The Transcript.

POPE PIUS, the head of the Roman Church, is critically ill, but his condition is reported stronger at this writing. Churchmen throughout the world are praying for his recovery.

THE next United States Senator will be elected by the vote of the people. The amendment to the National Constitution has been ratified by the necessary 36 states, and the people have at last come into their own.

SCHOENEWOLF and his system is the burning issue against Smith. What does the Beck organ think of it? They were as silent as the grave last week. Perhaps they were so ashamed of their candidate that they just could not defend this insult to the Democratic party, and we desire to compliment them upon their wisdom.

IF Senator Smith appointed Schoenewolf to be a doorkeeper in the United States Senate for the purpose of reforming him, the Senator would prove a better superintendent of a reformatory institution than he has a representative of the Democratic party in the United States Senate. It is not the man Schoenewolf that is so objectionable, but it is the vicious system for which Schoenewolf stands, that makes his appointmeet a disgrace to the Democratic party.

SENATOR SMITH HAS OPPOSITION AT HOME.

On Thursday afternoon of last week delegates from the Republican, Progressive, Prohibition and Independent Democratic parties met in the office of William G. Kerbin, at Snow Hill, and organized a People's party, in opposition to the Democratic party of Worcester county. All of the above four factions held separate meetings and all agreed to organize the party called the People's party. Each faction named a delegation of three as a campaign steering committee, and these 12 men met in Mr. Kerbin's office and organized the people's party. The political conditions in Worcester county, it is claimed, have become so corrupt that such a move on the part of the people has become necessary. Money and trickery are declared to be the most potent factors of the Democratic party in the county. In the fall a full People's ticket will be put in the field. The new party will establish headquarters in Snow Hill. From now until the election a campaign will be prosecuted all over the county.

OUR DEATH RECORD.

MISS. HARRIET M. SUDLER.

Miss Harriett Malvina Sudler died Wednesday last at the home of her nephew, Emory Sudler, 2100 St. Paul street. She was born at Radcliffe Cross, Kent county, Md., in 1837, and was the daughter of Emory and Elizabeth Worrell Sudler, who was a daughter of Judge Thomas Worrell. Miss Sudler became associated with the Church Home and Infirmary in 1876 in a subordinate capacity, but in a few years became its matron. Under her care and management that institution grew to its present size and importance. She retired from the home in 1906. She is survived by a sister, Mrs. Anna Gordon Valk, of Washington, D. C., her brother, John Emory Sudler, having died in 1901.

MR. JOHN W. LUKE.

Mr. John W. Luke died at the home of his daughter, Mrs. A. H. Suplee, at Betterton on Monday afternoon of general debility, aged 80 years and six months. Funeral services were held from his late home on Friday morning at ten o'clock, the Rev. Mr. Shaffer, of Shrewsbury, officiating. Undertaker W. H. Krusen in charge. Interment was in Still Pond cemetery.

HON. CHARLES F. WARWICK.

Messrs. Eben F. and Thos W. Perkins attended the funeral of their uncle, Hon. Charles F. Warwick, former mayor of Philadelphia, on Monday. Mr. Warwick died Friday last after a lingering illness.

FORESTRY.

Reported for the Transcript by a Member of the Senior Class of the Chestertown High School.

Last week our State Superintendent of Forestry and the assistant superintendent paid us a visit, and gave us a very interesting talk, of which I will try to give a brief sketch.

The question concerning forestry is very important. Our trees are continually being destroyed and not being replaced. If this keeps up the forests will soon be exhausted.

We cannot do without wood. True it is, that many things are used in place of wood, but the time will never come when we can begin to do without this necessary material.

Look around us. See the many things that are made of wood. Is this not a good proof of its usefulness?

Another thing—our forests hinder floods. Were it not for the tangled mass of woodland debris, which absorbs the surplus amount of water, much of our country would become a flood plain.

By forming a sort of shield, forests keep great tornadoes from doing more damage than they do. Thus I have mentioned a few of the many uses of forests.

Forest fires are becoming sources of much distress. These fires are caused by sparks that fly from trains as they pass through. Occasionally one will hear of a fire being started by a person, but only a very few are heartless enough to do such a dreadful thing.

Sometimes forests will burn for days and days, miles and miles without anyone seeing the fire. These fires destroy not only the grown trees, but the small seedlings and sprouts which are hidden under the dense mould as well.

When fire kills part of a tree, there are always many fungi waiting for a chance to enter the exposed part. When they once get into a tree, it is quite difficult to dispose of them, as no remedy for the diseass caused by them has been found as yet.

Many other diseases are befalling our trees, such as the chestnut blight, etc. With all these diseases and fires the forests will soon be exhausted unless something is done.

Out west, where there are frequent fires, wardens are stationed at different points. At certain hours of the day these men take inspection, that is, they visit some high places where they can see for quite a distance. If they see a fire they hurry to some near telephone and tell the other wardens. Then they all rush to the place where they suppose the fire to be. The men are so well acquainted with the country that they can usually tell the exact place where the fire is.

All persons who can do so are expected to help extinguish the fire if they do not, they can be fined five dollars. Thus we see that people are beginning to do something toward the preservation of forests.

MASS MEETINGS!

HON. WILLIAM L. MARBURY

will visit Kent and Queen Annes counties this and next week, and will be in the following places:

SATURDAY, APRIL 12th, 1913:
ROCK HALL, 8 P. M.

