WILL NOT UNITE.

Methodist Protestants and United Brethren End all Negotiations for Church Union.

Union of the Methodist Protestant and United Brethren Churches has practically been made impossible. The death knell, it appears, was sounded at a recent meeting of the bishops of the United Brethren Church in Indianapolis when they announced the purpose of the board of bishops not to submit the union proposition to the membership of the church.

According to several of the leading ministers of the Methodist Protestant Church, that decision practically set at rest all concern over the proposed union in both denominations. Rev. Dr. W. M. Weekley, one of the bishops comprising the board of bishops of the United Brethren Church, has just made a statement, in which he says "the board of bishops, as I understand it, means that referendum vote will not be taken this side of our General Conference, which meets next in 1917."

In this week's issue of the Methodist Protestant Rev. Dr. F. T. Tagg, the editor, and a leading clergyman of that denomination, says: "That certainly puts an end to all negotiations for church union with the United Brethren Church, so far as the basis agreed upon by the joint commission is concerned."

The Greatest of all Crops.

Never in the history of our country was there such a crop as that which has just been harvested, or is now ripening for the harvest. Never we think, in all the history of all the world, was any nation so blest with bountiful yields, with bursting plenty.

How eloquent these items are, as taken from the latest government estimates: Corn, 2,920,000,000, against 2,672,804,000 last year, an increase of about 250,000,000 bushels; wheat, 966,000,000 bushels, an increase of 75,000,000 over last year's banner crop; oats, 1,400,000,000 bushels, an increase of 260,000,000 bushels.

We will have four million tons of hay above the 1914 mowing and there will be twenty-five million more bushels of potatoes in the great American bin. All down the line the story is the same, with perhaps the single exception of apples.

With a prospect for fair prices for most products, if America does not have a record-breaking prosperity during the next twelve months, we will have to abandon the theory that "good crops mean good times."—Farm Life.

Paint Put-on

Think of paint put-on and not by the gallon.

A gallon of paint in the can is of no account to anybody. Put it on. Now reckon its cost and value.

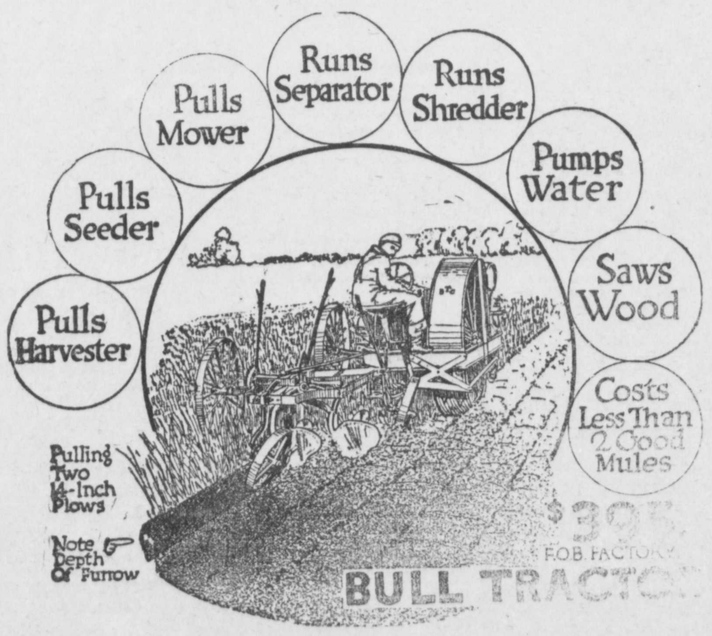

The secret is; one paint goes twice as far as another. A good one goes twice as far as a bad one.

You have a job, say an average job. It'll take 10 gallons Devoe and 12 or 15 or 18 or 20 of middling poor, very-poor and trash. You know painter's wages in your town. Put the price of a gallon of paint and the painter's day-wage together. You can, we can't.

Devoe costs less than any inferior paint; there are hundreds of them.

One paint is as good as another, so long as it lasts good, one lasts months and another years; and the one that goes furthest lasts longest.

DEVOE
Chas. P. Jones, Millington, sells it.

AT LAST

Here is a powerful little machine which does the work of five horses—never gets tired—costs less for fuel than horse feed AND STOPS EATING WHEN IT STOPS WORKING.

Because it travels continuously and faster than horses, ONE MAN with the BULL TRACTOR can plow more than TWO MEN with two three-horse teams. Pulls your Plows, Seeders, Harvesters, Mowers, Drills, Disks and then does any belt work requiring up to twelve-horse power. Guaranteed as long as you own it. Saves you money every day you use it.

Write at once for Descriptive Illustrated Booklet and special offer to farmers.

A Public Demonstration will be given upon the arrival of a carload lot now in transit. Full particulars as to time and place announced later.

SPECIAL PRICE ON BOILER TUBES.
