State of Maryland, County of Kent, ss: I, W B. Copper, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

W. B. COPPER, Cashier.

Subscribed and sworn to before me this 10th day of April, 1913.

SIDNEY P. TOWNSHEND, Notary Public.

Correct—Attest:

GEORGE D. LOFLAND,
HOPE H. BARROLL,
WILBUR W. HUBBARD,
Directors.

I'M TAKING MEASURES for the INTERNATIONAL TAILORING Co., of New York, Chicago and London, the largest exclusive, MADE-TO-MEASURE Clothing plant in America. The proposition I'm offering is entirely different from others, and the FIT, MATERIAL AND WORKMANSHIP fully guaranteed, both by me and this plant. The quotations on 500 specimens will be an agreeable surprise to anyone having a suit to buy. Call at my office and investigate.

Respectfully,

W. E. Moody,

UNDER THE VOSHELL HOUSE NEXT TO ROBERT McWHORTER'S,

Chestertown, - Maryland.

Ice Plant Sold.

Mr. Robert G. Nicholson has sold to the Chestertown Electric Light and Power Company his large and splendidly equipped ice plant, situated near the old depot. The consideration is $20,778 36. When negotations for the transfer of this property arose, both parties to the transaction agreed to abide by the decision of three abitrators, as to the value of the plant. By mutual agreement former Judge James A. Pearce, Messrs. George D. Lofland and Merrick Clements, were appointed arbitrators, and after performing their duties faithfully and well, going into every detail of the plant, the good-will, etc., these gentlemen agreed upon the price stated above as a fair and just valuation of the plant. Mr. Nicholson has been officially notified of the sale, and possession will be given as soon as the necessary papers are signed. The location of the plant will remain unchanged for the remainder of this year, after which it may be removed to the company's property on the old Thompson wharf. Mr. Nicholson has given the public good service during the time he has owned the ice plant. He has manufactured a fine grade of ice and sold it at a reasonable price to the consumer. We have every reason to believe that the new owners will do the same thing, and give the public the same satisfactory service. It is rumored that the purchase of the ice plant may mean day electric light service for the town.

WATER FRONT FARMS FOR SALE

No. 654—260 acres nicely located on Chester river, only about 6 miles from Chestertown; 80 to 90 acres in timber, balance tillable, 13 acres apple orchard, two acres in pears, fine oyster cove. Corn Planters

The new Superior Planter is the ideal in corn planters. It is what its name implies, "SUPERIOR." Has both edge and flat drop by simply changing the plates. Corn experts say the flat drop is necessary in order to plant the round grains, so we are able in this planter to furnish both. It has the quick change of quantity without change of plates, planting 2, 3 or 4 grains by simply moving the lever.

Now, the one thing that has given all manufacturers of planters trouble is the fertilizer attachment. The attachment for this planter is only the one made that is smaller at the top than it is at the bottom, which makes it absolutely impossible for the fertilizer to clog up and assuring you at all times of getting the regular quantity in each hill.

We have the machine on our floor which we will be pleased to show you. Call and see it.

INFORMATION FOR

Progressive Threshermen

FOR 1913

SUGGESTIONS

FRICK MACHINERY

If an Article Wears Well and Does the Work we Soon Forget the Cost; if it Does Not Wear, we Always Remember the Price.

The 20th Century Farmer demands thorough and clean threshing and quick work. If you can satisfy him on these points, you can retain his trade, and at practically your own price.

In buying a Threshing Rig, it is, therefore, very essential that the progressive thresherman, if he would make his business profitable, recognize the necessity of getting not only the best constructed and most durable machinery, but machinery that is convenient to handle, easily adjusted to suit various conditions, and free from numerous complicated parts. It is self-evident that the more complicated a machine is, the more trouble and delays you will likely experience.

If you want machinery that will meet all conditions successfully without the necessity of spending a large percentage of your profit for repairs, WE have it. Our late models are the "Acme" of perfection and will please the most exacting. Advising with us, we believe, will stimulate your interest in the FRICK line to the extent of seeking further information before your final decision.

Send for free Catalogue giving details of our popular Rigs. Give us an idea of the quantity of grain you wish to handle daily and we will tell you what size will be best suited to do the work economically and profitably in a business that must be handled in a comparatively small part of the year.

Remember that all Machinery is Fully Guaranteed and Must Be as Represented.
