Exciting Runaways.

Mrs. N. Lieberman, of Melitota, and Miss Emily Plummer, of Flatland, had a narrow escape from serious injury in a runaway accident on Wednesday afternoon. Mrs. Lieberman stopped at the home of Mrs. Plummer and took lunch, and while there the horse got frightened at a swiftly passing automobile. It pulled up the hitching post and ran as far as the home of Mr. R. G. Nicholson when Miss Emily who had mounted a horse overtook the team and drove it to her home. After lunch she and Mrs. Lieberman started to town and when opposite the home of Mr. Joseph Everett the horse began to run. It came into town, and several gentleman made an effort to stop the horse, one of whom was run over but not hurt in the attempt. The horse turned into Court street and upset the carriage in front of the post office throwing Mrs. Lieberman and Miss Plummer out. Neither was injured, though Mrs. Lieberman was very much shocked. She was taken to the office of Dr. Julian Power, and Dr. Simpers rendered medical attention. Mr. J. E. Morris came to town in his auto and took both ladies to their homes, and Mr. Frank Plummer drove the horse home.

A rather serious runaway occurred on Cannon street Monday afternoon, when "William Barnett," Mr. Geo. T. Satterfield's pacer, started off at a sharp gait when Mr. Satterfield left him for a few minutes to go into the his home on Cannon street. The horse collided with a team being driven by Mrs. Samuel Cox, of near Melitota, who, with her little daughter, was thrown into the road and run over. ...SOLINE ENGINES!

As Agriculture approaches nearer and nearer to a real business, and it is doing that very thing to-day, the proper equipment for the farm takes on added interest. Success in farming today depends upon maxium production of quality products. Attainment of this result is absolutely impossible unless the farm equipment is up-to-date.

The really significant feature of power farming is that the application of power to the farm makes for advancement in methods. The Casoline Engine is an innovation which opens up new vistas and avenues of thought, it starts the mind to running into new channels, it is a mental and physical stimulus to the farmer. Some of the many uses to which engine may be put are:—of all the WATER SUPPLY is can be as elaborate as ires of the pocket book termine.
