BIG BEN

HELPS RUN THE FARM ON TIME.

Is it hard for you to get the farm hands out on time?

Is it hard for you to get them up in the morning?

If so, why not let Big Ben do it for you?

Big Ben is a truth telling and reliable alarm clock.

It's his business to get people up in the world.

And he'll do it every day at any time you say.

Next time you drive to town, walk over to the store and take a look at him.

I keep him in the window where everyone can see him.

We call the attention of our farmers to the fine stallions Eldorado and Cosa. The aim of the progressive farmer now should be to raise heavy horses, because they sell the most readily. These fine stallions have sired many fine colts during the past year, and their offspring are in great demand.

Worton Grange Notes.

Monday night was surely a banner night in Worton Grange. One new member was taken into our order by Bro. Jas. T. Anthony, who was with us. We were also pleased to have with us Bro. and Sister T. E. W. Crew. Everything is working harmoniously along for our benefit, and we expect to have even bigger and better times in the very near future. Our lecturer is surely preparing some No. 1 programs for us.

Our program of last Monday night was as follows: Singing, "Bud and Bloom"; reading, by Bro. George E. Sheats; "How to Make House Flowers Bloom in Winter," by Sister J. W. Ivens, followed by open discussion and questions; reading, "On Which Parent Rests the Greater Responsibility in Training the Child," Sister Ida Loller; followed by beautiful talks on the subject by Bro. Anthony and Bro. Crew. Next was a debate, an entirely new feature of our meetings, and we hope we will have more of them as this was so thoroughly enjoyed. The subject of the debate was, "Resolved, That Farming Offers Better Opportunities to the Ambitious Young Man than do the Professions." The affirmative side was ably taken by Sister Katie Cooper, Bros. B. F. Rash and Barney Cooper and the negative by Sister Sarah Carter, Bros. Ralph Williams and Geo. E. Sheats, and indeed it would be hard to decide which was the winner, therefore both sides were presented with a nice box of home-made candy, by the lecturer. But, we must add that those who missed this program missed a great treat. Our visitors said we are doing fine with our new grange, and we want right here to extend to them a hearty invitation to visit us whenever convenient.

FAIRLEE GRANGE.

Although several weeks have passed since our grange at Fairlee has been heard from through your paper, we wish to publish the fact that we not only exist but that we are in a most healthy and flourishing condition. We hold regular weekly meetings which are well attended and most interesting. Our George Washington celebration was fine, with a splendid programme which contained the usual monthly garner, edited and read by our overseer, Bro. M. P. Lee. Visitors from Kennedville, Queen Annes and other granges were in attendance. St. Patrick's celebration, in the wearing of the green, next Wednesday evening at 7.30 o'clock. Special program at each meeting of interest to all.

May Play in Chestertown.

The gratifying success achieved by the Philathea Class of the Trinity M. E. Church South, Easton, at Music Hall on Friday night of last week has inspired the young actors and actresses with ambitions to shine in other fields. Plans are being discussed for journeying to Chestertown and presenting the same comedy, "Me and Otis." here. The presentation of the play in Easton netted about $125, part of which is to be devoted to the payment of debts of the church and part to wiring the church for electric lighting. Come along, fellows, we'll give you a good audience.

"No Clutch on the Drill Shaft"

OF THE J. I. CASE PLANTER

On all Planters other than the J. I. CASE Power Drive the action of the plates is controlled by a clutch on the running drill shaft.

The clutch soon wears out and may fail to work when you need it most. Avoid this danger by buying a J. I. CASE Power Drive Planter where the parts performing the function of the drill shift clutch are found on the slow moving MAIN axle. They are made heavy and strong. Don't buy until you see this accurate and reliable planter.
