We Know You Like Good, Pure Ice Cream---And You Should!

Pure Ice Cream? Has the thought ever entered your mind, while enjoying a plate of cream, under what conditions it was manufactured? Did you ever investigate the plant in which the cream you have been in the habit of buying is made? Do you appreciate the fact that there are different qualities of Ice Cream sold at exactly the same price that good, pure cream can be obtained for?

To produce absolutely pure, wholesome Ice Cream, the manufacturing plant and general conditions must be sanitary from the foundation. Cleanliness must be the watchword. Good material the substance. Careful and clean in attendance.

Ice Cream is a Pure Food Product—a wholesome product—an appetizing product—if you know that it is manufactured under absolute conditions.

Ice Cream manufactured by the Chestertown Candy Kitchen at their establishment on the corner of High and Cross Sts., is made under strict sanitary conditions from the best products the markets afford, and costs you no more than the inferior grades sold elsewhere.

Chestertown Candy Kitchen solicits your business for home use. They serve the family trade as well as dispense their Pure Ice Cream and Fancy Ices in boxes or packed, Soda Waters, Fancy Sundaes, etc., at their store at High and Cross Sts.
