TRAINING OUR BOYS FOR COUNTRY LIFE.

Boys' Club Work Being Established In Many Maryland Counties In Connection With Public Schools.

REUBEN BRIGHAM,
Maryland Agricultural College
Extension Service.

In view of the fact that the Boys' Club Work, as organized by the U. S. Department of Agriculture, is now being carried on in a number of counties of Maryland through the co-operation of county school superintendents and agricultural agents the following extract from a recent article in the American magazine is of interest to every Maryland country boy and school teacher.

CORN CLUB BOYS.

"In any country district an enterprising teacher may start this work. Where there is a county superintendent of schools it is a simple matter to enroll the boys between ten and eighteen years into a club. As soon as the names reach Washington through the State Agent in charge of Boys' Club Work, Uncle Sam has that boy under close observation. He has touched them with a magic hand. He sends text books on corn, apple, potato, tomato and alfalfa culture, and blanks to guide in the chosen activity day by day, and for a record of practical success which will be carefully scrutinized at harvest time.

Uncle Sam wishes every school district to start someone of these clubs, to have several in every township, and a great many in each county. Each week-end there should be gathering of all boys and girls in the school, with their parents, if possible. They should have talks, debates and discussions. Once a year the whole county should assemble.

The material profit of this great industrial university is not its most important phase, in Uncle Sam's view. He wishes the boy and the girl to remain in the country and save us from starvation. He can show them all that there is peace, civilization, and happiness assured without challenging a doubtful destiny in a great city. So not only must the pupil raise a fine, abundant crop, but it must be achieved with economy and the winner must be able to write as well. In all clubs there is a simple marking system of 100 points.

In the corn clubs, the following table represents the required measures of excellence:

Greatest yield per acre	30
Best showing of profit on investment	30
Best exhibit of ten ears	20
Best written history or account, entitled, "How I made My Crop"	20
Total score	100

Good citizenship is another aim. This great aggregation of clubs, with its membership of a quarter of a million last year has one motto, "To make the best better!" It has been done in Maryland and in every State where these activities have been established. Wherever this work is undertaken, the members of these clubs will be very closely supervised, through correspondence from headquarters or through the personal visits of local demonstrators co-operating with the teacher who organizes the club."

THE DAIRY COW AS THE PARTNER OF AGRICULTURAL PROSPERITY.

G. E. WOLCOTT,
Maryland Agricultural College
Extension Service.

The popular and high priced Guernsey cow was developed on the Island of Guernsey, in the English Channel; but dairying is only a side issue with the Guernseyman. He grows fine fruit and flowers for the London market. Live stock was needed to consume rough feed and make manure and humus, so a high class animal was developed—one that made both manure and butterfat at a profit.

Live stock is the back bone of the richest agricultural countries in the world. In Holland—the home of the Holstein cowland is worth $800.00 to $2,000.00 per acre. The annual rental is $30.00 per acre and up, yet most of the land is devoted to grass crops for the cow. Only a little grain is grown. The hay crops are supplemented with oil cake from America.

Mr. Herman Blackway, son of Mrs. Harry T. Pfeffer, one of Chestertown's popular gentlemen, and who is one of our most progressive merchants, and Miss Nellie K. Mr. Edwin Price, of Centreville, was best man. The bride wore a beatiful dress of white crepe meteor, with a long train and white veil, and carried bride's roses. Only the immediate family and a few friends were present. After the ceremony, Mr. and Mrs. Price were driven by Mr. O. C.
