The residence is rented from September 1st next to one of our prominent young business men who will be married in September.

Asked to Name Delegates.—Mayor William E. Duyer, of Chestertown, has been requested by the Hon. A. B. Thatcher, president of the Fourth American Road Congress and State Highway Engineer of California, to name three delegates to attend the sessions of the Congress at Atlanta, Georgia, during the week of November 9th. Forty-seven great organizations are taking part in the Congress under the leadership of the American Highway and the American Automobile Associations. In his letter to the Mayor, President Fletcher calls attention to the fact that practically every state highway commissioner will be present and take part in discussing the important problems of road construction and maintenance.

¶We stated last week that a First District landowner had sold 2,000 bushels of his future corn crop for 81 cents per bushel. We misunderstood our informant. He stated that he had sold 2,000 bushels of corn for 81 cents, and we understood him to mean his future crop, not dreaming that he had that much of last year's crop to sell. He lost just 5½ cents per bushel on his sale, as Mr. Owen S. Dodson was offiered 86½ cents last week for 600 bushels of old corn, and perhaps he finally sold it for more.

¶The Jones farm, situated near Worton Station, was offered at public sale on Tuesday by Hope H. Barroll, Esq., trustee. It was sold to Mr. Fred H. Cornelius for $7,050. The farm contains 108 acres of fine land, and may be made one of the best small farms in the county. Its price was equivalent to about $70 per acre.

These Have Sold Farms.

Mr. George F. Gootee and wife, of Smyrma, Del., are the parties who have purchased 1700 acres of land in the vicinity of Massey, for the purpose of dividing them into small farms of 50 acres or more, and offering them to a desirable and progessive class of settlers. These tracts include lands adjoining each other as far as possible, and comprise eight farms as follows:

Eliza Cammile and Temple E. Holins, of Philadelphia, the Emory farm of 15 acres; C. S. Hurlock and wife, farm of 221 acres, near No. 10 school house; Edward H. Trinks and wife, 81 acres, Oscar Clark, near Cypress bridge; Esther M. Stauffer and husband, farm of 338 acres between Millington and Delaware and Maryland, and State line; Joseph H. Moffett, farm of 48 acres, adjoining Hurlock farm. Kent land Company, Crane farm of 251½ acres, near Peacock's corner; Walter Dulany Rogers and others, farm of 411 acres and one of 122 acres, near No. 10 school; L. W. Wickes, attorney and trustee, Yates farm of 205 acres. Here, as has been stated repeatedly in the Transcript an effort will be made to develope the small farm idea which by many advanced thinkers is believed to be the only solution of the perplexing labor problem. Mr. W. H. Cacy, of Massey, is largely responable for this innovation and if the project is successful the honor and glory will be his.

A Friend of President Wilson and His Policies

COL. ALBERT W. SISK,

DEMOCRATIC CANDIDATE FOR CONGRESS.

TO ALL THE DEMOCRATIC VOTERS OF THE FIRST CONGRESSIONAL DISTRICT:

A month ago when my first announcement as a candidate for Congress was made a preliminary statement was given out as to my attitude on some of the important questions before the country, and promise made that other questions would be taken up later.

Again I want to impress upon the voters of the First Congressional District the importance of having a man to represent them in Congress at this juncture of our national affairs who will be in sympathy with President Wilson in the stupendous effort he is making for the uplift of both the social and business interests of the country. His task is indeed an enormous one and is being watched eargerly by the nations and peoples of the world. The "big business" interests had made the government at Washington its tool and servant in both the executive and legislative departments, hence tariff and currency laws had been enacted that enabled these corporate interests to control the business of the country to their own advantage and to the corresponding disadvantage of the greater number of smaller tradesmen, as well as the consuming public.

Since his inauguration President Wilson, through a Democratic Congress, has revised the tariff downward to an extent that will bring relief to millions of our people in lowering the cost of living; and when the new currency becomes operative in full force both small and large business will be prosperous, and strikes will not be known, and a new freedom will be given our people not realized by the present generation.

Even to-day, while the war clouds are hanging over all Europe, black with evil portent for our own country, an unscrupulous corporation began the cry "panic," and the whole land trembled and stood aghast with the apprehension; the Wilson Democratic government at Washington stood forth with its wealth and power, with all its great humanitarian spirit, and said "Be still. No harm shall come to the business world—and there shall be no panic." And as if by magic the wheels of commerce and trade move and in the fullest confidence. I am a believer in this kind of democracy; the kind that stands for human rights as against the rights of the dollar; in the kind that will give every man, woman and child in this great country a fair deal and an equal opportunity whether they be rich or poor, great or small, in material things, and that will respect the rights of all the people.

