Harrington to Enter Race.

Eastern Shoremen who are nursing the gubernatorial boom of State Comptroller Emerson Harrington predicted last Thursday that he will positively announce himself in the race some time during this month. Incidentally they say Mr. Harrington will base his fight for the Democratic nomination on his record for two terms as watchdog of the State's treasury.

Democratic and Republican State leaders insist that the present is too early a time to consider gubernatorial candidates and much criticism has been spoken of Congressman Linthicum for his announcement, which is generally regarded as premature. This criticism emanates even from some friends of Linthicum who frankly admit that the candidate has given his opponents an opportunity to hammer him as the apparent candidate of "Frank" Kelley.

Despite this criticism Mr. Harrington is said to have decided that he must soon follow the Forth District Congressman into the candidates' pool if he is really to be in the fight.

Meanwhile the Democratic city leaders are sitting tight on both the gubernatorial and mayoralty lids and they say that nothing will be "doing" in either line until Mayor Preston has definitely decided what his plan will be.

Hicks' Forecast for December.

A regular storm period having its center on November the 30th, will come to its culminating stage on the 1st, 2nd and 3 d. Moon will be full on the 2nd and the greatest north declination on the 3rd. The center of the Mars period falls on the 4th. The storms of this period will, most likely, be attended by a wave of unusually high temperature for December, as atmospheric tides will flow northward from equatorial regions.

A reactionary storm period will develop and run its course on and touching the 5th, 6th and 7th. The reasonable outlook for this period is that rain, turning to heavy sleet and snow, will pass from west to east, and that cloudy, Mercurial, cold weather will continue for several days after the passage of the storms.

A regular storm period is central on the 12th, extending from the 10th to the 16th. This is another annual period of maximum magnetic and electric disturbance. Winter thunder and rain will be natural on and touching the 10th. Sleet and snow will follow, ending in high barometer and cold. Another group of storm areas will pass eastwardly over the country on and touching the 14th and 15th. This will prove one of the greatest sleet periods of the month. New moon on the 16th will prolong threatening conditions into the period next following.

A reactionary storm period is central on the 17th, 18th and 19th.

A regular storm period is coincident with the center of the December solistice period, being central on the 23rd, and reaching from the 21st to the 26th. This period will bring very low barometer, and on and touching the 23rd and 24th the temperature will rise, and storms of rain, attended by winter lightning and thunder, will be prabable. These storms will turn to sleet and snow about the 24th and 25th, bringing change to much colder, with snow in wide areas of the country for Christmas.

A reactionary storm period is central on the 28th, 29th and 30th. On and touching these days, a reaction to warmer, with falling barometer, and more storms of rain, turning to snow, will cross the country from west to east.

The Official Vote.

The State Board of Canvassers met at Annapolis Thursday of last week and declared the official vote of Maryland at the recent election to be as follows:

United States Senator—John Walter Smith (Dem.), 110,204; Edw. C. Carrington, Jr., (Rep.), 94,864; V. Milton Reichard (Prog.), 3,697; Richard H. Holme (Pro.), 3,144; Charles E. Devlin (Soc.), 3,255; Robert W. Stevens (Labor), 969.

For the House of Representatives—First District (long term)—Jesse D. Price (Dem.) 17,543; Robert F. Duer (Rep.), 17,146; Charles M. Elderdice (Pro.), 1,084. Short term—Jesse D. Prich (Dem.), 17,858; Thomas S. Hodson (Prog.), 6,053.

Passenger Rates Rise.

The railroads, failing in their efforts to get all the advance they desired in freight rates, have decided to increase their earnings by raising passenger fares. Excursion tickets, except to "resorts" will be withdrawn. Monthly trip tickets and "resort" excursion tickets will be higher. No changes will be made in local one-way fares. The roads announce that the increase in rates is in keeping with the very large expenditures that have been made necessary to provide the steel cars, improved stations, automatic signals and other features which have added so pronouncedly to the comfort, safety and convenience of passengers.

Farm Facts.

In union there is strength and in co-operation there is profit.

The farmer can neither help himself nor be helped by others until he organizes.

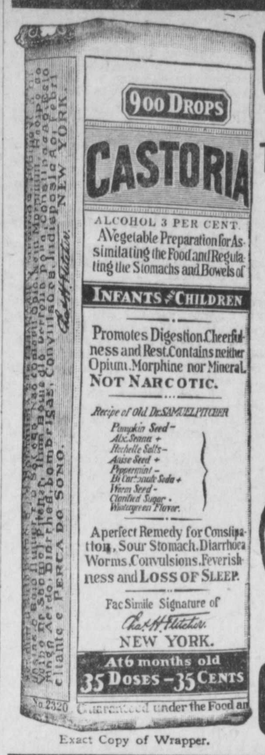

Bumper crops without market facilities have sent more farmers staggering down the back alleys of agriculture than all the pests and droughts that ever cursed the nation.
