GET THESE Money-making Secrets WITH THE Farm Journal

Is this cock properly held? "Poultry Secrets" tells how to carry fowls, and other secrets far more important.

FARM JOURNAL ("cream, not skim milk") is the great little paper published for 36 years in Philadelphia by Wilmer Atkinson. It is taken and read by more families than any other farm paper in the WORLD. Its four million readers (known as "Our Folks") are the most intelligent and prosperous country people that grow, and they always say the Farm Journal helped to make them so. Their potatoes are larger, their milk tests higher, their hogs weigh more, their fruit brings higher prices, because they read the **Farm Journal.**

Do you know Peter Tumbledown, the old fellow who won't take the **Farm Journal?** By showing how NOT to run a farm, Peter makes many prosperous. Nobody can go on reading the **Farm Journal** and being a Tumbledown too. Many have tried, but all have to quit one or the other.

The **Farm Journal** is bright, brief, "boiled down," practical, full of gumption, cheer and sunshine. It is strong on housekeeping and home-making, a favorite with busy women, full of life and fun for boys and girls. It sparkles with wit, and a happy, sunny spirit. Practical as a plow, readable as a novel. Clean and pure, not a line of fraudulent or nasty advertising. All its advertisers are *guaranteed* trustworthy.

The **Farm Journal** gives more for the money and puts it in fewer words than any other farm paper. 32 to 80 pages monthly, illustrated. FIVE years (60 issues) for $1.00 only. Less than 2 cents a month. No one-year, two-year or three-year subscriptions taken at any price.

The Farm Journal Booklets

have sold by **hundreds of thousands,** and have made a sensation by revealing the *SECRETS OF MONEY-MAKING* in home industry. People all over the country are making money by their methods.

POULTRY SECRETS is a collection of discoveries and methods of successful poultrymen. It gives Felch's famous mating chart, the Curtiss method of getting one-half more pullets than cockerels, Boyer's method of insuring fertility, and priceless secrets of breeding, feeding, how to produce winter eggs, etc.

HORSE SECRETS exposes all the methods of "bishoping," "plugging," cocaine and gasoline doping, and other tricks of "gyps" and swindlers, and enables any one to **tell an unsound horse.** Gives many valuable training secrets.

CORN SECRETS, the great NEW hand-book of Prof. Holden, the "Corn King," shows how to get ten to **twenty bushels more per acre** of corn, rich in protein and the best stock-feeding elements. Pictures make every process plain.

EGG SECRETS tells how a family of six can make hens turn its table scraps into a daily supply of fresh eggs. If you have a back-yard, get this booklet, learn how to use up every scrap of the kitchen waste, and **live better at less cost.**

THE "BUTTER BOOK" tells how seven cows were made to produce **half a ton of butter** each yer year. (140 pounds is the average). An eye-opener. Get it, weed out your poor cows, and turn the good ones into **record-breakers.**

STRAWBERRY SECRETS is a revelation of the discoveries and methods of L. J. Farmer, the famous expert, in growing luscious fall strawberries almost until snow flies. How and when to plant, how to fertilize, how to remove the blossoms, how to get three crops in two years, etc.

GARDEN GOLD shows how to make your backyard supply fresh vegetables and fruit, how to cut down your grocery bills, keep a better table, and get cash for your surplus. How to plant, cultivate, harvest and market.

DUCK DOLLARS tells how the great Weber duck-farm near Boston makes every year 50 cents each on 40,000 ducklings. Tells why ducks pay them better than chickens, and just HOW they do everything.

TURKEY SECRETS discloses fully the methods of Horace Vose, the famous Rhode Island "turkey-man," who supplies the White House Thanksgiving turkeys. It tells how to mate, to set eggs, to hatch, to feed and care for the young, to prevent sickness, to fatten, and how to make a turkey-ranch PAY.

The MILLION EGG-FARM gives the methods by which J. M. Foster made over **$18,000 a year,** mainly from eggs. All chicken-raisers should learn about the "Rancocas Unit," and how Foster FEEDS hens to produce such quantities of eggs, especially in winter.

DRESSMAKING SELF-TAUGHT shows how any intelligent woman can design and make her own clothes, in the height of fashion. The author has done it since she was a girl. She now has a successful dressmaking establishment and a school of dressmaking. Illustrated with diagrams.

