NUPTIAL EVENTS.

KILBOURN—KENDALL.

The home of Mr. A. M. Kendall, in Fairlee, was the scene on Tuesday morning, September 22nd, of a most beautiful marriage when Catherine Lynette, daughter of Mr. Kendall, became the wife of Mr. Wallace Kilbourn. A large number of relatives and friends witnessed the ceremony. The room in which the marriage took place was beautifully trimmed in evergreen and decked with flowers. A pretty arch of flowers and evergreens spanned the place where the marriage ceremony was performed. A rug of evergreen and flowers was arranged under the arch upon which thebridal couple stood during the ceremony.

At 9.15 to the sweet strains of Lohengrin's wedding march, performed by Miss Fannie Ward, the couple marched slowly to the marriage altar where they were met by Rev. W. W. White, of Fairlee, who according to the beautiful ceremony of the M. E. Church, using the ring service, impressively pronounced them husband and wife in the name of the Father, and the Son and the Holy Ghost.

The bride was becomingly attired in a traveling dress of green broadcloth, while the groom wore the conventional black. After the usual congratulations the happy couple started on a short wedding tour going by way of Tolchester to Baltimore and other points. State Now Owns M. A. C.

Through the foreclosure of a mortgage given by private stockholders to the State of Maryland, the latter secured on Wednesday sole ownership of the Maryland Agricultural College. The property was bought in by State Treasurer Murray Vandiver, representing the State, the price bid being $19,000.

Speaker James McC. Trippe and Ogle Marbury, solicitors for the State were present, as was Dr. Harry J. Patterson, President, and members of the faculty of the institution.

The property purchased by the State was a one-half undivided interest in 282 acres of land, improved by the college buildings. The following were exempted from the sale: 36 acres conveyed to John Berry, 83 acres conveyed to Dr. Montgomery Johns, 43 acres conveyed to Christian Engle and the portion of ground over which the city and suburban railroad runs.

The principal cause for the purchase of the private stockholders' interests was the fact that the Legislature always has been slow to appropriate money with which to make improvements and to enlarge the scope of the institution when the State did not have an absolute fee-simple title to the property upon which the money was to be spent. The college probably would have received an appropriation of $1,000,000 at the last session of the Legislature if the title had been vested in the State. The circuit court is expected to ratify the sale.