In the very beginning of this contest I desire and do hereby pledge myself, if elected, to join hands with President Wilson in this great cause for the sake of humanity and for the love of our country.

The present European war has brought the whole country to a keen sense of the urgent need of ships controlled by, if not owned by, the United States government. The recent complete paralysis of the grain-exporting business and the consequent damage done to business thereby, while our warehouses bulged with the products of our lands, because the trade vessels of the world owned by warring nations, could not venture on the seas, calls for Congressional action for the future as well as the present time. There should be ships flying the Stars and Stripes, so that such conditions cannot occur.

I favor a radical change in our method of electing both national and State officials. Under the present plan the expense of conducting a campaign is frequently more than the salary for the entire term of election, which prohibits a poor man from entering the race. I would favor a plan whereby the amount expended should be limited and this sum to be paid by either State or nation, the candidate himself being prohibited absolutely from expending anything for the purpose of placing himself in office. I believe this simple plan would be effective in bringing to the front in official life many young men who are now without hope in this direction on account of extraordinary cost. It will be but simple justice—an act of true democracy—that will give such men their freedom.

I consider it prudent at this time to bring to the attention of all Democrats the clause in our party platform adopted by the last State convention which reads as follows:

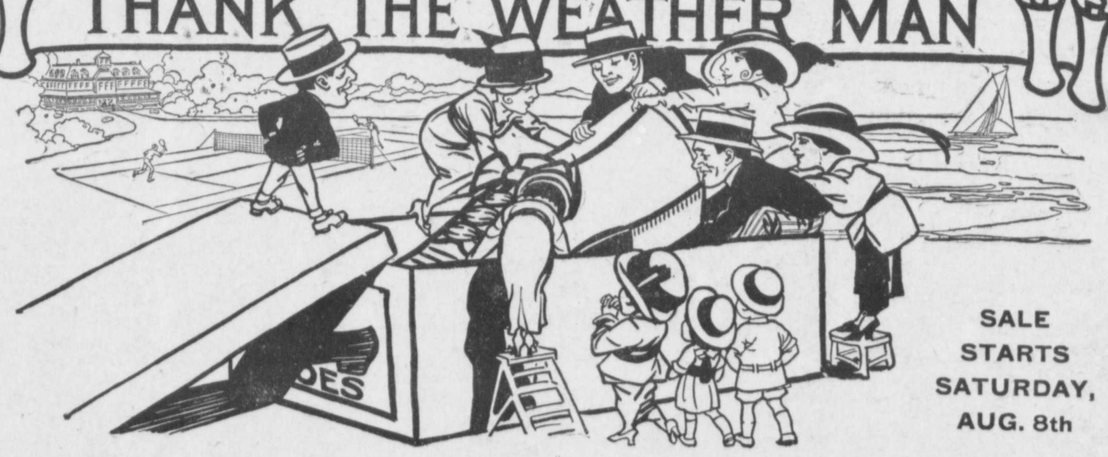

> We declare that the sole purpose for which the party's organization exists is to organize and win the party's battles at the general elections, and therefore pledge the choice of this convention for State chairman to place all the party's machinery, pollbooks and paraphernalia at the disposal on equal terms of all the Democratic candidates in the primaries, without prejudice or partiality, and to refrain from designating or proclaiming any candidate or set of candidates in the primaries as representing or being supported by the party organization. It is the sense of this convention that there are no organization candidates of the party until the Democratic voters themselves have selected the nominees at the primaries.

The attention of the voters of this Cougressional District is called to the above extract from the Democratic platform in view of the fact that the Baltimore Sun and a few of the county papers persist in saying that a certain gentleman is "backed by the organization and will, therefore, be nominated." The concluding clause in the platform states that the pledges therein are made to be kept after the election as well as relied on during the campaign. I cannot, therefore, believe the organization leaders of the State or any of the counties of the First Congressional District will violate the above pledge made so very recently to the people and still fresh in their minds, and the papers noted above should not place our leaders in this inconsistent attitude. I believe in fair elections at all times, and especially at the primaries when candidates are being chosen should all undue influence be entirely removed, that every voter may express his free and untrammeled choice.

I appeal to my Democratic brethren of the Eastern Shore for support, promising if they choose me to represent the District in Congress that I will uphold to my utmost ability the party of Jefferson, the leader and devoted friend of the people of the early days, and follow gladly the teachings of Wilson, the wise and patriotic head of our great party of the present day, whose labors receive, as they deserve to receive, the admiration and applause of our nation and the good people of all the world.

Preston, Md., August 19, 1914. ALBERT W. SISK.
