The Transcript

R. H. COLLINS, T. D. BOWERS, EDITORS.

IT IS REPORTED that the Organization forces will line up behind John H. Clendaniel for Treasurer and George R. Rasin for County Commissioner. Both of these gentlemen are from the Second District.

Wheat Yields.

Besides those whose yields were reported in last week's issue we hear that

Mr. Charles H. Skirven got an average of 30 bushels per acre.

Mr. George Hatcherson got an average yield of 20 bushels per acre.

Mr. Joseph Atwell, on the Crawford-Fowler farm, got 22 bushels per acre.

Mr. Harry C. Willis got an average of 30 bushels per acre.

Mr. Charles D. Wood got an average yield of 20 bushels per acre.

Mr. Percy V. Hendrickson, on Tolchester farm, got a little over 3400 bushels from 120 acres, an average of nearly 30 bushels.

Gilbert Pratt, on the Mrs. W. E. Waters farm, at the east end of Smyrna, Del., got an average of 50 bushels of wheat per acre. The wheat is known as Leap's Prolific, and as Mr. Pratt has not yet threshed his best field of wheat he expects to get even a larger yield per acre than he got off his first field.

Mr. Kennard Aldridge got a total yield of 4,900 bushels from 140 acres. He threshed an average of 47 bushels from one piece of 5 acres, and his straw was so heavy that it almost choked the thresher. His average over all was 35 bushels, and his yield has attracted wide attention. He sold the entire lot for 80 cents a bushel clear.

Mr. H. Clay Lusby got a yield of 3,000 bushels, a part of his tillage averaging 40 bushels per acre.

Mr. Walter S. Trew, near Pomona, got 36 and 20. He sowed 12 bushels on a 10-acre tomato patch and got 360 bushels from it.

Mr. John A. Smith, who tried the Marvelous and Red Wave varieties on one acre each, got a yield of 25 bushels from 1 peck of Marvelous sowed, and 29½ bushels from 1 bushel of the Red Wave sowed. Mr. Smith will mix the two and use it for seed in the fall. It is as pretty wheat as we have ever seen.

On account of the large yield this year, 77 cents a bushel for wheat is as good as $1.25 a bushel last year. With a bumper corn crop in view and beef jumping over the moon in prices, it is bad business for the Republican newspapers to be preaching hard times to the farmer.

POLITICAL ADVERTISEMENT.

COL. A. W. SISK TO THE VOTERS

He Makes a Preliminary Statement Outlining His Platform,

Col. Albert W. Sisk, candidate for Congress, to succeed Hon. J. Harry Covington, resigned, issues the following address to the voters of the First Congressional District:

COLONEL SISK'S STATEMENT.

A week ago, when announcement was made that I would be a candidate before the people of the First District of Maryland for the Congressional nomination in the coming primaries, a statement of my political position and attitude was promised.

At this early state of the campaign, however, only a brief and general statement is advisable or necessary. Later on, we will enter more fully into the discussion of the subject and questions now before the country, as well as the questions likely to come before Congress at an early day, relating to the demands and urgent needs of our people.

In the beginning I will state that I am in hearty sympathy with President Wilson's administration, and if elected to Congress by the people of this district, it will afford me more than ordinary pleasure to co-operate with him in placing on the statute book the long list of reform measures which he advocates.

This is the time when every man should feel proud to be a Democrat in the true sense of that term, for in President Wilson we have a leader whose heart throbs earnestly for humanity and whose whole purpose is to give back to the people the rights and liberties to which they are entitled and which have been stealthily taken from them during the past half century. To be even a small assistant in this benign work would be a privilege of which I should always be proud, and I would engage in it with all the enthusiasm and fervor of my being. For some reason, I am possessed of the confidence that the good people of Representative Covington's district will confer upon me the opportunity of continuing the splendid work he has been doing in Congress, in giving aid, lending sympathy to our great President and friend of the people and devoting his best energies to the up-building of our social and industrial welfare.

In local matters, I am interested in horticulture, agriculture and their allied industry, the canning and preserving of fruits and vegetables, which in the past twenty-five years has grown with such marvelous rapidity, that it has outstripped all others in magnitude on the Eastern Shore of Maryland. Just at this juncture, when numerous so-called pure food laws are being placed on statute books, this indusrry especially needs some representative in Congress who knows the business and who would know how to protect its interest. Persons connected with this particular business appreciate fully how important this subject is at this time and how far-reaching in evil effect unwise enactments would have on every phase of industrial life in this part of our State.

I would also favor federal aid in the construction of country roads and highways. For years our Government's treasury has been open in assisting many internal improvements to commerce and industry and we think the time ripe and opportune when this work shall be undertaken and carried forward until every mart and highway throughout this great country shall be of the best.

I am also in favor of national aid to our public educational system. This subject has already received some little attention from our Government, but appropriations by Congress have been so very meagre that the work has been limited to investigation of future possibilities. But State and county taxes have reached the point where further increase would be a burden, and though the larger portion of our taxes is devoted to public education the demand for better equipment, better teachers and better salaries has not nearly been met.

If as has so aptly and often been said, that the youth of our land is the most precious and important of our national resources; and the further fact that our future citizenship is dependent on the education of our youth, it certainly behooves us to make a still further effort through our national government to extend its helping hand where this help is so urgent.

Other questions of vital importance to our people will be discussed later on.

Very respectfully,
ALBERT W. SISK.

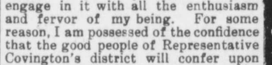

Preston, Md., July 9, 1914.

KRIT $950

WITH ELECTRIC STARTER $1050
F.O.B. Detroit

Why Pay for Useless Weight?

KRIT lightness comes from correct design—not from skimping. 120 pounds in weight is saved by using aluminum for our crank case and transmission case. The sturdy, powerful KRIT motor weighs only 283 pounds, as against 400 to 550 pounds for motors in cars the same size and power of the KRIT. And so on—throughout the car.

Engineers tell us that the KRIT is two years ahead of its field, for it possesses, at $950, the quality features you find in cars at double the price. The sensational sales records made by the new KRIT is an endorsement by critical motorists that proves these experts right.

So, we ask you, what more can you get in a higher priced car? More weight, perhaps, but weight only adds to the expense of upkeep. More *rated* horsepower, but much of the extra horse power is used up in carrying around the extra weight—and the rest of the excess power you do not need. For the KRIT will take you anywhere you want to go. It will take you there speedily, safe and comfortably.

Learn more about the economical, dependable KRIT—the moderate priced car with the high priced features. A ride will demonstrate to you the rare quality of this car—value you can't get elsewhere at the price.
