Worton, Md.

MOTOR-BOAT RACES

To be Held at Chestertown Thursday, August 28th, from 10 to 12 m.

Arrangements are under way for a motor-boat race to be held at Chestertown during Fair week. There will be three to four classes and will be represented as follows: Cabin boats, canoes, skiffs and speed boats. All persons wishing to enter boats will notify Mr. H. Clay Brown, of Chestertown, stating name of boat and owner with discription of same before the 26th of August. The rules governing the races are as follows: The committee boat will give a preparatory signal, followed five minutes later by a starting signal, and fifteen seconds later "time limit" signal. All boats in race must cross the line between the starting signal and "time limit" signal or be ruled out. After running for a time to be decided upon by the judges, a signal is given to turn back, and each boat retraces its course to the starting line. The first over the line receives the prize for that race. Any attempt to "beat the rules" will cause a boat to be disqualified by the judges. Therefore all boats must be opperated at full speed, both going and returning. There will be no entrance fees and every boat stands an equal chance to win a prize.

Why Trees Have Died.

Prof. Thomas B. Symons, State Entomologist, has made the following report relative to the death of a number of the town's shade street. The report speaks for itself and should interest our town authorities.

"From the superficial inspection I was able to make of the various shade trees that are dying along the streets of the town, particularly those in front of the home of Dr. Simmons and along the street leading to the river, and from the evidence of persons familiar with conditions, it is my opinion that the injury is mainly due to leaks in the gas mains adjacent to the effected trees. This, of course, can only be verified by an investigation of the gas mains at these particular points. The fact that the electric light wires and telephone wires are strung in the midst of the trees would serve as an additional cause for injury from time to time.

It is a great shame that so many trees are dying and it seems to me that the town authorities and individuals effected should make a thorough investigation of the trouble and rectify it if possible.

Mr. I. L. Dempsey and Mr. J. Whiteford, of Galena, had a narrow escape while installing some machinery in the new cannery at Wilson's Point on Monday. A large log became loose from its place and rolled on the trestle on which the men were working, crushing it. Mr. Whiteford was near the end and caught on a projecting crane, but Mr. Dempsey was dropped on a pile of stones below, injuring his ankle and forcing the bones up out of place. He is much better at this writing.
