IN AN effort to attach a prohibition rider to the District of Columbia appropriation bill in Congress this week, Senator John Walter Smith voted with the "wets" and Senator Blair Lee with the "drys." There is a world of significance to the people of the State in that vote, and we may have occasion to refer to it later.

INVESTIGATIONS now being made by the Federal Government into election expenses in various States in the country have resulted in the arrest of many prominent men who have pleaded guilty, and have disclosed the fact that thousands of dollars were spent by the Republican party and its protectionist friends to win a majority in the present House of Congress, all of which proves our contention that the people of this country believe in the principles of the Democratic party and have the utmost confidence in President Wilson and his sound wisdom. There is a concerted effort to discredit President Wilson and Secretary Bryan by trumping up all sorts of charges against them, but they will fail before a people who have been fooled and defrauded by an iniquitous system of tariff protection long enough.

ONE of the managers of one of the largest stores in Baltimore city told us the other day that his store had had the largest Christmas trade in its history. Said he: "All this talk about hard times is bosh. There's a reason for it, and the man who is keeping the factory door closed against the honest laborer solely for the sake of whatever political effect it may have should be severely punished by the national government." He told the absolute truth. The great corporations of the country which have grown fat upon Republican Protection are throttling the industries of this country, and thousands of people are out of employment *only* because the bloated factory owner is preventing them from working at their trades. Put the blame where it belongs. When the farmer is receiving $1.40 for his wheat and 78 cents for corn and for other products prices in proportion, and the European countries are buying our commodities by the million dollars' worth, what but the political treachery of the captains of industry is preventing the laboring man from enjoying this prosperity? We invite an explanation of this condition. President Wilson never stated a greater truth in his life than that the Republican party had not had a new idea for 30 years. It was Protection, Protection, Protection, and that is exactly what caused the great split in the Republican party.

MR. KENDALL'S LETTER.

We do not feel called upon to make an extended reply to the letter of our friend, Police Justice Virgil M. Kendall, published in the Enterprise on Wednesday last in reference to our editorial reference to the iniquitous gallon-a-month law. Mr. Kendall is a police justice. He knows, or should know all about the effects of this iniquitous piece of legislation upon a class of people in whose hands such a weapon of vice should never have been placed, and he also knows that certain features of that law have a tendency to make lawbreakers of law-abiding citizens. If Mr. Kendall will give the TRANSCRIPT a list of all the cases of violation of law due to the effects of liquor that have come before him since the first day of last May, and will also go to our express office and steamboat wharf office and find out exactly how much liquor, beer, etc., have been shipped into Chestertown and vicinity since the first day of last May, the TRANSCRIPT will be very glad to publish the result of his investigation, because we believe it would satisfy Mr. Kendall as to the demoralizing effects of such a law as well as enlighten the people as to what is going on.

WAS THIS ECONOMY?

During the last primary campaign the Organization forces promised the taxpayers of the county all kinds of ECONOMY if their candidates were elected to office. The only place they got a chance to fulfill these campaign promises was in the Legislature. They had the Senator and both delegates, and had an excellent chance to save the taxpayers of the county thousands of dollars. What did they do? They voted for the creation of that luxurious State Tax Commission which will cost the State $75,000 annually if it costs them a penny, and the State Senator from this county, William W Beck, who helped to create the law providing for the commission, is now holding a $1500 job under this commission, the legality of which position is now being tested in the State Court of Appeals. They passed a law to take $54,000 out of the tax-payers' pockets for new school buildings in this county, and "fixed" the law in such a manner as made it practically easy for the misguided colored voters to pass the law over the heads of the large tax-payers of the county. This law alone will cost the tax-payers of this county $70,000 before all items of expense are paid.

They passed a law to bond Chestertown for $25,000, and provided no means of increasing the tax rate to meet this additional indebtedness, when they knew that the new tax law would lop off more than $70,000 of the town's taxable basis by reason of the exemption of household goods to the value of $500. This law will disfranchise the small taxpayer and give him no voice in the government of his town.

They voted for the creation of an expensive and absolutely impracticable insurance accident commission, a law passed in the interest of the insurance companies and against both the employer and employee.

