ASPINWALL

ONE MAN

Potato Planter

With or without Fertilizer Attachment. Our Fertilizer Attachment, which has given such excellent satisfaction for the past ten years, is used on planter No. 3. The mechanism consists of a rotary force feed, operated by a chain and sprocket wheels; the hopper is provided with an agitator which prevents bridging or clogging. By means of a pedal the flow of fertilizer can be shut off at will. The fertilizer is deposited in the bottom of the furrow, mixed with the soil and covered with fresh earth, upon which the seed is dropped, thus protecting it from injury by contact with the fertilizer. This feature belongs exclusively to the Aspinwall Planter, and is protected by patents. Only requires one man to operate. The iron hand plants your potatoes—the hand that never gets tired—the hand that never feels the cold—the hand that is more accurate than the average human hand—the hand that handles the seed without respect to size or shape—the hand that has given unprecendented satisfaction. The planter that is light draft and durable.

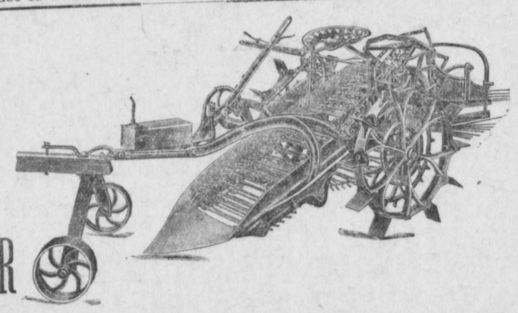

The Beetle Potato Duster

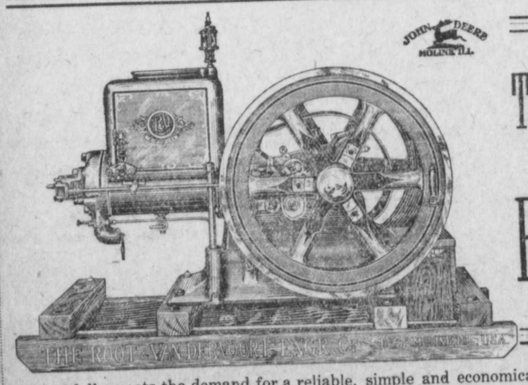

This is an ideal Potato Bug Destroyer and blight preventive. 50 gallons of water are usually used for three acres of potatoes by this method 3 to 5 pounds is all that is required, thus a man can start out with 30 or 40 pounds of dry poison for a whole day's work and save the carrying of about 10 barrels of water, the only use of which is to convey the poison. Price $65.00.

THE

HOOVER POTATO DIGGER

"WHAT IS A DEMOCRAT" ANSWERED BY NUMSEN.

Points to Wilson as Man Who Fought for Principles, Not Men.

Pointing out that Woodrow Wilson is an ideal Democrat and is so regarded by his party despite the fact that he at one time opposed the policies of William Jennings Bryan, George N. Numsen, one of Baltimore's most prominent and popular Democrats, last Friday defined "What is a Democrat?"

He explained that the principles of Democracy favor more the judgment of the masses than the judgment of a set or coterie of leaders. In this fact it is distinguished from Republicanism.

"It is a certain heresay to say that the only difference between Democracy and Republicanism lies in the appointment of jobs" said Mr. Numsen. "I have always been a Democrat, not because my people were Democrats, but because I firmly believe in the principles of that party."

TRUE DEMOCRAT SUPPORTS PRINCIPLES, NOT A NAME.

"It is these principles that win favor. I do not care what name or party designation is given them, a true Democrat supports them. A man who believes in the salvation of the country, the success of industries and the prosperity of the people is best safeguarded by the principles of Democracy as opposed to the principles of aristocracy will adhere to them no matter what name or party is given them. I would support these principles under any name.

I believe American industries can look out for themselves and am not in sympathy with the theories of protectionists. Tariff for revenue only is a true Democratic policy. The right to demand special privileges at the expense of the people is wrong, and the new President apparently has started in the right direction by declaring that he believes in confiding in the people rather than in a set of men.

"PARTY MERELY MEANS TO AN END."

"The party is merely a means to an end. Just because a man could not truthfully and honestly support candidates of his party is no reason he should be blacklisted. If the party nominees are not carrying out the principals for which the citizen is working, then that citizen is morally obliged to vote against them.

"What a sad state of affairs would obtain if the great masses of people were not to be considered in affairs of government? While we must have leaders, we must have leaders who typify the public sentiment."

Former Governor Frank Brown and former Mayor Mahool have expressed themselves similarly to Mr. Numsen within the past two weeks.

Chicken Got Best of Ministers.

The absence of 100 Methodist ministers, who failed until a late hour to put in an appearance, at Friday's session of the Philadelphia conference in the Twenty-ninth Street Church, Philadelphia, was explained Friday when it was discovered that all had been made ill at a special dinner tendered the ministers at noon on Thursday. Part of the dinner—and suspicion points strongly to a consignment of "spring" chicken—is blamed for the ministers' indisposition. There has always been a certain "affinity" between the minister and the chicken, and probably this resort on the part of the chickens was a "warning" to the ministers that from the chickens' point of view at least, that "affinity" is not as desirable as it used to be.