MONDAY, APRIL 14th, 1913:
CHURCH HILL, 9 A. M.; CRUMPTON, 10.30 A. M.; MILLINGTON, 12 noon; MASSEYS, 2.30 P. M.; GALENA, 3 P. M.; KENNEDYVILLE, 5.30 P. M.; BETTERTON, 8 P. M.

TUESDAY, APRIL 15th, 1913:
STILL POND, 9 A. M.; LYNCH, 10.00 A. M.; WORTON, 10.30 A. M.; CHESTERTOWN, 1.00 P. M.

WEDNESDAY, APRIL 16th, 1913:
POMONA, 9 A. M.; LANKFORD, 10 A. M; EDESVILLE, 10.30 A. M.; FAIRLEE, 12 noon

Mr. Marbury in visiting these places desires to meet the people face to face, talk with and explain to them the reasons why he should be elected to represent Maryland in the U. S. Senate in the place of Hon. John Walter Smith.

Mr. Marbury represents in Maryland the views and principles of PROGRESSIVE DEMOCRACY. He especially appeals to the people as the representative whom they should elect to uphold President Wilson in the PROGRESSIVE POLICIES advocated by him.

He would very much like you to attend one of these meetings nearest your place of residence in order that the PROGRESSIVE PRINCIPLES, represented by him, may be discussed, talked over with you and explained to you, eye to eye and face to face, in order that you may fully understand that the campaign of villification and abuse is not only leveled at him but directed at the principles and policies of President Wilson. We hope that you will avail yourself of this opportunity to meet this distinguished friend of our President.

Yours very truly,
MARBURY COMMITTEE.

Marbury Hits Smith.

In his great speech at Salisbury on Saturday, Mr. Marbury gave Senator Smith a heavy jab in the following striking language:

"Senator Smith boasts of his party regularity. If never to have made any sacrifice of your reputation for the regularity in the interests of decent policies, if never to have lifted your voice against evil men and evil conditions in your own party; if never to have had the courage to aid any of these things be the test of Democracy, I yield the palm to Senator Smith.

TAKES UP PAMPHLET.

"I notice that in the pamphlet which the Senator's friends around here are circulating against me it is contended that I should not be elected to the Senate because at one time I opposed Mr. Bryan. But Judson Harmon also opposed Mr. Bryan at the same time I did and yet Senator Smith supported Judge Harmon for the nomination for the Presidency and carried his own county of Worcester for him last spring.

"But I think you will find that Mr. Bryan and his friends would rather see elected to the Senate a man who, acting according to his honest convictions on the currency question, has the courage to oppose him openly many years ago, but who stands for the same principles which he with Woodrow Wilson stand for to-day than one who, while always voting in order to save his own reputation for party regularity, is opposed in his heart to everything which those men stand for and which the national Democracy stands for to-day.

"If you don't think so ask Mr. Bryan. I will take the risk of his giving an unfavorable answer. If he does, I will withdraw my candidacy this instant. For Mr. Bryan is part, and a great part, of the Wilson admistration, and I have something better to do than attempting to fight the Wilson administration or any part of that administration in this campaign. I will leave that task to Senator Smith."

PUBLIC SALE
—OF—
"Wickliffe Farm"

BY virtue of competent authority as attorney for James W. Stevens, the owner, I will offer at Public Sale in front of the Court House Door, in Chestertown, Kent county, Maryland, on

TUESDAY, APRIL 29, 1913,

between the hours of 11 o'clock A. M. and 12 o'clock noon, all that

VALUABLE PLANTATION

or ESTATE, containing

375 Acres

of land, known as

"WICKLIFFE."

This handsome estate is situated on Eastern Neck Island, in Kent county, Maryland, on the waters of the Chester River and the Chesapeake Bay. It is one of the handsomest and most desirable farms on the Chesapeake Bay. Its peculiar location, lying as it does at the mouth of Chester River, at this point 3 miles wide, with the waters of the Chester River on the east side and those of the Chesapeake on the west, with an unsurpassed River and Bay view, make it one of the most valuable tracts of land now on the market. For years past peaches from this farm and Eastern Neck Island have commanded the highest market prices in Baltimore and other markets.

It has been many years since any estate as fine as this in Kent county has been offered for sale. The land is well adapted to the growth of all grains, fruits, berries, grass and everything else which can be grown on the most productive soils in Kent. It is within one mile of the wharf of the Chester River Steamboat Co., on Eastern Neck Island. The shores of the farm are close to the interesting, valuable and largest oyster beds; the fisheries here are valuable, and for the last century its shores have been known for its fine swan, wild geese and duck shooting.

THE FINE DWELLING 

is a large and commodious frame structure having 10 or 12 rooms with a wide attractive porch, surrounded by ample shade. There is a Barn, Stable, Dairy, Meat House and other buildings on the farm. Any one wishing a home on the SHORES OF THE CHESAPEAKE BAY, or to any one desiring a profitable investment this farm offers a most attractive opportunity. It is about 6 miles from the thrifty and thriving town of Rock Hall, the proposed terminus of the projected Kent County Railroad, and the last landing of the Chesapeake and Delaware Line of steamers in daily communication with Baltimore.

Possession will be given January 1st, 1914, and satisfactory arrangements can be made with the owner to deliver possession at an early date.

TERMS OF SALE—One-third of the purchase money cash on the day of sale and the residue in two equal installments, payable in one and two years respectively.
