COLOSSAL GLASS DOME FOR PALACE OF HORTICULTURE AT WORLD'S GREATEST EXPOSITION.

THE photograph above shows the huge Palace of Horticulture at the Panama-Pacific International Exposition at San Francisco in 1915. The building will be constructed almost entirely of glass. The huge dome will be 186 feet in height and 152 feet in diameter. At night colored searchlights placed within the building will play upon the inside of the dome, giving it the appearance of a magnificent soap bubble, iridescent with all the colors of the rainbow. The building will cover five acres.

Splendors of the Panama-Pacific International Exposition Revealed by Its Present Progress.

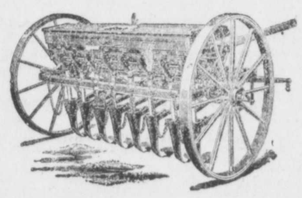

SUPERB WORKS OF SCULPTURE AND ART IN COLOSSAL EXHIBIT PALACES FOR AMERICA'S PANAMA CANAL CELEBRATION.

GLINTS of gold from vast oriental domes, Venetian blue on minarets, prodigious works of sculpture and the arrival of notables from all parts of the globe give glimpses of the great Panama-Pacific International Exposition as it will appear when its gates swing open to the world on Feb. 20, 1915.

Not for many years will the world be enabled to enjoy so marvelous a collection of the works of contemporary sculptors. The World's Columbian Exposition at Chicago first proved that the greatest talent might be engaged to produce work of even temporary value. Since then more and more attention has been given at each succeeding exposition to sculpture as a form of decoration, and the great Panama-Pacific International Exposition at San Francisco promises to surpass even Chicago's exquisite display.

Every phase of the exposition is far advanced. Thirty-three of the world's nations will participate with government displays, Argentina leading with a government appropriation of $1,300,000 gold.

New Wheat Drill a Winner!

The John Deere Van Brunt Wheat and Fertilizer Drill is now on our sample floor. It was a favorite with farmers from Kent, Queen Annes and Cecil counties at the fair. Ask Messrs. W. S. Collins, W. T. Morris, R. G. Nicholson what they think of it. Look it over before placing your orders.

We have one Farmers' Favorite Drill made by the American Seed Mch. Co. cheap to close out.

Runabouts and Carriages at reduced prices.

A. S. TURNER, Worton, Md.

FARM WAGONS!

NOW is the time you need a GOOD WAGON and we have them on hand. We ask you to examine them and see for yourself they are the wagons that will fill your needs. These wagons are built by skilled mechanics out of dry seasoned lumber.

If you need a good WAGON HARNESS, we have them, and the price is right.

We have a fine assortment of CARRIAGES and RUBABOUTS. Also, a fine line of CARRIAGE HARNESS, FLY NETS and WHIPS.

It will be to your interest to call upon us when you want a good DEARBORN.

Remember we carry a large stock of seasoned LUMBER on hand, and it will be to your interest to see us about your repair work.

We have the AMERICAN FENCE in different heights. GASOLINE, MACHINE and COAL OIL of best grades.

The Johns Hopkins University

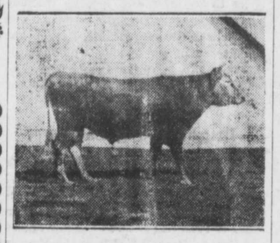

State Scholarships in Engineering Courses.

Application for scholarships in the Department of Engineering established in the Johns Hopkins University under the provisions of the Laws of Maryland, Chapter 90, 1912, should now be made.
Entrance examinations for all students will be held in McCoy Hall, the Johns Hopkins University, Baltimore, September 22-25, 1914, beginning at 9.00 A. M.
If there is more than one applicant for a particular scholarship a competitive examination will be held at the University on the day following the September entrance examinations.
Each county of the State and each Legislative District of Baltimore city will be entitled to one or more scholarships for the year 1914-15, in addition to those which have already been filled. There will also be vacancies in the scholarships awarded to the graduates of Loyola College, Maryland Agricultural College, Mount St. Mary's College, Rock Hill College, St. John's College, Washington College and Western Maryland College, and in the scholarships "At Large," which may be filled in October, 1914.
Applicants should address the Registrar, the Johns Hopkins University, for blank forms of application and for further information as to the examinations, award of scholarships and courses of instruction. s22-tf

DAIRYMEN STRONGLY FAVOR USING IMPROVED STOCK

Their Association Urges Farmers To Secure Well-Bred Bulls and Offers Prizes For Superior Milk.