They voted for the gallon-a-month law, which is the curse of the Eastern Shore.

Now, this is a part of what the taxpayers got from the solemn (?) promises of the Organization delegates in the Legislature in the way of ECONOMY. You know the Kent News stated in substance on various occasions during the last campaign: "Elect the Organization ticket and they will give the people REAL ECONOMY." Is not the kind of *economy* handed out by the Organization delegates in the last Legislature exactly the same kind that forced a tax rate of $1.85 on the tax-payers of Kent county when the Organization forces had control of the Board of County Commissioners in 1909?

STRONG TALK OF LEE.

The Princess Anne Marylander and Herald, editorially says this week:

"Within the last few days there has been strong talk of the candidacy of Senator Blair Lee, and the Wicomico News in its last issue says the junior Senator will 'undoubtedly be a candidate for Governor.' Reports in the city papers lend color to the News' prediction. It goes without saying that Senator Lee will take his case directly to the jury of the people. That is his method, but there are rumors that Senator Lee's strength in the city of Baltimore has grown to such proportions as to cause 'organization forces' in that city to look with favor upon his candidacy in case it should be announced.

"Senator Lee came within one vote of the nomination in the State Convention selected in the first State-wide popular primary contest, four years ago. He afterwards took the stump and spoke in every county of the State for the election of his successful opponent—Mr. Gorman. Following party precedent he will have a strong call on the Democratic masses for support of his candidacy and if he gets into the fight with his usual vigor he will likely put his rivals on the defensive."

Power With Economy!

Some motors are powerful, but of considerable expense in fuel consumption. Others may be economical, but at the expense of power.

The KRIT light weight ball bearing motor combines wonderful power with the greatest economy.

Correct design, the use of annular ball bearings and careful manufacture in every detail produce the World renowned power of this motor.

LIGHTNESS

To-day many manufacturers are just announcing models with light, small motors—a type the KRIT Company adopted six years ago.

Model O Touring	$ 850
Model O Roadster	850
Model M Touring	995
Model M Roadster	995
Model M Cabriolet	1295

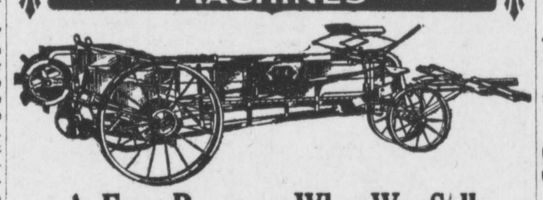

Don't buy any car until you have seen the 1915 KRIT.

See Mr. W. E. Moody, of Chestertown, or Mr. Julian T. Power, of Millington. Demonstration on request.

A Few Reasons Why We Sell Low Spread Manure Spreaders

JUST a few words about the correct position and construction of the Low Spread beater. Instead of being directly over the end of the apron, where the manure would crowd under it and clog it, the Low Spread beater is placed a few inches to the rear of the apron, while the teeth on the lowest bars extend below it. The manure is caught at the top of the beater. It cannot crowd below the beater or clog it. There is no throwing off of large bunches of manure—the spread is always even.

The large size and strength of the beater prevents winding of unrotted straws or corn stalks. The teeth are of steel, square and chisel pointed. They cut into shreds all kinds of manure. Thorough pulverizing of the manure and even spreading are secured under practically all conditions.

This spreader will mean money to you. Come in and see the one we have set up on our sample floor awaiting your inspection.

Special Demonstration and Sale
OF THE GREAT MAJESTIC RANGES!

(One Week Only) MONDAY MORNING, JAN. 25, to SATURDAY NIGHT, JAN. 30, 1915. (One Week Only.

SAVE $8.00

AS A SPECIAL INDUCEMENT during our demonstration week only, with every MAJESTIC RANGE sold (prices always the same) we will give free one handsome Set of Ware as illustrated here.

Every piece of this Ware is the best of its kind. Not a piece that is not needed in every kitchen. It cannot possibly be bought for less than $8.00. This ware is on exhibition at our store. DON'T FAIL TO SEE IT.

WHICH SHALL IT BE?

DO YOU intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove?

