TAKE

MOODY'S

sure cure for misfits, guaranteed to cure or you don't have to take it. You may think you've been fitted perfectly before. BUT—try one, measured by me and made by the International Tailoring Co., and I don't believe the other fellow can summon courage enough to tell you—"Here's something just as good"—and the sale cost will be a revelation to you.

Respectfully,

W. E. MOODY, *Office under Voshell House next to Robert McWhorter's,*
CHESTERTOWN, MARYLAND.

AFTER driving Detroiter 7,500 miles over all sorts of roads, I recommend it to any one desiring the purchase of an Automobile. It is by far the leading $900 car in America to-day—possessing features only found on $1200 to $1500 machines. After using machines for 5 years I am in a position to know when I see a dependable, desirable car, and the "Detroiter" is just *that* car. You get an Automobile in quality, style and motoring qualities when you get a "Detroiter."

INFORMATION FOR
Progressive Threshermen
FOR 1913

SUGGESTIONS

If an Article Wears Well and Does the Work we Soon Forget the Cost; if it Does Not Wear, we Always Remember the Price.

The 20th Century Farmer demands thorough and clean threshing and quick work. If you can satisfy him on these points, you can retain his trade, and at practically your own price.

In buying a Threshing Rig, it is, therefore, very essential that the progressive thresherman, if he would make his business profitable, recognize the necessity of getting not only the best constructed and most durable machinery, but machinery that is convenient to handle, easily adjusted to suit various conditions, and free from numerous complicated parts. It is self-evident that the more complicated a machine is, the more trouble and delays you will likely experience.

If you want machinery that will meet all conditions successfully without the necessity of spending a large percentage of your profit for repairs, WE have it. Our late models are the "Acme" of perfection and will please the most exacting. Advising with us, we believe, will stimulate your interest in the FRICK line to the extent of seeking further information before your final decision.

Send for free Catalogue giving details of our popular Rigs. Give us an idea of the quantity of grain you wish to handle daily and we will tell you what size will be best suited to do the work economically and profitably in a business that must be handled in a comparatively small part of the year.

Remember that all Machinery is Fully Guaranteed and Must Be as Represented.

A REFERENCE.

The Kent News published this editorally last Saturday:

"Dr. W. F. Crafts writing in the Christian Herald last week says:

"'Depend upon it, those who have envy in their hearts have much lying to do to sustain themselves in the charges they make against others. They may think that 'lying is the easiest way out,' but they will find it is not. To be forced into lying is like being entrapped in a labyrinth.'"

We refer the above to George E. Noland, Esq., for verification.

A Tribute to John B. Parrott.

The village of Still Pond, in fact the whole of Kent county, sustained an irreparable loss when John B. Parrott passed away. His work for the town will make his name remembered as long as the feet of men pass over the sidewalks. He was a servant of the people, receiving no pay for his arduous labor, he often grew weary in well doing, I am sure. He was always a public-spirited citizen, and especially since he retired from his farming operations.

As soon as he decided to make his home in Still Pond, the need for some modern improvements became his ambition, and we all feel sorry that he could not have lived just a little longer so that his latest and best work might have had his approval.

The town was incoporated and street lights put in, and each evening when they are lighted more than one person has a kindly thought for this man.

He was a man who usually accomplished what he started to do, because he worked hard at it until it was done. His time was his own, and he chose to use it in working for others. He had a will of his own with a purpose back of it always, hence his achievements. The neat appearance of the side walks and road are the monuments which he hims self built, and as long as they remain, and longer too, will the memory of John Parrot be enshrined in the hearts of the residents of Still Pond, and their children and grandchildren will come to know and love and respect him.
