CORN CLUB WORK ENCOURAGES OUR BOYS.

Helps To Improve Both The Variety And Methods Used In Securing Larger Yields.

A striking example of the effects of interesting the farm boys in corn club work is told in an account of a visit of a representative of the Agricultural College to Charles County, where he visited a number of the boys in the Corn Club of the local agricultural agent. Norbert Langley, a 13-year-old boy, living in the neighborhood of La Plata, had a yield of 86¾ bushels of

GIVING THE BOY A CHANCE.

corn on his acre last year. He also raised, on a piece of ground his father gave him, 500 pounds of tobacco, which will probably net him close to $50. As a result of the boy's interest in the corn-club work, his father used the boy's yield of last year for his own seed and produced a first-class crop of corn, under unusually unfavorable conditions.

The methods he followed are those outlined by the State Experiment Station, which in regard to cultivating corn are as follows:

Cultivation should be thorough; it should begin early, and when necessary continue until after the tassel or even the ear appears. No rule can be given for the number of times corn should be worked; because, in some cases four times may be sufficient, and in other cases eight or ten workings may not be too much; weather, weeds, and soil conditions are the only guides.

If, after planting and before the plants have pushed through the ground, heavy rains form a hard crust, the field should be gone over with a spike-tooth harrow or weeder.

The cultivator should be started as soon as conditions will permit, not waiting until weeds show up. The best way to keep the weeds in check is never to let them get started, and the nearer each working is done at the proper time the fewer will be the number of cultivations necessary. Shallow cultivation is preferable at all times; if, however, the ground is hard, or compact and weedy the first cultivation should be deep and close to the corn; but when the plants have reached a height of six or eight inches the cultivations should be shallow, running the shovels not more than three inches deep. After this period of growth the lateral roots spread rapidly in every direction, soon ramifying through all the soil between the rows and the plants. Under normal conditions a large portion of the roots develop near the surface so that cultivating four inches deep may destroy 50 per cent. more roots than three inches deep.

It must be borne in mind that the destruction of weeds is not the only reason for cultivating, breaking a hard crust to allow the air to penetrate the soil, and to conserve the moisture is often eually as important as killing weeds.

FARMERS' DAY AT THE AGRICULTURAL COLLEGE, MAY 29.

President Patterson Invites All To Attend.

If there is any one class of citizens who either by reason of their numbers or through their importance to the community should have a State-wide holiday set apart for their honor and enjoyment it is the farming people. Neither is there any place more fitting as the centre of this celebration than their agricultural college and experiment station, where "Farmers' Day" is now an annual event for the gathering of farmers and their families from all parts of the State to inspect the work being carried on at these institutions. The time selected—May 29—is singularly fortunate, as much of the early planting is out of the way, cultivation is just beginning and the summer harvest is still ahead of us.

By this time, if the farmer has made a good start with his spring's work, he will find much pleasure in observing further ways of enhancing his success. If he has made a poor start he needs to acquaint himself with every method of improvement possible that will help him square himself with his investment of cash and labor. If he does not find that which will in some way be of help to him on this holiday it is to his interest to find out why these institutions are not doing work that is of practical value to him.

The Agricultural College and Experiment Station are just as much any farmer's property as a farm or wood lot would be except that it is owned co-operatively and must be handled for the benefit of all concerned. What the tenant is to the farm owner the administrative officer of the Agricultural College must be to the farmers of the State who are sharers in the benefits of the institution. Is it not an indifferent farm owner who does not, at least, occasionally visit his farm to make certain that his tenant is giving the proper attention to its management?

LAWYERS IN PENNSYLVANIA LEGISLATURE.

The American Agriculturist, one of the leading farm journals of the country, has this to say in reference to the influence of lawyers in the session of the Legislature in Pennsylvania, which closed last week:

"Pennsylvania people must be mighty proud of their legislators. When the Legislature closed last week, horse play and rowdyism in the sacred legislative halls of the capitol were indulged in from morning to night. Boweryism rather than vetoes actually killed several measures. The Legislature was in session one night when sneezing powder was scattered through the house; this, combined with stinking chemicals, made the air so bad that many people were forced to leave. When the speaker of the house called for order he was answered by members throwing their calendars and bills and other public documents at him. Men who tried to speak were howled down by legislators. Shouts and cat-calls continued throughout that evening. The next day it was worse. When one speaker arose to address the house on an important bill, the members, instead of listening to him, gathered around, some 40 or 50 of them, and hooted and made fun, acting like demons and maniacs.

