SCHOOL CHILDREN

should have rich, red blood and sturdy, healthy bodies to withstand cold rains, changing seasons and winter storms.

If your child is weary when rising—lacks energy and ambition—has no appetite or possibly sallow skin or a pinched face—it is for want of vital body-nourishment; this growing period demands special, concentrated, easily digested food for body-development—mental strain—physical changes.

Scott's Emulsion is the greatest body-builder known—it is nature's wholesome strength-maker—without alcohol or stimulant—*makes rosy cheeks, active blood, sturdy frames and sound bodies.*

But you must have SCOTT'S.
