POLITICAL CHATTER.

Hope of the younger Democrats!

That's what Guy W. Steele gave as one of his reasons for supporting Senator Lee for the Gubernatorial nomination. Well, he knows. He is the Surveyor of the Port.

However, it is a conspicuous fact that Senator Lee has, as a rule, a young Democrat to recommend for a job when there is a job to be filled.

But it seems Ex-Senator Beasman is some young man, too, for he has swung into the Lee camp to do what he can to persuade the voters that the Montgomery man fills the bill.

The Fidelity and Deposit Company's poll-Harrington, 102; Lee, 80.

As the impression is more or less general that the opposition to Senator Lee centers very closely about this institution, the poll of its vote will undoubtedly be accepted as rather encouraging to the Montgomery man.

Both Frank A Furst, the Harrington city chairman, and Senator John Walter Smith, the captain of the Harrington State forces, are big spokes in the company's affairs.

The following story is going the rounds of the state.

A gentleman of Cecil county told another gentleman of Cecil, that he recently had to take up a business matter with Mr. Emerson C. Harrington. After completing the business in hand he asked Mr. Harrington about his chances for securing the nomination for Governor. Mr. Harrington replied: "Well, I am going to get that nomination or Maryland will have a Republican Governor for another four years."

Now the TRANSCRIPT does not want to see Mr. Emerson Harrington nominated for Governor, or the influence of Senator John Walter Smith continue in State politics, but we are Democrats and strict party men, and if Mr. Harrington should be nominated, the TRANSCRIPT will do everything in its power to elect him. But the thing to do is to give us the name of the man who made this statement and the place where it was made, for a statement of this sort is unworthy of belief unless the man who made it is willing to be known.

IN THE CHURCHES.

Rev. J. F. Bryan, Ph. D., of South Baltimore M. P. Church, filled the pulpit in Christ M. P. Church last Sunday and preached fine sermons. Prof. Galen Vansant was the leader of the Young People's Service, which he conducted with ability and spiritual profit.

440 people left Chestertown on Christ M. P. Sunday school excursion to Annapolis and Washington on Wednesday morning. The only stop was made at Quaker Neck, where a good number joined the town folks. The day was an ideal one for an excursion and everyone enjoyed a delightful day. The steamer Annapolis took the crowd. An accident to an electric car from Washington on which were a number of excursionists delayed the boat in Annapolis until after eight o'cloc, and she reached her wharf here at 11.15 p. m.

Chestertown M. E. Church, Rev. L. E. Barrett, D. D. pastor. Services next Sunday, July 25th, as follows: 9.30 A. M., Sabbath school and pastor's Bible class; 10.30 A M., preaching by Rev. E. C. Prettyman, of Wilmington, Del, 6.30 P. M., Epworth League service on the church green. All invited.

Rev. Dr. J. S. Bowers, president of the Maryland Annual Conference, will pay his official visit to Wesley Chapel and Kennedyville to-morrow (Sunday) week.

AUTOS TO CARRY RURAL Mail.

Service Will Be Inaugurated At Quarryville, Pa., July 1.

Postmaster, General Burleson, in a statement recently said that the new rural mail service by automobile will begin on a large scale in many parts of the United States August 2, when 105 machines with Uncle Sam's mail will traverse more than 5,500 miles of rural post roads daily except Sunday.

The first dispatch of rural mails by auto will be made July 1. Two pioneer routes radiating from Quarryville, Pa., one 55 1 miles and the other 56.8 miles long, will go into operation on that date.

The auto rural route is crested by a combination of two mail wagon routes. The rural carriers must provide the motorcar, and get $1,500 to $1,800 a year according to conditions of travel. The wagon carrier gets $1.200 a year.

The Postoffice Department believes that within a few years the bulk of the rural mail delivery will be by motorcars, which will greatly lessen the cost of this service. The idea is to establish routes about 60 miles long. Only those sections which have good roads will get auto delivery.

The auto routes thus far authorized are appointed as follows: Oklahoma, 44; Georgia, 28; California, 19; Texas, 8; Florida, 3; Pennsylvania, 2; and Louisiania, 1.

Maryland Wheat Crop.

Wheat production in Marylard and Delaware will fall nearly 4,000,000 bushels short of last year's crop, according to the July 1 estimate of the Department of Agriulture. The Maryland corn crop is a little ahead of last year's, and Delaware is a little behind. The greatest gain has been made in the potato crop of the two states. Last year Maryland's potato crop was 3,432-000 bushels. The forecast of the crop reporting board for this year is 422,000 bushels. For last year Delawares crop was 880,000 bushels, and this year the forecast is 1,130,000 bushels. The Maryland apple crop is nearly a million bushels short of last year's, it is estimated, and the tobacco crop will fall 2,000,000 pounds behind. Last year Maryland harvested 13,158,000 bushels of wheat. The forecast for this year is 9,650,000 bushels. The Delaware crop will drop from 2,937,000 bushels to 2,073,000 bushels, it is estimated.

THE LAWYER VS. THE FARMER.

In defense of the issues which the TRANSCRIPT has raised in this campaign against the sending of a lawyer to the Senate of Maryland to make and unmake our laws, we desire to call to the attention of the people of this county a bill that was introduced and passed in the State Senate during the session of 1914, but was killed in the House. Please note in this connection that the Senate of Maryland is made up very largely of lawyers, while the House is composed of farmers and business men generally. The bill to which we refer was to the effect that NO ONE BUT A LAWYER COULD ADMINISTER UPON THE ESTATE OF DECEASED PERSONS. This bill passed the State Senate because the great majority of the Senators were lawyers. It went over to the House and when it came up for action in the House it never saw the light of day because there were in the House farmers, merchants and business men who saw the utter injustice and folly of such a law and they very wisely killed the bill. An illustration of this kind only goes to show the attitude of the lawyer to the real and vital interests of the people. Had such a bill as this become a law, the relatives of every man and woman in Kent county would have been compelled to have a lawyer settle their estate regardless of their wishes in the matter. Such a bill left the people absolutely no choice in the matter, not even a member of the family, a man's wife, nor the husband, the father, mother nor brother had any chance. The bill simply gave the matter into the hands of the lawyers regardless of your or my wishes. We simply cite this as another illustration of the necessity for the people to cut out this lawyer business by sending a farmer and business man to the Senate as well as two in the House.

Mad at Paint

25c a gallon for paint is about $2.50 on the average job, and lots of men waited last year for that; but they didn't reckon; they got mad; wouldn't pay it.

There are times to get mad and refuse to pay; but when one's property needs protecting is no time to get mad and not paint.

Besides, it costs more to get mad and wait than to paint.

Getting mad doesn't do any good to your property; paint does it good by keeping-out water; no water no rot; no paint; some water and rot; and a little rot is more than enough to make a man liberal towards his painter and paint.

Paint costs not a cent. All the paint in the world, so long as it keeps-out water, costs not a cent.