SHALL I FARM? is a clear, impartial statement of both advantages and drawbacks of farming, to help those who have to decide this important question. It warns you of dangers, swindles, and mistakes, tells how to start, equipment needed, its cost, chances of success, how to get government aid, etc.

These booklets are 6 x 9 inches, and profusely illustrated.

What Our Folks Say About F. J.

"I have had more help, encouragement and enjoyment out of it in one year than I did out of my other papers in ten years," says C. M. Persons.

"It is a queer little paper. I have sometimes read it through and thought I was done with it, then pick it up again and find something new to interest me," says Alfred Krogh.

"Farm Journal is like a bit of sunshine in our home. It is making a better class of people out of farmers. It was first sent me as a Christmas present, and I think it the choicest present I ever received," says P. R. LeValley.

"We have read your dear little paper for nearly 40 years. Now we don't live on the farm any more, yet I still have a hankering for the old paper. I feel that I belong to the family, and every page is as dear and familiar as the faces of old friends," says Mrs. B. W. Edwards.

"I fear I neglect my business to read it. I wish it could be in the hands of every farmer in Virginia," says W. S. Cline.

"I live in a town where the yard is only 15 x 18 feet, but I could not do without the Farm Journal," says Miss Sara Carpenter.

"I get lots of books and papers, and put them aside for future reading. The only paper I seem to have in my hands all the time is Farm Journal. I can't finish reading it. Can't you make it less interesting, so I can have a chance at my other papers?" writes John Swail.

"If I am lonesome, down-hearted, or tired, I go to Farm Journal for comfort, next to the Bible," says Mabel Dewitt.

"Farm Journal has a cheerful vein running through it that makes it a splendid cure for the "blues." When coming home tired in mind and body, I sit down and read it, and it seems to give me new inspiration for life," writes G. E. Halderman.

"We have a brother-in-law who loves a joke. We live in Greater New York, and consider ourselves quite citified, so when he sent us the Farm Journal as a New Year's gift we nearly died laughing. 'How to raise hogs'—we who only use bacon in glass jars! 'How to keep cows clean'—when we use condensed milk even for rice pudding! 'How to plant onions'—when we never plant anything more fragrant than lilies of the valley. I accepted the gift with thanks, for we are too well-bred to look a gift horse in the mouth. Soon my eye was caught by a beautiful poem. I began to read it, then when I wanted the Farm Journal I found my husband deeply interested in an article. Then my oldest son began to ask, 'Has the Farm Journal come yet?' He is a jeweler, and hasn't much time for literature, but we find so much interest and uplift in this fine paper that we appreciate our New Year's gift more and more," writes Ella F. Burkman.

"I received 'Corn Secrets' and 'Poultry Secrets,' and consider them worth their weight in gold," says W. G. Newall.

"What your Egg Book tells would take a beginner years to learn," says Roy Chaney.

"Duck Dollars is the best book I ever had on duck-raising," says F. M. Warnock.

"If your other booklets contain as much valuable information as the Egg-Book, I would consider them cheap at double the price," says F. W. Mansfield.

"I think your Egg-Book is a wonder," says C. P. Shirey.

"The Farm Journal beats them all. Every issue has reminders and ideas worth a year's subscription," writes T. H. Potter.

"One year ago I took another agricultural paper, and it took a whole column to tell what Farm Journal tells in one paragraph," says N. M. Gladwin.

"It ought to be in every home where there is a chick, a child, a cow, a cherry, or a cucumber," says I. D. Bordus.

BASE BALL NOTES.

There was something doing all along the line in baseball on Saturday.

Washington College first team went to Mt. St. Joseph's College, and were snowed under by the score of 19 to 2. The locals could do nothing with the pitching of Morrisette, the star college pitcher of the State.

Washington College Reserves and Centreville High School played an interesting game on Washington field, the collegians winning by the score of 6 to 5.

A slugging match took place on Ford's field on Saturday afternoon between the Millington and Chestertown High School teams, resulting in a victory for the High School. Score 19 to 12. The High School team is a strong team, and will improve as the season advances. Robinson is a fine catcher, and will make his mark while Jarman, Ford, Bartley and Brown are good fielders.

