LOCAL MATTERS

Engagement Announced.—An engagement of especial local interest recently announced is that of Miss Margaret Johnson Stevens, daughter of Mrs. Stevens and the late Richard H. Stevens, of Baltimore, to Mr. Samuel H. Greenwood, of Saginaw, Michigan, son of Mr. and Mrs. Frank H. Greenwood, of this town. The wedding will take place in November.

Dies From Poison.—Mrs. Ola Catts, divorced wife of Robert M. Catts, a real estate operator of New York, died on Wednesday from the effects of poison at 1617 N. 17th street, Philadelphia. Mrs. Catts was the daughter of Mrs. McWhorter, of Millington, and some years ago married Catts, who was a salesman for a picture house. It is said that an unhappy wedded life was the cause of Mrs. Catts taking her life.

Little Boy Seriously Injured.—Crushed beneath a falling horse, Eliason Legg, the 12-year-old son of Mr. and Mrs. J. H. C. Legg, is lying at his home in Centreville in a critical condition. He borrowed the saddle horse of John McKenney and the horse slipped on the pavement, near the Pennsylvania Station, and pinned the boy beneath it. He was severely bruised and had the ligaments of the right leg torn and possibly suffered concussion of the brain.

Mrs. Melvin's Will.—The will of Mrs. Hester A. Melvin, late of Kent county was admitted to probate in the Orphans' Court on Tuesday. The will bequeaths to the two daughters, Misses Mary Ella and Estalena, the comfortable home in Morgnec and to one the cash in the Third National Bank, and to the other the cash in the Chestertown Bank of Maryland. The real estate is bequeathed for the life-time of the daughters, after which it is to be sold to the highest bidder among the children or grandchildren then living. The will was written in 1904, and names Miss Mary Ella Melvin executrix.

Changes in Teachers.—Miss Ruby Ahern, who for the past three years has been a member of the Chestertown High School faculty, has resigned to accept a position in the Millington school. Miss Edith Harley takes Miss Ahern's place here, while Miss Mary Whaland comes from Rock Hall High School to take Miss Harley's place in the primary school here. Miss Daisy Ford goes to Rock Hall, Miss Sophia Miller has been appointed principal at Galena, Miss Mary Smith vice-principal at Galena; Miss Minnie Grinsfield vice-principal at Rock Hall, and Miss Anna Mae Ayres second grade teacher in Rock Hall.

Mrs. Rose Strong, of Rock Hall, has rented Mrs. M. E. Stuart's house on Queen street. We understand that Mr. Baxter will engage in farming next year.

Robbins' circus showed to a big crowd on Thursday. It will be remembered that this is the circus that showed here on the night of the great fire, and the employes of the circus did noble work in trying to subdue the fire. We are told she receives $200 a week salary.

Epworth Leaguers Take Chestertown.

Seventeen hundred Epworth Leaguers from the West Baltimore District took possession of Chestertown yesterday on an all day excursion. The steamer from Baltimore reached here about twelve o'clock and was met by a committee of the local chapter which conducted them to the lawn of the M. E. Church, where the ladies served a luncheon. The afternoon was devoted to addresses of welcome on behalf of the Epworth League by Mr. C. Norman Jefferson, and on behalf of the Sunday School, Church, and the community generally by Rev. Dr. L. E. Barrett. Addresses bearing upon important religious subjects of interest to Epwortheans were delivered by Rev. Dr. Lichliter, of Grace Church, Baltimore, and also by Rev. E. F. Watson, of Baltimore. The excursion was given for the benefit of the Aged Women's Home in Baltimore. The day proved to be an enjoyable one, and every one said to the visitors "Come Again." Other ministers who accompanied the excursionists were Rev. Dr. S. Reese Murray, a former pastor of Christ M. P. Church, now pastor of Catonsville M. E. Church, and Rev. Dr. Van Arsdale, a former pastor of Havre de Grace M. E. Church. Among the amusements furnished for the excursionists were a game of base ball, tennis matches, etc., on the college campus, all of which drew large crowds.

Committed Suicide.

Remarking in what was thought a joke, that he was going to commit suicide, Carl Deetjen, formerly of Baltimore, who conducted a grocery store in Church Hill, purchased a revolver Friday from his friend, Harry Walls, a hardware dealer, went to his store and blew out his brains shortly after six o'clock last Friday night. The motive ascribed for the deed is despondency over an injury which Deetjen received in a street-car accident 10 years ago in Philadelphia. The suicide was the son of John Deetjen, a cigar salesman of Baltimore, and has relatives in Queen Annes. The young man's father is critically ill at his home in Northwest Baltimore.

IMPROVED TELEPHONE SYSTEM FOR CHESTERTOWN.

Order Has Been Placed for New Switchboard.—No More Turning of the Crank to Signal the Operator.—Equipment to be the Same as That in Baltimore and Other Cities.

The Engineering Department of the Chesapeake & Potomac Telephone Company has just given out the details of the new switchboard and operating system to be installed in Chestertown, for which plans and specifications have been prepared.

The new switchboard will consist of four single-position sections, and will be equipped with 300 subscriber lines, 30 rural lines, and 20 toll lines. It is now being manufactured by the Western Electric Company, at their plant in Hawthorne, Ill., and will be no exception to the high-class equipment turned out by this company.

It is so designed that additional operating positions can be installed at any time without interruption to the service; and a large provision has been made for the future growth of the telephone in this section.

The operating of this board will be much simpler than the one now in use, as the new switchboard will be equipped with a lamp signal for every line coming in, which will light up the moment the subscriber takes the receiver off the hook.

While every telephone connected with the switchboard has but one place on the board where the subscriber's signal appears, it is possible for any operator working at any position of the switchboard to reach and make connections with any of the telephones in Chestertown. This is made possible by what is known as a "subscribers' line multiple" and is one of the features which have increased the telephone business to the wonderful proportions it has assumed in the last few years.

The new switchboard will be equipped with a calculagraph. This is an instrument used by the toll operator to record the time of a long distance conversation. Its use avoids the chance of an operator making an error in writing down the time. It consists of a clock with an arrangement for recording the time by stamping in on a slip called a toll check. Just as the long distance conversation is started, the operator presses a lever that stamps the time on the back of the check on which she has recorded the number. At the close of the conversation she presses the lever again, which again records the time and stamps on the check in plain figures a record of the time elapsed.

At the time of the installation of the new switchboard, much of the present equipment in the other departments will be replaced. There will be a new hot-water heating system installed, new storage batteries, and new quarters for the wire-chief.

Plans are completed for a rest room for the operators, and better facilities for transacting business with the public in the Commercial Department.

The new type of telephone service will mean much for Chestertown. It will place it, as far as telephone service is concerned, on a footing with Baltimore and other large cities. In making a telephone call all that will be necessary will be to lift the receiver and give your number to the operator when she says "Number please?"

The improvements will cost several thousand dollars. It is pleasing to note that the telephone company has the faith in the future of Chestertown which the expenditure of this sum of money for improved service indicates.

Let us all hope that the improvement may come, and that right early.
