There is a widespread activity among the people of the town to beautify their homes and make the town prettier than it has ever been. Now let us offer a suggestion to our merchants and those who use the public square: See if you can't keep the paper and rubbish that come out of your places of business from getting out on the streets and squares, and we shall then show you a town that any one would be proud to call The City Beautiful.

A number of wild rumors were afloat on the streets on Wednesday to the effect that the Chestertown postoffice had been robbed on Tuesday night. There was absolutely no foundation for such a rumor, and people should not lose their heads and "give things away" when the authorities of the law are endeavoring to round-up suspicious characters. The postoffice authorities believed they were on the trail of the gang which robbed Hurlock and Ridgely postoffices, and the matter was placed in the hands of State's Attorney Vickers who investigated the case, and ordered a man to town. That's all.