"One afternoon when a fraud measure was being considered, instead of listening to the debate, the members indulged in shouts and hoots until the bill was killed. Now, gentle readers, wasn't that an orderly, pleasant proceeding? Is it possible that in this day and age of law-making responsibilities, that the State fathers of a great State, intrusted with the duty of making laws, could sink to such low depths as to make fools and monkeys and rowdies of themselves? The slums of no city could turn out representatives that would so misbehave.

"If you examine the rolls of the Pennsyvania Legislative you will find that its membership is composed largely of lawyers and other professional people. Who is to blame for this disgusting example of a republican form of government in a free democracy? No one but the voters themselves. If they sent fools and knaves to the Legislature they must be content to have fools and knaves to make laws for them. We are glad to say that the sprinkling of farm representation in the Legislature stood out in opposition to this human display of idiocy.

"We repeat what we have frequently said: Banish from the Legislature a lot of these worse-than-useless lawyers; and send rather God-fearing, plain, substantial business farmers to represent the people in the Legislature. Then a different order of things may be expected. Pennsylvania people have no reason to be proud in any degree of their 1915 Legislature. If anything they ought to be ashamed for having sent such a bunch of quacks to represent them."

OVATION TO SENATOR LEE AT EASTON.

Kent Was Represented At The Conference Last Friday Night

Senator Lee was in Talbot county on Friday and Saturday of the past week conferring with his friends and meeting the voters in the interest of his candidacy. His plan of campaign, there at the present time, is a personal one, going from house to house meeting each voter.

Friday afternoon quite a goodly number of friends from several nearby counties on the Shore motored to Easton to meet Senator Lee. The delegations were on hand at the Hotel Norris to greet the Senator upon his return from a tour of one of the outlying districts. An informal gathering was held in the lobby of the hotel until about nine o'clock in the evening, when the party repaired to the large hotel parlor. Here an interchange of views was indulged in as to the political situation in the several counties.

The report from each of the counties was most encouraging. The organization of the Lee forces on the Eastern Shore is developing rapidly and the census of opinion at the meeting was that the sentiment of the rank and file of the voters was decidedly with Senator Lee. Those who were present from the nearby counties to greet the Senator were as follows:

Somerset county—Messrs. Joshua W. Miles, S. Frank Dashiell, I. T. Jones Brown, H. L. Brittingham and Harry C. Dashiell.

Wicomico—Messrs. M. V. Brewington, Alonzo L. Miles, E. Stanley Toadvin and John M. Toulson.

Caroline—Messrs. Albert E. Sisk, Allan Goldsborough, J. Frank Lednum, John Proctor and others.

Kent—Mr. William B. Copper, candidate for Comptroller; Editor Collins, of the Chestertown TRANSCRIPT; William H. McKee and Jefferson D. Ayres, candidates for Sheriff and Legislature, respectively, and others.

Wait Paint.

There are painters and waiters. Which am I going to do? Paint or wait?

Which is better?

How much am I worth with my property waiting? How much if I paint? Will my house be worth more or less if I paint?

Say it costs $2 a gallon Devoe—I wouldn't paint any other—and $3 or $4 more for putting it on. That's $50 or $60 a 10 gallon job.

The money is gone. Is it in the house? Is it all in the house?

Suppose I were selling; what should I get for that house fresh-painted and what should I get for it needing-paint?

I wonder why men paint before selling!

DEVOE

Chas. P. Jones, sells it, Millington, Md.

Helpful Words

From A Chestertown Citizen.

Is your back lame and painful?
Does it ache especially after exertion?
Is there a soreness in the kidney region?
These symptoms suggest weak kidneys.
If so there is danger in delay.
Weak kidneys get fast weaker.
Give your trouble prompt attention.
Doan's Kidney Pills are for weak kidneys,
Your neighbors use and recommend them.
Read this Chestertown testimony.

John M. South, photographer, Chestertown, says: "I suffered a great deal from my back and kidneys. The passages of the kidney secretions were irregular and I had pains through my sides and back. Seeing Doan's Kidney Pills advertised, I got a supply at Toulson's Drug Store and they gave me relief."

Mr. South is only one of many Chestertown people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—*ask distinctly for Doan's Kidney Pills*, the same that Mr. South had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."
