The Telephone and the Farmer's Wife

"One of the main reasons why I would not be without my telephone," said a farmer, "is the pleasure it gives my wife and my knowledge of her security when I'm away."

The farm telephone dispels loneliness and summons aid when emergencies arise. Write for the booklet, "What Uncle Sam Says About the Rural Telephone." Write to-day. It will prove interesting.

HAVING PURCHASED THE

Baltimore Chamber of Commerce.

Referring to our last, we now want to call attention to the fact that "crop improvement" not only refers to grain, but other products of the farm and as Baltimore is the metropolis of the State and "commerce" applies to the moving of all products from points where they are grown in excess of local consumption, to be distributed throughout the world, wherever needed, it is the duty of the Chamber of Commerce to be interested in every part of Maryland and assist where possible, every county to correct the inequalities and deficiencies of soil, climate, natural products, transportation and industrial devlopment.

A matter of interest to every section of this State should be the care of orchards and improved cultivation of small fruits. Some parts on account of location, soil and climate conditions are admirably adopted for successful results.

The Experiment Station at College Park can give you detailed information regarding cultivation, pruning and spraying of fruit trees. Some of the points covered tell you

To remove limbs which cross and are liable to cause injury to each other by rubbing.

To remove limbs that are growing too close together and compete for the same space.

To check the growth that is too vigorous to produce good fruit.

To cut out bushy growth or twigs, or thin the tops.

These and many other details as to cultivation and spraying are given for the asking and is of importance to all of us in bringing in good results.

We suggest again that every Village Improvement Association, also Farmers' Club throughout the State get together and buy a first-class spraying outfit for use of the community and every fall and spring club together for the expense of labor and spraying material and have all fruit trees in the vicinity sprayed systematically. Some people can afford to pay for the spray-but have no apparatus or are too busy at the proper time; others have not the money, but if their trees on the other side of the fence are infested with scale, they are a menace to the trees of their neighbors who have sprayed. This should be made "community work" to be efficient, for

"We're all of us sprung from the self same clay,
And all of us headed the self same way—
And all of us therefore, brothers."

Autumn Wedding.

Middletown society was out in force on Wednesday afternoon of last week, to attend the marriage of Miss Agnes Lindsey Cochran, of Middletown, and Mr. Louis E. Hutchinson, of Trenton, N. J.

The ceremony was performed in St. Anne's P. E. Church, on Green street, at 1 o'clock. The church had been made beautiful by the girl friends of the bride, the artistic decorations consisting of greens, golden flowers and autumn foliage. The chancel and altar were prettily trimmed and the church was crowded with interested friends of the bridal couple.

The wedding march was played by Mrs. J. Allen Johnson who is organist at the church. Little Miss Jane Kafer of Lawrenceville, N. J., a niece of the groom, was flower girl, and wore white with blue ribbons, Lettia Pool of McDonough was ring bearer and wore white with blue ribbons. The bride's-maid, Miss Helen Shallcross, of Trenton, N. J., a niece of the bride wore a blue velvet suit and carried yellow chrysanthemums. The ushers were Howard A. Pool, of McDonough, June Hutchinson, of Trenton, N. J., Dr. Edward M. Vaughan, of Middletown, and Fred M. Kafer, of Laurenceville, N. J.

The bride and groom were met at the altar by the Rev. Percy L. Donaghay, who performed the ceremony. The bride wore a handsome dark blue tailored suit, with a blue velvet hat and carried American Beauty roses.

An interesting circumstance in connection with the wedding was the fact that the gold tray on which the ring was carried was a gift to the late Mr. and Mrs. Richard W. Cochran, great uncle and aunt of the bride at their golden wedding anniversary. It has been used by most of the grand nieces who have been married since that time, and is regarded as a treasure in the family.

Mrs. Hutchinson is a daughter of Mr. and Mrs. Richard R. Cochran and is a decided favorite with the younger set. Mr. Hutchinson is in the automobile business in Trenton and has a handsome apartment fitted for his bride.

After the ceremony the families and intimate friends of the young couple went to the home of Mr. and Mrs. Cochran where a reception was held. The house was trimmed with the same colors used in the decorations at the church. A number of guests from up the county and Miss Welch, of Chestertown, were present.

Your Hens Are Gold Bricks.

Mr. Farmer, feed your hens so that they will go to laying at once, for they will be worth their weight in gold this winter when eggs will be soaring above the 50 cent mark. Listen:

With fresh eggs soaring around 55 cents and butter so high that many restaurants are refusing to supply it unless specially ordered and paid for, the State Health Commissioner of New York on Saturday admitted that there are in the cold-storage warehouses of New York State 4,000,000 pounds of butter and 120,000 cases of eggs, in excess of the supply on hand at this time last year.

The hens are molting now, and eggs are scarce. By the time the molt is over and the hens get to laying prices will be as high as 50 cents here anyway, because there will be an abnormal demand for them. Hens and cows are fast becoming the most profitable adjunct of the farm. Treat them well. It will repay you.
