LOCAL MATTERS

Postmasters Must Work:—"Country" postmasters instead of the railway agent-operator-baggageman at rural stations will have to "tote" mail sacks from depots to postoffices at thousands of villages if a new law recommended recently by the Special Railway Mail Pay Committee of Congress is enacted. A bill was reported by former Senator Bourne, of Oregon, chairman, by which a saving to the Government of $2,500,000 annually for railway mail service is planned.

For Tax Appraiser.—The Board of County Commissioners on Tuesday decided upon the following names of those who will be recommended to the State Tax Commission for appointment as tax appraiser for Kent county: Thos. J. Donahoe, 1st district; Harry D. Hendrickson, 2d district; Harry Taylor, 3d district; Harry J. McWhorter, 4th district; Hugh McClosky, 5th district. From this list the commission will select one man, and in our judgment the County Commissioners have made a good selection. Any one of the above-named gentlemen will make a capable, honest and efficient appraiser.

To Begin New Road.—The firm of Betts & Boice, which has been granted the contract for building a new macadam road from Chestertown to Fairlee, a distance of 3.92 miles, will begin the work on Monday morning. They will begin at the Fairlee end of the road and stop at Fannel's Branch, where their contract ends. They will employ foreign labor exclusively, and the men will be quartered in shanties in the camp meeting woods. The work on the new road will be under the supervision of Mr. Betts, who, with his wife, are residing in Chestertown. Mr. Betts expects to complete the contract within three months.

Chestertown Girl in Luck.—The many friends of Miss Mae Duyer, daughter of Mr. and Mrs. Jesse G. Duyer, of this town, will be glad to learn that she has finished her course as trained nurse at the City Hospital, Baltimore, and has accepted a private case, and is now traveling with her patient for the benefit of the latter's health. They have visited Philadelphia, Rochester, New York, Syracuse, and are at present in Buffalo. They will leave Buffalo shortly for Montreal, Canada, and if the weather is too cool, they will sail from New York for Paris in July. We are delighted to hear of Miss Duyer's good fortune. She is a splendid young lady, and we wish her every success in her chosen profession.

Dr. Whaland Receives Patent.—Dr. Charles W. Whaland has received from the United States Government, a patent for an automobile device, which, if successfully tried out, will revolutionize the automobile wheel manufacture and make Dr. Whaland a rich man. The device is a kind of spring which will have the same effect upon the comfort and motion of the automobile as do the present rubber tires, and it is designed to do away with the rubber tire altogether, not only saving enormous expenses, and worry and anxiety when traveling, but it will render the automobile much safer and far less expensive in its upkeep. Dr. Whaland has received the blue prints from the Patent Office, and he proposes to develop his device and arrange to place it at the disposal of large manufacturers.

Mr. J. Waters Russell, real estate broker, as advertised elsewhere in the TRANSCRIPT will sell a very desirable 10 acre property situated near Chestertown and in Queen Annes County on June 23rd. This property contains 10 acres and there are 8 acres adjoining which can be bought if one wants more than 10 acres. This property is new and is a very splendidly constructed home.

A thunderstorm of more or less severity passed over Chestertown on Monday afternoon, leaving enough rain to do some good. A terrific bolt out of a clear sky startled the residents of the town about four o'clock, and everybody thought he had been struck. The bolt struck a tree in front of the old Hynson marble yard property ripping off the bark, and also tearing out a telephone or an electric light wire. Mr. Geo. H. Burk was slightly stunned by the bolt while painting a waterspout at the home of Mr. Pye.

Poultry premium lists and entry blanks have been mailed to every county on the Eastern Shore during the week, and entries for the big poultry exhibit at the Kent and Queen Anne's Fair will soon be coming in. Russell Downey, Rock Hall, on or before that date, accompanied by cash of 25 cents for each entry. The 25 cents entrance fee is charged for feeding, cooping and caring for the birds while at the show. They will be fed by the celebrated Spratt's Patent method of feeding for egg yield, and it will do your birds a world of good to have the benefit of the feeding.

Two horses hitched to a dearborn in which were a half dozen fine lambs, and belonging to Mr. Thomas White got frightened at the cars at the depot on Monday morning and dashed off in the direction of their home with the lambs. As they passed up Washington avenue Mr. Robert J. McWhorter noticed the team and rushing out of his house he ran after the team, jumped in the rear and stopped the horses opposite the home of Mrs. Garrett Foxwell. The tailboard of the dearborn fell down, and one of the lambs was hanging out the back by a rope around its neck. Fortunately it was not hurt, nor was the team damaged. One of the wheels ran into Mr. White in his efforts to stop the horses at the train, but he was not injured.
