EXTRACTING TEETH WITHOUT PAIN

Doing Their Duty

Scores of Chestertown Readers are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty.

When they fail to do this the kidneys are weak.

Backache and other kidney ills may follow;

Help the kidneys do their work.

Use Doan's kidney Pills—the tested kidney remedy.

Chestertown people endorse their worth.

Harry Hodgkin, merchant High St., Chestertown, Md., says: "I had various symptoms of kidney trouble. There were pains through my loins and the kidney secretions were irregular in passage. My supply of Doan's Kidney Pills was procured at Toulson's Drug Store and they made me feel better in every way."

Mr. Hodgkin is only one of many Chestertown people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask *distinctly for Doan's Kidney Pills*, the same that Mr. Hodgkin had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

For sale by all dealers. Price 50 cents, Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Md., Del. & Va. Ry. Co.

EXAMINATION FOR POSTMASTERS.

Large Class Takes a Good Test for the Fourth-class Postoffices in Kent.

Thirty-six candidates took the examition for Fourth-class Postmasters in the High School, Chestertown, on Saturday, before Deputy Postmaster Frank Elburn, secretary of the local Board of Examiners. Mathematics and composition, as well as book-keeping were the leading subjects and those candidates with whom we talked stated that they thought they "passed" a very creditable examination. The papers will be forwarded to the Postoffice Department in Washington, where they will be examined. The appointments will be made absolutely upon the merits of the papers and they will be announced about July 1. The following is a complete list of those who took the examination:

BETTERTON—John and Howard Owens, Littleton Crew, Harvey Moore, Mrs. Charles Willis, Fountain Crew, Mr. and Mrs. Charles H. Brice.

STILL POND—Carl Norris, present postmaster; William M. Parr, John Schofield.

KENNEDYVILLE—Joseph H. Weer, present incumbent; Charles Crew, Frank Miller.

LOCUST GROVE—Mr. Rutter.

GALENA—Mrs. Boyd, present incumbent; Mrs. Brockson, Mr. and Mrs. James W. Mulford, Harry Todd, Bert Ireland.

MASSEY—Michael Dunn.

GOLTS—John M. Connor, Mr. Vansant, Shallcross Bros.

WORTON—John H. Moffett, A. S. Turner, Herbert Matthews, John Carter, George Cooper.

ROCK HALL—Charles Porter, Charles Judefind, John Downey, present incumbent; Miss Ida Hynson.

Warwick Items.

In honor of the birthday of their daughter, Miss Mamie, Judge and Mrs. R. B. Merritt entertained at dinner on Thursday: Mr. and Mrs. J. P. Wilson, of Cecilton; Rev. and Mrs. George Hill, Miss Hill and Master George Hill, of Warwick. Mr. Merritt is a model host, while his gentle wife does her share of the honors. Not omitting the smallest detail which would contribute to the comfort and enjoyment of their guests, to say nothing of the thoughtfulness of Miss Mamie, whose presence is a beam of sunshine in any company of which she is a part. The lusty parson and his petite wife always anticipate with pleasure the annual invitation to spend the day in this hospitable home.

Mr. Jesse Vinyard and his friend, Mr. Edgar Short, spent from Saturday until Monday with the former's parents, Mr. and Mrs. Will Vinyard. On Saturday night they entertained a number of the young folks. The amusements were games and fortune telling, after which Mrs. Vinyard invited the company to the dining room, where a table awaited them laden with all the delicacies of the season.

Mr. Hill attended the reception given by Mr. Ross Numbers at Salem, on their 10th wedding anniversary, March 9th. Over a hundred guests were present. A number of beautiful and useful gifts were received and a sumptuous luncheon served.

Miss Eula Vinyard is visiting her sister, Mrs. Guy Johnson, of North East.

Mr. and Mrs. A. R. Merritt and children are spending the week in Philadelphia.

Mrs. George Goldsborough was in town last Thursday, making short calls on her many friends.

The last morning service here in the M. P. Church for the conference year will be held March 22nd. The pastor will go to conference April 1st.

Miss Josephine Wilson and nephew, of Bohemia Manor, Mr. Dan Wilson, of Wilmington, and Mr. Walter Shriver, of Middletown, spent Sunday with Mr. Samuel Wilson.

Mr. and Mrs. Bradford, of Middle Neck, and Mr. and Mrs. Duryea, of near Warwick, spent Sunday at Mr. John R. Price's.

Mr. Leland Price spent Saturday and Sunday in Wilmington, and Master Hazel spent Wednesday in that city.

Mrs. Edward Spear was taken to Wills hospital, Philadelphia, Tuesday, 16th, to have her eye treated.

Massey Items.

Mrs. William Peacock and children were week-end guests of Mrs. Peacock in town.

