Max Alexander

ROCK HALL'S LEADING DEPARTMENT STORE.

Fall Opening, beginning Tuesday, Oct. 27th, ending Saturday, Oct. 31st.

We wish to have you call and examine our Fall and Winter showing of new and seasonable merchandise. Every day we work harder to do better things for you than we did the day before. Fall trade has started off with a boom. We have a larger stock of goods than ever for you to select from. Our goods are well-bought. We spent our time in hunting for the right things and haggling for the right prices. We guarantee satisfaction in both prices and wear. We fix everything that goes wrong and give our customers their money's worth. Meet your friends at Alexander's. Everybody knows Max.

MAX ALEXANDER, Rock Hall's Leading Department Store.

PROFIT IN DAIRYING DEPENDS ON WISE FEEDING

Silage Or Legume Hay Needed In Ration To Lessen Cost Of Feeding.

G. E. WOLCOTT.
Maryland Agricultural Experiment Station.

During the summer months, when cows are on pasture, the dairyman is not troubled with the problem of supplying the herd with a ration which will maintain the flow of milk and also be economical.

To the farmer who has a loft full of alfalfa or clover, and a silo full of silage, the problem is simple; he will need comparatively little grain to make a balanced ration.

If cut fodder, alone is available for roughage, it will be necessary to supply a large part of the nutrients, required to maintain the production of the herd, in the form of a grain mixture which will necessarily be expensive. This is the season when the farmer realizes, more than ever that silage and some legume hay are necessary for the profitable production of milk and butter. Two-thirds of the nutrients required for a normal production can be supplied in the form of rough feed; but where neither silage nor legumes are available two-thirds of the daily feed must be supplied in the form of grain. This necessitates the purchase of large amounts of high priced concentrates; which will make the cost of production very high and probably unprofitable.

In selecting the feeds for his grain mixture the dairyman should choose those that are to be had at the lowest cost; and use only enough of each so that the mixture will, when fed with what roughage is available, supply the nutrients that are required for a given production. This is a balanced ration.

WELL-FED COW.

The following grain mixtures may be found helpful; others may be obtained by writing direct to the writer at College Park, Md.:

When 10 lbs. of alfalfa, or 12 lbs. of clover hay are fed with 35 lbs. of corn silage, the following grain mixture, fed at the rate of one pound of grain to 3½ pounds of 4 per cent. milk, will be about right for a cow weighing 1,000 lbs.

400 lbs. corn chop.
200 lbs. bran.
100 lbs. cotton seed meal.

400 lbs. corn chop.
200 lbs. dried brewers' grs.
50 lbs. cotton seed meal.

200 lbs. corn chop.
300 lbs. ground oats.
100 lbs. cotton seed meal.
50 lbs. gluten feed.

IMPROVEMENT OF SCHOOL GROUNDS IS VERY DESIRABLE.

B. W. AUSPON.
Maryland Agricultural College.

Many of our rural schoolhouses are so situated that they wholly lack protection from inclement weather. Consequently, the teacher and pupils are often subjected to trying conditions in severe weather. When it is almost impossible to keep the building warm. Not only are the winds of winter trying, but those of spring are equally so, while the intense rays of the summer sun often have similar effect. By the judicious planting of trees and shrubs marked changes can be secured. The severe winds will be checked from striking the building, thus mitigating the temperature to some extent. In spring the trees will give that refreshing shade so welcome at that season of the year.

In addition to serving as a protection and adding beauty to the school grounds, such planting proves of great educational value. By planting and caring for trees the children are given some knowledge of tree culture, which will prove useful in later years. The writer will gladly co-operate with local teachers in planning school grounds and selecting trees and shrubs.

DRIVE POULTRY GENTLY.

ROY H. WAITE.
Maryland Agricultural Experiment Station.

It pays to be gentle with poultry at all times, but especially during the late fall when the pullets are just developing into laying condition. At this time a sudden scare or excitement will set them back in egg production. When putting them into winter quarters, be as careful as you can. If they have been kept tame, as they should be, they can usually be driven into their house very easily. An easy way to drive them is for two or three persons to get around them, each with a long, light board or pole, held in the middle. This is used to gently usher them along without the necessity of running them down.

Kilbourn's Big Fall Sale Now Going On

New Wheat Drill a Winner!

The John Deere Van Brunt Wheat and Fertilizer Drill is now on our sample floor. It was a favorite with farmers from Kent, Queen Annes and Cecil counties at the fair. Ask Messrs. W. S. Collins, W. T. Morris, R. G. Nicholson what they think of it. Look it over before placing your orders.

We have one Farmers' Favorite Drill made by the American Seed Mch. Co. cheap to close out.

Runabouts and Carriages at reduced prices.

A. S. TURNER, Worton, Md.

FARM WAGONS!

NOW is the time you need a GOOD WAGON and we have them on hand. We ask you to examine them and see for yourself they are the wagons that will fill your needs. These wagons are built by skilled mechanics out of dry seasoned lumber.

If you need a good WAGON HARNESS, we have them, and the price is right.

We have a fine assortment of CARRIAGES and RUBABOUTS. Also, a fine line of CARRIAGE HARNESS, FLY NETS and WHIPS.

It will be to your interest to call upon us when you want a good DEARBORN.

Remember we carry a large stock of seasoned LUMBER on hand, and it will be to your interest to see us about your repair work.

We have the AMERICAN FENCE in different heights. GASOLINE, MACHINE and COAL OIL of best grades.

ORDER NISI.

Hope H. Barroll, Assignee,
vs.
Otto Weidler, et al.

In the Circuit Court for Kent county, in Equity.

No. 1887.

ORDERED, this 1st day of October, 1914, by the Circuit Court for Kent county, in equity, that the sale of the mortgaged real estate mentioned in these proceedings made and reported by Hope H. Barroll, assignee and trustee, under and by virtue of the power of sale in a mortgage from Otto Weidler and wife to Jennie Riegel, dated January 17th, 1911, and duly assigned, to Hope H. Barroll, be ratified and confirmed, unless cause to the contrary thereof be shown on or before the 4th day of December, next—provided, a copy of this order be inserted in some newspaper printed and published in Kent county, once in each of four successive weeks before the 2nd day of November next.

The Report states the amount of sales to be $300.00.
