Prisioners Break Jail.

Three prisioners, A. Merritt Spry, convicted at the recent term of court for violating the local option law and keeping a gambling house, and sentenced to 12 months in the House of Correction, John Edwards, convicted of the unlawful use of Mr. Robert J. McWhorter's livery team, and sentenced to six months in the Maryland House of Correction and Arthur Coleman, colored, convicted of larceny, and sentenced to six months in the Maryland Penitentiary, made their escape from the Chestertown jail about two o'clock on Sunday morning, broke into former Sheriff Medders' stable, stole his horse, drove to Betterton, and took the four o'clock Ericsson boat for Baltimore, before Sheriff McKee or his deputy, Mr. Adam Startt, learned of their escape. The sheriff made his rounds about twelve o'clock and found everything all right. The prisioners made their escape either by means of a wooden key which one of them made and which the sheriff found secreted in one of their cells, or by picking the lock. The whole thing was evidently prearranged as the key was perfectly made, fitted the lock to a nicety, and must have required sometime in making. As soon as the sheriff discovered the escape, he questioned the other prisioners and found that some of them had been awakened by the noise of the three trying to escape. The sheriff immediately notified various parts of the county, all the large cities and towns and he left on the four o'clock train on Sunday afternoon for Baltimore, hoping to get on their trail. There were 8 prisioners in the jail at the time of the escape, but only three made the effort for liberty. All could have made their escape as the sheriff knew nothing of the occurrence until 6 o'clock next morning and the corridor door remained open from the time of the escape until the discovery by the sheriff. We understand that Coleman has been apprehended in Baltimore.

Third of Farms Mortgaged.

One-third of the farms of the United States are mortgaged, according to a bulletin issued by the Census Bureau. This bulletin shows that in 1910 the total number of farms operated by owners and mortgaged was 1,327,439, while 2,621,383 were reported free from mortgage. The average amount of mortgage indebtedness per farm increased from $1,244 in 1890 to $1,715 in 1910, but the average value per farm increased from $3,444 to $6,289, which shows that the owner's equity doubled.

The value of the farms and buildings which were mortgaged was placed at $6,330,050,000, while the amount of mortgages was $1,726,000,000, or 27 per cent. of the value.

The proposition of mortgaged indebtedness is higher in Iowa and Wisconsin than in any of the other States, and yet these States are among the most prosperous in agriculture.

497 Baskets of Potatoes on One Acre.

Determined to ascertain the exact quantity of sweet potatoes that could be raised on an acre of land, Thomas Markland, a well-known farmer of near Milford, has just completed an interesting experiment that has been closely watched by those interested in agriculture in that section. Last spring he had several disinterested persons measure exactly one acre of land. After treating the soil with a special fertilizer, the sweet potatoes were carefully planted and tended, and Monday were dug in the presence of the same men who had measured the land.

When all of the potatoes were in baskets there were just 478 baskets of prime potatoes and 19 baskets second grade, with no "culls" at all.

Koons procured the exterminator, but fortunately opened it on the porch when the explosion occurred.

The Number of Eggs American Hens Lay in a Year.

The following is taken from the currant issue of Farm and Fireside:

"Chanticleer may well crow with gusto for biddy these days, in view of her industrial performance. Ten years ago our annual home-produced egg allowance per capita was 207, which had a market value of $1.86, or .9 cent each. The last census report gives the annual per capita egg allowance a decade later as 200, but the value of each egg had advanced to 1.7 cents, or our egg supply for the year cost each of us $3.40. Collectively, our American biddies filled a sizable egg-basket containing eighteen billion eggs. The eggs would require 6,500 full capacity freight cars to transport them to market."

The Youth's Companion for 1913.

The Youth's Companion appeals to every interest of family life, from housekeeping to athletics. It begins with stories of youthful vim and vigor, with articles which disclose the secrets of successful play in the great games, with charming tales at the girls' colleges. But The Companion does not surrender these readers when they have entered the more serious paths of life. Mothers will welcome the page for little children and the weekly doctor's article. Fathers will find the important news of the day as it is, and not as it is rumored to be. The entire household will appreciate the sketches which touch gently on common foibles or caricature eccentricity. In short, for less than four cents a week The Companion brings into the home clean entertainment, pure inspiration, fine ideals, increase of knowledge.

Names rarely seen in tables of contents will be found in The Companion's Announcement for 1914, which will be sent upon request—with samples of the paper, to those not familiar with it.

Every new subscriber for 1913 will receive free all the issues for the remaining weeks of 1912; also, free, The Companion Window Transparency and Calendar for 1913, in rich, translucent colors—the most beautiful of all Companion souvenirs.

NOTICE TO All Persons Concerned

Hereafter the County Commissioners will neither recognize nor pay bills presented by any physician for any post mortem examination of bodies of dead persons. Nor will it pay any bills presented by Justices of the Peace for examining bodies of dead persons unless it can be shown that the Coroner is not accessible and unless the Coroner is first notified of any sudden death.

Only the bills of such physicians as the Coroner or Health Officer of the county may designate to make such an examination will be recognized or paid, and no other physician will be entitled to or receive pay for such services.

This action of the Board is taken because a practice has grown up in this county whereby the Coroner and his Physician examine bodies of the dead; and a Justice of the Peace in the county will summons a Physician and he and such physician examine the same body of such dead person; thus double bills are presented to the county for payment. The county will pay no charge of any physician for such service exceeding $5.00.
