People in this section were show-hungry, it having been three or four years since the town was visited by a circus. This one was well-advertised, and early Wednesday morning the crowds began pouring in, though the roads were muddy and heavy from the rains Tuesday. The tents were pitched on the vacant lot opposite the Southern depot and the grounds were full of people all day.

The performances were novel and excellent, especially good were the acrobatic stunts and the bicycle exhibitions, one of which was given outside the tent and free. Those who saw the performances seem to be well pleased and the exhibitions are said to be as good as any of the bigger and world-famous shows.

One thing worthy of mention was the absence of any fake or gambling schemes of any kind. At Chestertown Tuesday, September 10.—Shelly N. C. Highlander.
