LOCAL MATTERS

Eloped to Wilmington.—Taking with her all her clothing but the dress she wore about the house, Mrs. Charles Smith, wife of a farmer near Starkey's Corner, has eloped. Howard Usilton, a young carpenter, is said to have accompanied her, and the couple is reported to be in Wilmington, Del. Mrs. Smith was married five years ago.

Collecting Old Papers.—The members of the Ladies' Town Improvement Association are still collecting papers. All having old papers and magazines for them will please notify any member of the following committee and they will be collected next week: Mrs. C. S. Smith, Mrs. P. A. M. Brooks, Mrs. T. D. France, Mrs. Horace Reed, Mrs. R. H. Collins, Mrs. C. N. Satterfield, Mrs. R. F. Parks, Mrs. Walter Bennett and Mrs. S. C. Roberts.

Notice to Fairlee Grangers.—The regular weekly meetings will resume on next Wednesday, September 24th, at 7.30 o'clock. A full attendance is requested. The first special meeting will be a "Harvest Home" celebration on the 16th of October at 4 o'clock, conducted by our worthy "Pomona," sister Ida C. Crew. All members are kindly requested to bring fruits or vegetables which will be afterward sent to the W. C. T. U. home in Baltimore. The usual basket supper will be served after program.

Buying in Wilmington.—The Wilmington Every Evening of Monday contained the following item of local interest: "William B. Usilton, Jr., editor of the Kent News of Chestertown, Md., was a Wilmington visitor Saturday and did some shopping here. Mr. Usilton said that since the business men of Wilmington, through the Chamber of Commerce, have been working for closer co-operation between the business interests of this city and those of the Delmarvia peninsula a large number of Maryland residents have been coming to Wilmington to do their buying."

Queen Annes to Grow Celery.—Pennsylvania Railroad officials are preparing to visit Queen Annes county in an effort to interest farmers there in the growing of celery for Northern markets, where it commands high prices. Though little celery has been raised in Queen Annes, it is believed that several sections of the county would prove adapted to the crop. A dark, loamy soil and considerable moisture are required and the county has these in abundance near the waterways. It is proposed that farmers plant celery to follow their strawberry crops and agricultural experts say Maryland should forge to the front as a celery state if this is done.
