Conference On Education.

There was held in Richmond, Va., April 15-18, inclusive, a conference on Education, in which the country church, farm life, and the country school, were the most prominent subjects discussed. I attended that conference. There were estimated to be present 2,000 persons from all over the United States. The subjects were introduced by experts in their line—*co-operation* among farmers for their religious, mental, social and financial uplift—was the key note of every address. From start to finish the interest manifested was most absorbing. I went to this gathering with hope, staid with the most intense pleasure and profit and came away wishing I was but thirty years old and had not less than two lives to consecrate to the work of going up and down this Eastern Shore and preaching the Gospel *of better churches, better schools, better and more profitable* farm life. The grange is going to hear from me on these subjects, for I hope to instil into some younger man the spirit with which I feel myself just now imbued and let him take up the fight. We have a *good* foundation to build on, a good, blessed country free from every extreme, where we do not for months in the year "have to set our winter up edgewise," where we do not have rocks and arid places to deal with, where cyclones, tidal waves and floods are comparatively unknown, and above all, where we have the capable men and women to do the upbuilding if they can be waked up. The waking up is the difficulty. We are beginning to rub our eyes and yawn, and I hope the awakening will soon come. The average Eastern Shoreman looks out over our green fields, pats himself on the shoulder and calls himself a good farmer. So he is in many respects, but he is a mere serf all the same. If he had gone to this conference and rubbed up against the hard-fisted, deep-thinking, prosperous and wide-awake Western and Southwestern man he would have come to the conclusion that I came to, that with three hundred years of farm life behind us, years that have caused our prejudices to take root and made us more and more narrow, we need awakening. Our strapping brother of the West has outgrown us, leaving us as it were in our swaddling bonds. Some, I am thankful to say, are getting ashamed of these same bonds, are putting on kilts, and hope soon to wear the clothes of the full grown man.

Hicks' Forecasts For May.

With a regular storm period central on the 4th, and extending from the 2nd to the 7th, expect all the results due under such astronomic conditions. The Moon is on the celestial equator on the 2nd, and in conjunction with Earth and Sun on the 6th. It will grow suddenly very warm on and about the 2nd, the barometer will fall to low reading, and a series of threatening thunder storms will set in, pasing from west to east over the country. The 4th, 5th and 6th will be the dates of greatest storm culminations, although the 2nd calls for active lightning and thunder. Change to clearing and cooler weather will follow in the immediate wake of the storms.

A reactionary storm period is central on the 9th, 10th and 11th. The Mercury equinoctial period begins in this reactionary period, and its added influence will be noticeable in thick, prolonged cloudiness, with tendency to drizzle and rain. Very cool nights with probable frosts northward, will come with the high barometric area behind these storms.

A regular storm period, and the mercury period both have their centers on the 16th. While the effects of the Mercury disturbance will be apparent from about the 9th to the 20, it will be felt in greatest power during the storm periods with in the mercury brace. This will be especially true on and about the 15th, 16th, 17th and 18th. The Moon being in perigee and on the celestial equator on the 15th, electrical and wind storms of great energy are apt to appear on and touching that date.

A reactionary storm period involves the 21st, 22d and 23rd. On and touching these days all the meteorological elements will undergo a periodic change—temperature will rise, barometer will fall, cloudiness will ensue, and renewed storms of more or less rain, wind and thunder will make their transit eastwardly across the country. The center of another seismic period falls on the 20th. Very cool nights for so late in the season will result from the high barometer, and other anti-storm conditions, about the 23d to 26th.

A regular storm period covers the last week in May, being central on the 27th. The Moon is at last quarter on the 27th, in apogee on the 28th, and on the celestial equator on the 29th.

Asbury M. E. Church, Rev. I. G. Fosnocht, pastor.—Services next Sunday, May 4th, as follows: 10.30 A. M., preaching by pastor, subject—"How We Will See Jesus in Heaven"; 2 30 P. M., Sabbath school; 7.45 P. M., preaching by pastor, subject—"What to Wear and What to Find." Class meeting immediately after the morning service. Friday evening 7.45, prayer service. All invited.

Mrs. C. W. Moore, of Galena, was the guest of friends in town last Friday.

Quite a few of the residents of our town are improving their homes with a new coat of paint.

Mr. Norman Higman, who had his feet quite badly burned about two weeks ago with slacked lime, is now able to be out again. He also had to have two fine mules killed last week which were burned in the lime.

The first quarterly conference will be held at Asbury M. E. Church next Saturday, May 10th, at 10 A. M.

Misses Isabella and Carrie Wiest spent last Sunday with friends in Galena.

Mr. and Mrs. Morris Goldstein, of Centreville, spent the week-end with her sister, Mrs. I. N. Hollins.

The regular monthly meeting of the Woman's Foreign Missionary Society of Asbury M. E. Church will meet at the home of Mrs. John S. Newuam, near town, next Thursday, May 8th, 8 P. M.

Mrs. Kate Tonkin and son, George, visited her aunt, Mrs. Lulu Gardner, of Smyrna, Del., last Sunday.

Potato Crop Badly Hurt.—The early potato crop has been seriously damaged by the recent heavy rains and cold snaps. A number of the growers have examined their patches during the week, and they have found that the seed potatoes have rotted in the ground. Mr. A. E. Nicholson has scarcely a sound seed in his entire acreage, while four-fifths of Mr. John P. Nicholson's crop is rotted in the ground. Mr. Wm. T. Nicholson will lose about two acres from a total tillage of 20 acres. The growers are undecided as to how to retrieve the loss. Some are thinking of replanting, while others are contemplating preparing the ground for a late crop. If conditions are such as some growers fear, they will suffer heavy loss in this their first venture in potato culture.

Baltimore's Best Store Refunds Your Money If You are not Satisfied

NOT a new idea with this store—we started to do this nearly sixteen years ago, when the store opened—and we have been doing it every business day ever since. That is one of the reasons why the Hochschild, Kohn & Co. Store is the most popular store in Baltimore.

Why should any merchant want a customer to keep unsatisfactory goods? Goodness knows, we don't. We want the active friendship and co-operation of every living soul with whom we do business. We want to feel that every dollar that comes in represents money given for value received—money paid by people who were satisfied with what they received in exchange for it.

That's the commonsense side of the "money-back" proposition.

And here's another:

The merchant who money-backs his goods is the man who is sure of them. He can't afford to buy doubtful merchandise.

When you come to Baltimore, we want an opportunity to supply you with the things that you can't find in your home-town stores. In the meantime, we'll be glad to serve you by mail.
