FEDERATED CLUB'S FALL MEETING.

Plans Discussed and Mapped Out for Spring.

The first fall meeting of the Federated Club was held at the rest room on Wednesday afternoon, about thirty-five members being present. Dr. Billingslea, of the State Board of Health, came by train especially to address this meeting.

The Federated Club in connection with the Civic League of Baltimore had Dr. Barlow, a Hopkins medical student, come to Chestertown in July to inspect and make a bacteriological test of the milk supply of Chestertown. At this time the milk was found to be in a very unsanitary condition. Dr. Billingslea was sent by the State Board of Health to following up the inspection made by Dr. Barlow, and they recommended a number of changes to bring the milk up to the proper standard.

The Federated Club by frequent interviews and continued correspondence have succeeded in getting numerous inspections from the State Board of Health to these herds, and at last feel rewarded by having Dr. Billingslea tell them the herds are now in very good condition, the unhealthy cattle having been removed entirely, and that the milk is now being handled in a very sanitary manner.

Besides the work of the summer, the ladies have had the Md., Del. & Va. Steamboat Co. plant a beautiful bed of shrubbery on the wharf at the foot of Main street with a neat fence around it. They have had the St. Paul's trees doctored by a tree surgeon, expending quite a sum of money, collected mostly outside of the county. They have maintained the rest room at an expense of $80.00. They gave a luncheon at an expense of $40.00 to promote the club spirit, and they have purchased a lung motor, the original cost of which was $150, but purchasing it through a physician, they obtained it for $135. The ladies have collected and paid $75, one-half the cost of the machine, and they have $34 in hand to pay on the last half, which makes $26 still to be paid. Altogether the Federated Club has collected and spent over $500 in Chestertown in six months, although it was done very quietly.

A new project the club will undertake next Spring is to rent the Imperial Hotel, Mr. Hubbard having agreed to remove the present roof and tear out all the partitions on the third floor and raise the height of the building to be in proportion with a room 60 ft. by 35 ft. A new floor will be laid for dancing and a back wing built to furnish a large stage with dressing rooms and serving room. The second floor will be made into attractive rooms for auto parties and the first floor will be a woman's exchange. The assembly room will be used as a social center for lectures on all social questions, musicals, dancing and high class entertainments, also a restaurant where good things to eat can be had as well as a club room. The ladies feel this is a big undertaking, but it will give them a club home, a place of amusement for the town, and they can make enough money to carry on their various social interests.
