HIGH CLASS ALMANAC FOR EVERY FAMILY.

Valuable Compendium of Information Given Away by Peerless Fertilizer Company.

An almanac covers the widest range of subjects and gives the most accurate information contained in any small handy volume that is published. It is an encyclopedia for the busy man and a good text book for the fireside.

It tells the things that one should know and it is concise as well as definite. It has a place all its own in the literary field. There were more almanacs published in the year 1912 than ever before in the history of civilization and the prospect is that in the year 1913 all previous records will be surpassed.

Of course, there are many kinds of almanacs and the present popularity of this class of publication is not due to the Medical Almanac containing beside the astronomical observations only t[illegible] advertising matter of some proprietary medicine. This almanac does not have to contain one thousand pages to contain a thousand facts and a thousand items of information.
