

Five Solid Reasons

FIVE solid reasons why each farm needs a manure spreader are these, in the words of a farmer who has devoted much time to correct soil-feeding. 1. It saves disagreeable and hard work. 2. It pulverizes and mixes the manure mass. 3. It distributes manure evenly over the field, insuring a good, even stand of grain. 4. It prevents loss of nitrogen through fermentation or leaching in the pile when manure is hauled directly from the stable. 5. Indirectly, the ease with which it can be handled encourages the owner to care for the manure and distribute it on the fields carefully instead of wasting it.

I H C Manure Spreaders

will work uncomplainingly for years making profits for the owners. You will find them all styles and sizes, high and low, endless apron or reverse.

I H C manure spreaders are exceedingly durable, strong, correctly built to stand all conditions and all strains they may meet. Each feature has its purpose. Up hill or down or cutting corners, they spread all kinds of manure evenly, in a light or heavy coat at the will of the driver. The beater drive is strong and simple, beater teeth are square and chisel pointed to pulverize the manure, and the large diameter of the beater prevents winding. The rear axle, carrying a large percentage of the load, insures ample tractive power.

But see all these things yourself at your local dealer's. Find your choice in the I H C line. The dealer has catalogues for you, or, write the

Let Me Shoe Your Horse.

A BIG WILD WEST SHOW AND CIRCUS COMING.

Will Exhibit in Chestertown for One Day Only.

If the quality of the show itself can be judged from the personal appearance and the gentlemanly business like methods of the advance brigade, then there must certainly be a real round of pleasure in store for our residents upon the appearance here of the great Tompkins Real Wild West & Cooper and Whitby Combined Shows.

Mr. George M. Forepaugh is in charge of the advance forces of this big tented enterprise and a score of rapidly moving assistants were in Chestertown extensively billing the town and surrounding country with elegantly colored posters announcing the appearance of the show.

The gentlemanly business manner of Mr. Forepaugh and his assistants, and the superior quality of the paper posters would indicate there was something of more than ordinary magnitude following. The press and public in the large cities in which this show has been exhibiting are exceedingly liberal in their praise of the excellent quality of the performance and claim that there is not a misstatement made by the management of the enterprise, but that they postively present everything as advertised. It is a refined, refreshing and exact portrayal of life in the far west as it really was in the early days and as it is at present and which in its entirety presents an interesting, entertaining and amusing exhibition but one that is instructive as well and a great educator for the children.

Horse Notes.

Joe Boy, the great pacer which lowered the track record here during the fair from 2.12 to 2.10¼, won second money at Allentown last week, Ella Ambulator beating him in a five heat race in 2.07½. Joe Boy won the second heat in 2 07½.

Lord Dewey, son of Admiral Dewey, owned by Dr. J. C. McCoy, of Kirkwood, Del., has won several $10,000 purses on the Grand Circuit this season. He has a record of 2.08¼ and is a trotter.

The management of the Kent and Queen Anne's driving Association is at work upon plans for next year's fair. The management proposes to erect more buildings and make other improvements that will furnish space for the exhibition of farm products, poultry and household goods, so that the Agricultural interests of the counties may be developed.

Sweet Anna and Flossie W., two of Enoch Johnson's string, won first money in their races at Oxford, Pa. last week.

Mr. John Mallalieu has Happy J. and one other in his stable entered at Lancaster, Pa., this week. Mr. Joe Rising is at Trenton with his string, where Pony Boy and Belton K. were hitched up in a race.

Mr. Samuel Loller's fine cold stepped an easy mile in 2.29¼ at the Matinee races at Worton last Saturday. This mare promises to be one of the fastest trotters ever raised in this county.

The management of the Kent and Queen Anne's Driving Association is arranging to give the classiest matinee in its history sometime in October after the racing for money season is over. Mr. Powell Peacock, who is now in Columbus, Ohio, with his string, and who will be at Lexington, Ky., next week, has promised to be here with his stable, and he has also stated that he will induce other drivers now on the "money" circuit to come here. An effort is being made by the management also to arrange a match race between Pony Boy and Belton K. for a large purse, and you may look out for something to be doing when the bell rings for the horses at Radcliffe Park again.