You KNOW that old stove eats up a lot of fuel each year.

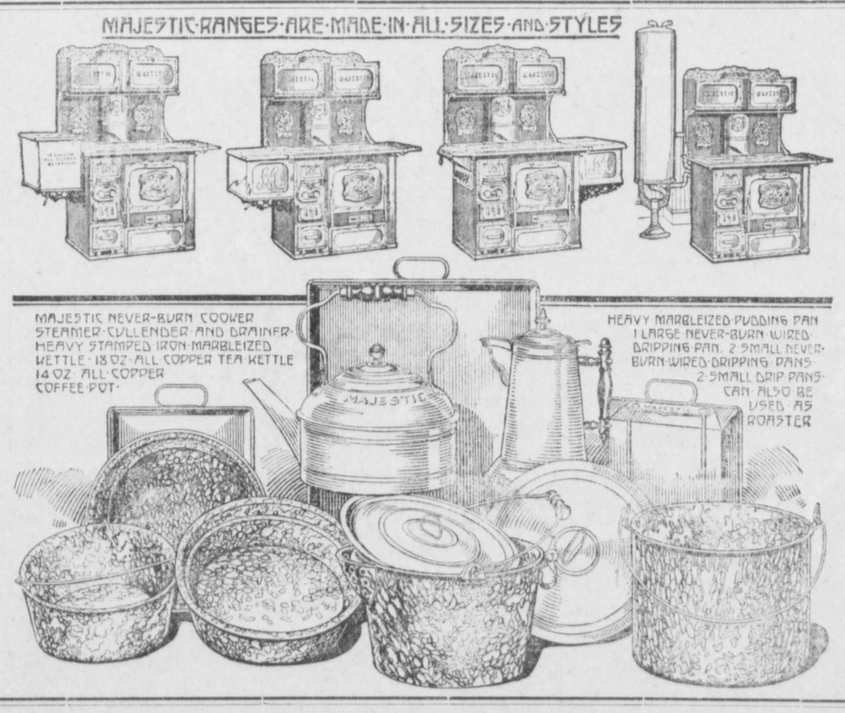

You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs.

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputatian—

THE GREAT MAJESTIC MALLEABLE AND CHARCOAL IRON RANGE

YOU make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, its made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos—parts being malleable can't break—has a movable reservoir and an oven that doesn't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (browns bread just right all over without turning), heats 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen," you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 300 per cent. stronger than other ranges where most ranges are weakest.

CHILDREN

SOUVENIR DAY

150 MAJESTIC BIRDS FREE!

Tuesday, between 3 and 5. p. m.

The first 150 boys and girls who present to THE MAJESTIC RANGE SALESMAN at our store, between 3 and 5 P. M. TUESDAY, written answers to the following questions, will receive a "Canary Bird Souvenir" FREE.

1—What range is your mother now using?
2—Do you know anyone needing a new range? Who?
3—Why is the GREAT MAJESTIC the most durable range made?

$1.00 ARTICLE FREE.

The one giving the neatest and best answer to the last question may select any $1.00 article from our stock, in addition to the SOUVENIR.

Don't be discourage if you are not one of the 150 to get a Canary Bird Souvenir. You will get a MAJESTIC PUZZLE CARD. Something for all the boys and girls.

You can have worlds of fun with the MAJESTIC BIRD—it imitates the canary to perfection.

Be sure to have your answers ready to hand in at our store TUESDAY AFTERNOON, between 3 and 5.

Special! All during this week a special demonstrator direct from the MAJESTIC FACTORY will be glad to show you "ALL ABOUT RANGES"—show you why the MAJESTIC is the best range on earth at any price.

Come, if You Intend to Buy or Not

EDUCATION lies in KNOWING THINGS—KNOW why the oven of a range is heated—KNOW how the water is heated—HOW the top is heated—WHY the MAJESTIC uses so little fuel—KNOW how a range is made, inside and outside. This education may serve you in the future. DON'T OVERLOOK a chance to KNOW THINGS shown by one who knows. Come,

DON'T OVERLOOK THE DATE. This is a Special Invitation to You and Your Friends and Neighbors.