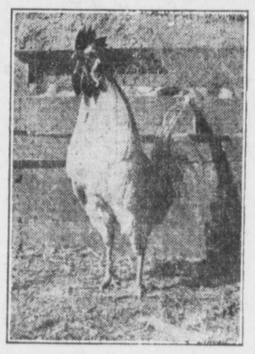

At a recent meeting of the State Dairymen's Association in Baltimore, a striking instance was given of "the asleep at the switch" attitude of our milk producers as far as the improvement of their herds is concerned. In 1910, Mr. S. M. Shoemaker made the offer of a pure-bred bull calf to the farmer whose cow would make the highest milk record in the State, no expense to be incurred therewith, and no restrictions except that the contest be supervised by the State Experiment Station. There was not an inquiry—not one! Sixty days after making this offer, Mr. Shoemaker priced this same bull to a buyer at $300 and promptly sold it. Lest there should be question as to this offer being widely enough advertised, it should be added that the bull calf, together with its pedigree and a large placard stating the simple conditions of the prize were on exhibition during Maryland Week of that year for all visitors at the Armory to see!

A GOOD SIRE.

Notwithstanding this example, the directors of the Dairymen's Association have offered generous prizes for contestants in a number of dairy product contests, ending Maryland Week, Nov. 16 to 21st, which include a market milk contest, one for new and one for old contestants, a market cream contest, a prize of $50 for the person organizing the first new cow testing association in Maryland in 1914, and another prize of $50 for the most efficient tester employed by one of these associations and who has served in this capacity for twelve months.

The Association also endorsed the offer of the State Experiment Station to place several Guernsey and Ayrshire Bull Calves as herd sires on selected farms, free of cost, in an effort to improve the type of dairy animals and to encourage the breeding of registered dairy cows. Full information regarding this service may be secured from the Secretary of the Association at College Park.

WAKE UP!

ROY H. WAITE.
Maryland Agricultural Experiment Station.

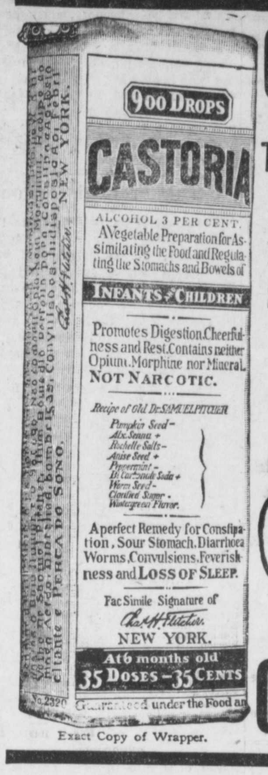

After the strenuous work of mating, hatching, and caring for the young chicks you are apt to lay back and take it easy just as soon as the birds get to the age where they do not die off as a consequence of every little neglect. I wish to caution you, however, not to do this if you expect best results next winter. While it is true that the evil results of neglect do not show up so prominently now, they nevertheless are present and will show up in a depleted egg basket next fall and winter when eggs are highest in price. Most any old scrub of a hen will lay well in the spring when everything is favorable to egg production, but it takes a healthy, strong, vigorous, well-grown bird that has had no set backs to produce during the unfavorable seasons.

CRIMSON CLOVER SHOULD BE SEEDED EARLY FOR BEST RESULTS.

Crimson clover should be sown broadcast any time between the middle of July to the first of September or a little later in the southern sections of the State. The best results, however, are secured when seeded early.

A good rate of seeding is 15 pounds per acre, although some farmers never sow more than 10 or 12 pounds. While it may be seeded in any cultivated crop the best results are secured when seeded alone on a well-prepared, firm seed bed.