Hicks' Forecasts for October.

The new moon being at an eclipse node on September 29th, will greatly augment the tendency to earthquake and volcanic disturbances up to the 4th to the 6th of October. Autumnal hurricanes, especially in the Southern States, would be most natural at this period, with boreal storms of great energy coming out of the northwest to meet them.

A reactionary storm period falls on the 6th, 7th and 8th, coincident with the moon's first quarter on the 6th. Falling barometer, softening, southerly wind, and return of general falling weather will be the natural order on touching the 6th, 7th and 8th. Autumnal, chilly nights will come with the rising barometer from the northwest, progressively eastward and southward, on and about the 8th, 9th and 10th.

A regular storm period extends from the 10th to the 15th, having its center on the 12th. The moon is on the celestial equator on the 13th, indicating that low barometer, cloudiness and autumnal thunder storms will gather, and visit many localities in an eastward sweep from the 13th to the 15th.

A reactionary storm period centers on the 18th, 19th and 20th. The Venus disturbance, which reaches its center in November, will begin to affect storm weather conditions by this time.

A regular storm period covers the 22nd to the 27th, being central on the 24th. Falling barometer and other growing storm conditions will appear in western parts early in this period, all of which will move eastward, increasing in strength and magnitude.

A reactionary storm period covers the last three days of the month. The new moon on the 29th will bring the culmination of this period on and touching that day.

To Give Reception.

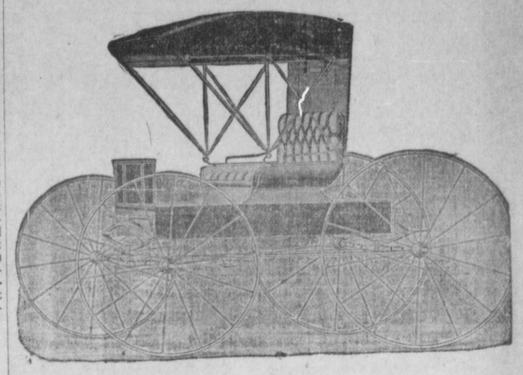

The Men's Literary and Social Club of the M. E. Church will give a reception to the men of the church and community on Monday night, Oct. 6th. All male members of the church and other men of the community are cordially invited. The program will consist of instrumental and vocal music by members of the club, and addresses by Rev. Dr. Barrett and Professor Smyth, followed by refreshments and a social hour.

The Kent County Sunday School Convention will be held here on Tuesday, Oct. 14. There will be three sessions—morning, afternoon and evening. The evening session will be of interest to everybody as it will be in the nature of a platform meeting with addresses by several prominent speakers. The committee on arrangements and entertainments consists of Mr. A. J. Hackett, Mrs. Sallie Price, Mrs. Annie Bennett, Mrs. Angie Rasin and Mr. Carl Norris. This committee should know within the next ten days how many delegates there will be, how they will come, and how long they expect to stay.

"Plenty of oranges will cure drunkeness," says Mrs. Margaret Mater Romine. She also affirms that fruit juices are the best germ destroyers, that pineapple juice will cure tonsilitis; that lemon juice destroys the typ[illegible] germ; that grape juice will assis[illegible] cure of lagrippe, and apples w[illegible] stomach trouble, bad temper and love.

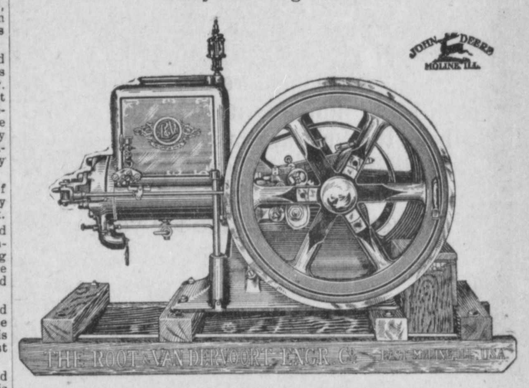

WORTON
Carriage and Farm Implement Emporium,
A. S. TURNER, Prop.

I have just received another full carload of FINE CARRIAGES. Also have in stock a full and complete line of SURRIES and RUNABOUTS of the Celebrated John Deere line.