Washington College will play the strong team from Western Maryland College on Washington field this afternoon at 3.30 o'clock. Here's luck to Washington, even if there is a Bowers on the Western Maryland team.

The Still Pond third team defeated the Worton team by the score of 16 to 15. The winning run was won by Harper's three-bagger and Smith's long fly to right field. Batteries for Still Pond were Meeks and Jones.

State's Proposed New Game Law.

A bill will be introduced in the Maryland Legislature at the 1914 session by the Maryland State Game and Fish Protective Association, which will provide at least $30,000 for game protection and propagation. The proposed bill provides:

Makes it unlawful for any person to hunt, kill or pursue game in Maryland without a license, to be obtained from the clerks of the Circuit Court of the counties and the clerks of the Superior Court of Baltimore City. A resident of Maryland pays $1.00 and a non-resident $10.00, including clerks fees. Following the form adopted in twenty-four States, owners of farm lands, their children or tenants, are exempt while gunning on their own or leased lands; provision is also made for a non-resident taxpayer to assessed value of $500.00 to be classed as a resident. The license is not transferable and expires June 1.

Provides the manner in which licenses shall be issued, by mail if desired; safeguards the handling of the fund so that no portion of the money shall be used except for protection and propogation. Provides a penalty of not less than $10.00 nor more than $25.00 for violation, exempts the Susquehanna Flats and any county which already has a resident hunting license.

Money to be expended in the counties in proportion to number of licenses issued in said county. This means a division of the money paid by residents of Baltimore City, calculated as over half of what will be received, among the counties according to the number of licences said county issues. For example if a county issues 5,000 licenses, it gets five times as much money as a county issuing 1,000; if any county exempts itself from the bill, it gets nothing.

In and Around Georgetown.

A Sunday school was organized at Westminister Presbyterian church last Sunday under the direction of the pastor, Rev. Wm. Clews.

Mr. J. E. Woodall, Jr., was a Baltimore visitor part of the past week.

Miss Bertie Brockson, of Galena, acted as substitute at Galt's public school part of last week.

Miss Esther T. Cockran, of Galena, spent part of the week with friends in Middletown, Del.

Miss Carrie M. Dempsey has returned to her home in Galena after a delightful visit with her sister, Mrs. O. H. Connelly, of Christiana, Del.

Mrs. James E. Woodall, Jr., and little daughter are visiting relatives in Middletown.

Mr. Roland Kendall, of Galena, returned home Monday from a few days visit with friends in Denton.

Miss Marion B. Woodall attended the dance at Delaware College last Friday evening.

We are glad to state that Master Hanson Cockran, who has been quite ill, is rapidly improving.

Prof. A. L. Greenwood and Mrs. Greenwood, were the week-end guests of friends in Chestertown.

Mr. I. L. Dempsey is having the Todd property, opposite Galena cemetery, much improved and expects to make it his home.

Mr. Tommy Brockson, of Philadelphia, is visiting his mother, Mrs. Walter Hadley, in Galena.

Master Robert Welch has been suffering for the past few days with a finger, which was badly bruised and mashed by a door blowing to on it.

Still Pond Notes.

Misses Mary Turner and Catherine Starkey, of Baltimore, spent the week-end at the home of Mrs. Wilson.

Mr. Jewell Thompson spent Monday and Tuesday in Baltimore.

Mrs. Sallie Norris is spending the week in Galena.

Mr. John Jarvis has been real sick the past week. He has pneumonia.

Mr. and Mrs. Sam Busick, Miss Evelyn and Mr. Harry Busick, Mr. and Mrs. Miller, of Baltimore; Mr. and Mrs. McCratey, Mrs. Chew and daughter and Mrs. Olive Bidwell and Mr. Carrington, of Philadelphia, were among the out of town folks who attended the funeral of Mr. John Parrott.

The Young Men's Social and Literary Club had their meeting Monday evening. The ladies were invited, a short programme rendered, and refreshments served later. The young men are getting ready for an entertainment to be given in Harper's Hall sometime in May.

The men that are laying the concrete walk expect to nearly finish this week. It certainly is a great improvement to our little town.