Miss Margaret Huey, of Hannah Moore Academy, is visiting her parents, Mr. and Mrs. A. F. Huey.

Mr. L. M. Elliott is visiting his parents at Oak Lane.

Mr. Raymond acted as assistant operator at Greensboro last week, and also spent a few days in Easton.

Miss Madeline Rowan and Mr. Price Roe spent Sunday with relatives in Galena.

Miss Hannah Ware has returned home after spending ten days in the Monumental City.

Miss Carrie Roe is visiting friends in Wilmington.

Miss Jessie Birnbach is substituting a few days for Miss Lura Ahern.

Those on the sick list are: Mrs. Bartus Wilkins, Mrs. E. M. Newnam, Mrs. Harry Holt, Mrs. M. P. Dunn.

Miss Edith Maslin spent a few days with friends in Dover.

Our town was very much shocked on Sunday to hear the sudden change in Mr. James Donahoe. He was getting along very nicely until Sunday, when he gradually grew worse until Monday when he died. He left an invalid wife and six small children, which makes it seem more sad.

Mark Twain's Spider.

When Mark Twain in his early days was editor of a Missouri paper a superstitious subscriber wrote to him saying that he had found a spider in his paper and asking him whether that was a sign of good luck or bad. The humorist wrote this in answer and printed it. "Old Subscriber": Finding a spider in your paper was neither good luck nor bad luck for you. The spider was merely looking over our paper to see which merchant is not advertising so that he can go to that store, spin his web across the door and lead a life of undisturbed peace ever afterward.—Ex.

GET YOUR LIVING FROM THE GARDEN

More Valuable Than a Dozen Fields Of Corn In Feeding the Farmer's Family.

T. H. WHITE.
Maryland Agricultural Experiment Station.

Are you planning your garden? If not, get right to work. Have a better garden this year than you did last season. Plan the rows as straight and long as possible so as to admit of horse cultivation. See that there is nothing in the garden but vegetables. Don't have it half orchard and half garden. Even goosberry or currant bushes should be planted in a long row on one side of the garden so as not to interfere with the vegetable rows.

Arrange your garden so that a succession of vegetables may be had the year round. Get all the early crops like peas, onions, beets, and parsnips that need to be planted in March or early April into one section of the garden, so that as they are removed the same piece of ground may be used for such crops as late turnips, spinach and kale later on.

Any planting that is of a permanent character, such as rhubarb or asparagus should be in rows on one side of the garden and running its full length. Do not set such plants in beds or patches that will interfere with the plowing and fitting of the balance of the plot.

If the garden was not manured and

READY TO CULTIVATE.

plowed in the fall, lose no time, but get some manure prepared for immediate application. Commercial fertilizers may be used, but the best material is rotted stable manure in liberal quantity. Tender well-flavored vegetables must be grown rapidly and the barn-yard manures contain just the elements needed to sustain their growth. Bone meal and nitrate of soda may also be used to help out with the barn-yard manure.

The root crops should not be grown where freshly applied manure has been used as such an application tends to make such crops as parsnips and salsify grow forked and prongy. It is also likely to foster scab fungus, so that potatoes planted in newly manured land are often rough and scabby. Such root crops should be planted on ground that was manured the season before. All other vegetables, however, will do well with liberal manuring.

If you have left your plowing until spring, you should get it done as early as possible. The part of the garden you wish to use for early plantings should be harrowed and pulverized shortly afterward. The part to be used for later plantings should not be harrowed finely or it will become full of weeds. This part of the garden will need to be replowed or deeply harrowed from time to time, so that it will keep its moisture and become mellow and fine for later plantings.

Write for a good garden plan to the Maryland Agricultural Experiment Station at College Park. Any questions you may have about your garden will be gladly received and answered free of charge.

TIMELY PRUNING PAYS.

The best time to prune your peach trees is early in the spring when the danger from heavy freezing weather is past. Then if any fruit buds are winter killed, less pruning can be done in order to save as many live buds as possible.

This pruning should be done every year, especial care being needed in the first few years after planting. Pruning at the right time and in the right way as shown in the above illustration of a newly-planted tree, taken from Bulletin No. 159 of the Maryland Experiment Station insures strong stocky trees and an abundance of new growth on which the next peach crop will be borne. Every peach grower should have this free bulletin as a guide to handling his orchard profitably.

The farmers of our country need the help of scientific agriculture and the colleges are in a position to meet this need.

The people will secure from any institution or enterprise in the long run in proportion as they put money and effort into it.

The development of agricultural institutions is one of the striking movements of the times, and is absolutely essential to the progress of any commonwealth.

Probably fifty per cent. of the youth of our land have a natural bent for country life. They have a right to school training in the science that relate to agriculture.
