

Averys—The Tractors That Burn ALL the Kerosene ..

You want a tractor that burns Kerosene. You don't need to burn high priced gasoline in Avery Tractors for they are genuine Kerosene burners.

Avery Tractors are the only make of tractors equipped with a Double Carburetor and Duplex Gasifier Fuel System, and the only make of tractors that really burn ALL the kerosene.

One Avery owner recently said, "Our engine runs as smoothly on kerosene on gasoline. We haven't had a bit of trouble with it." Another Avery owner said, "There are eleven gas and oil tractors in our country. None of them handle kerosene as well as the Avery." Avery Tractor Owners all over the country are saying the same thing—they have proved by experience that Avery Tractors burn ALL the Kerosene.

Let us demonstrate to you how Avery Tractors do this.

BONES AND BAGS.

On account of the war many of our supplies of Bones have been cut off, in order to get all the nice dry bones possible, we have determined to pay about twice as much for dry bones as we used to pay, if they are delivered at our factory.

Country boys should pick up all they can and bring them to us instead of selling them to the junk dealers.

We will also pay the highest market price for good second hand fertilizer bags. Please communicate with us.

Very truly yours,
