AMERICAN TELEPHONE & TELEGRAPH CO. LOCAL AND LONG DISTANCE TELEPHONE BELL SYSTEM AND ASSOCIATED COMPANIES

Unnecessary

In one of our larger towns, a woman recently called up at least a dozen stores and markets, to find out if they had any new vegetable, saying she was just looking for "something different." This, of course, helps to congest the service.

In ordinary times we encourage a free use of the wires for social, business and domestic purposes. But these are not ordinary times. War time conditions make us ask you to please cut down the length of social talks and to eliminate unnecessary calls.

Need For Wheat Never Ends

The U. S. Department of Agriculture has announced its latest wheat crop statistics, telling of a wheat yield in excess of that of 1917 and better than the average yield of other years, 1915 alone excepted.

All this is encouraging.

But it should not encourage any loyal American to eat wheat.

There are important reasons why we should consume less wheat now than at any time since Food Administrator Hoover first asked for wheatless meals, wheatless bread and wheatless days.

The biggest of these reasons is: Our wheat supply is now lower than it ever has been at this time of the year. Reserves of wheat in the United States are nearly exhausted. The visible supply is down to the unheard of level, only 1,146,000 bushels. A year ago at this time we had 28,296,000 bushels in American warehouses.

The wheat now being cut and the wheat that already has been harvested in Texas and Oklahoma has not been threshed. It still stands in shocks in fields, awaiting the coming of the thresher. Then it must go to terminal markets and from there to flour mills. That will take weeks of time. In the meanwhile we have but a little over one million bushels of wheat, about one bushel to every 100 persons in this country.

And of our small store we MUST continue giving wheat to our allies!

If you want to help win this war—if you want to be a true Marylander—don't eat wheat in any form!

Make your meals more wheatless than ever. Make every day a wheatless day. Preach the gospel of wheat saving to your friends, your neighbors, every person you can reach.

They don't need our bullets "over there" half as badly as they need our bread.

Only one million bushels of wheat left—and they who are fighting for our lives and honor in the hell of battle in France are hungry for bread!

Won't you be one Marylander who refuses to eat any wheat at all until this year's crop reaches the flour mills?

Army Makes Record Meat Purchase

Chicago, July 20.—The largest single order for bacon and canned meats in the history of the world—99,560,000 pounds of bacon and 134,000,000 lbs. of canned meat—has just been placed by the Quartermaster's Department, U. S. A., for the American Army overseas.

Louis F. Swift, in commenting on this today, said the order will take the bacon from approximately 1,900,000 hogs and if other work were dropped to produce it would be equivalent to the total bacon production of the five largest Chicago packers for nearly five weeks, however, six months will elapse before delivery is to be completed.

Mr. Swift said: "At the current prices on the day, last week, when the purchase was made, the packers would pay the live stock producers about $80,000,000 for the necessary hogs and over $50,000,000 for about 900,000 cattle required.

"The cattle will cost us twice as much, and the hogs two and one-half times as much as in the pre-war period.

"The whole order will be made up before the first of the year, despite the fact that, even before this purchase, one-fourth of the packers' facilities have been devoted to filling military demands.

"In order to get out the canned goods the packers will find it necessary to employ night and day shifts of canners. Notwithstanding the fact that the products are being rushed forward thus hurriedly, not a single complaint has been received on meats delivered to the armies abroad.

"The five packers are now killing about 360,000 hogs weekly to keep abreast of martial and domestic needs.

Subscription to the Transcript $1.00 per annum.

STILL POND

Mrs. Susie Toulson and granddaughter, Anna Clark, are visiting her son, Mr. Wm. Penn Toulson, in Vineland, N. J.

Mrs. Carlton Thompson and son, George, have returned to their home in Philadelphia after spending some time with Mrs. Emma Thompson.

Mrs. Caldwell, of Galena, is visiting her daughter, Mrs. Wm. Dempsey.

Mrs. Ruth, of Phila., is visiting Dr. J. W. Urie.

Mr. and Mrs. Redmile have been visiting Mrs. Wilhemina Redmile.

He Wants To Learn German

When the U. S. Marines march into Berlin there is going to be one Salt Lake representative peculiarly fitted to tell one William Hohenzollern just what Zion thinks of him.

For Cavendish W. Cannon, of Salt Lake City, has enlisted in the Marine Corps.

For several months prior to his enlistment, Cannon was studying German—but he insisted that his teacher school him in only one branch of the German language—profanity.

"I want to learn how to cuss fluently in German," said Cannon when questioned concerning his peculiar studies, "so that I can tell Kaiser Bill and the rest of his gang just what I think of them. If I didn't know all the words in the German 'cuss dictionary,' how could I do it?"

—Mr. Thomas G. Wroth has purchased a beautiful 8-cylinder Oldsmobile from Davis Brothers of Galena.

SWIFT & COMPANY U.S.A.

Fresh Beef Travels on a Rapid Schedule

Fresh beef for domestic markets goes from stockyards to retail stores within a period of about two weeks. Although chilled, this meat is not frozen; hence it cannot be stored for a rise in price.

A steer is dressed usually within twenty-four hours after purchase by the packer. The beef is held in a cooler at the packing house, at a temperature a little above freezing, for about three days.

It is then loaded into a refrigerator car where a similar temperature is maintained, and is in transit to market on an average of about six days.

Upon arrival at the branch distributing house, it is unloaded into a "cooler", and placed on sale.

Swift & Company requires all beef to be sold during the week of arrival, and the average of sales is within five days.

Any delay along the above journey means deterioration in the meat and loss to the packer.
