SCHOFIELD'S

BIG STORE

at Still Pond, Md.

1912 1912

The name of Schofield on a Christmas gift insures quality. This is surely the most satisfying Christmas store on this Shore. Our seal of confidence applies just as strictly to all Christmas novelties as to our year-round stock. No matter how great your hurry or how great the throng may come, you are always sure to be properly waited on. Our holiday goods have been arranged with studied care for your comfort—things are easy to find, and are marked in figures.

There is always fun in Toyland, but the best values are early in the month, before they are picked over. Up until the gong sounds on Christmas Eve there'll be hurrying and skurrying and childish excitement in Toyland. But there won't be the good, well arranged assortment of Toys to choose from, nor the special values that reward the early shopper. Just now the Toy store is one grand, big, jolly place, that, to the children, seems to have sprung up over night, just to afford a playground for their special use and pleasure. To them it is a great wonderland—Schofield's big store for the little folks, with dreams of Santa Claus and a special Toy in mind. But the force back of this land of Toys has also been busy looking to the interest of the buyers of Toys—getting good Toys at little prices so that all little folks may share them and preparing special values that often

A WINTER COAT

not only keeps cold out, but conserves body-warmth; body-fat serves the same purpose, it enables us to resist unsettled elements and serves as the great source of our body-heat. Greater body-warmth means richer blood, more fat, not obesity but fat which the body consumes for warmth, vitality, resistance-power—as a furnace consumes coal for heat—*Scott's Emulsion* does this.

A teaspoonful after each meal makes body-warmth—healthy, active blood—sharpens the appetite and makes all good food do good.

It drives out cold and keeps out colds by raising endurance-power and creating strength.
