LOCAL MATTERS

Senator Ollie James Ill.—Senator Ollie James, of Kentucky, one of the biggest men in the nation, is extremely ill at Johns Hopkins Hospital, Baltimore. He has been kept alive by transfusions of blood. He was renominated as United States Senator on Saturday and notified of the same on Monday.

Sales of Thrift Stamps.—The total sales of War Savings and Thrift Stamps at the various postoffices in the county for the month of July as as follows: Chestertown, $9065.76; Black $7.18; Betterton, $524.70; Galena, $1199.34; Golt, $31.29; Kennedyville, $35.15; Lynch, $273.48; Massey, $2087.69; Millington, $1393.33; Rock Hall, $1790.29; Still Pond, $159.11; Worton, $43.12; Total $16,609.84.

Wife Of Famous Inventor On Eastern Shore.—Mrs. Emma F. Mergenthaler, widow of the inventor of the linotype machine, is visiting in Talbot county. Mrs. Mergenthaler talked very interestingly to a reporter of a neighboring paper concerning her late husband and his wonderful invention. She was at her husband's side during the years he devoted to completing the linotype. This remarkable machine, almost human in operation, ranks as one of the greatest inventions of the age, and The Transcript's can be seen in operation most any day.

Airplanes Stop In Kent.—One of Uncle Sam's airplanes found a refuge on Worton Manor Beach, the home of Mrs. Costelle, last Monday. The airplane became disabled in some manner and in descending to earth broke its propellor. It is thought that the aviator ran out of gasoline and in coming to earth struck the ground too hard. Another airplane landed in one of Mr. Samuel Loller's fields near Worton on Tuesday. This is supposed to be the one that carried a letter to Easton on Monday, which is mentioned in the Baltimore papers. The aviator stated that he had been following the course of the Chester River for several hours searching for the aviator who had landed at Worton Manor Beach on Monday.

—Clara Scott, a young colored farmerette of about 12 years, carried a lump the size of a goose egg on her head on Tuesday as a result of being hit with a single tree in the hands of James Harlan, of about the same age, in front of Sheats Shop on Tuesday afternoon. Some one, thinking she was a boy—she being dressed as a boy—offered ten cents for the one who could throw the other down. Words followed, then blows, and then came the single tree. Justice Rogers let the boy off with a reprimand.

Farm Sold.—Dr. John L. Wethered has sold his Turner's Creek farm to Mr. Woodland Derringer, of Spangler, Pa. We understand Mr. Derringer has purchased the farm for a number of rich Pennsylvania club men, who will use it for gunning purposes. The price paid for the property is private.

Auto Stolen From Garage.—Thieves went into Mr. Chas. D. Wood's garage, on the Tolchester Beach farm, owned by Mr. Walter U. Lusby, Saturday night, and went away with Mr. Wood's Ford auto. The auto has not been seen since, although the local officers have been searching Kent Co. for it. It is said the thieves went into the garage, in full view of some of the family, and drove the machine away, the owner thinking some of the family or someone connected with the farm was at the wheel. Mr. Wood Wood spoke loudly to the man in the car, but he paid no attention to him, but went off in the direction of Tolchester. Mr. Wood received notice from Baltimore Wednesday that his machine was at police station in that city.

Patriot's Hot Weather Creed.—We nearly all are sufferers from the intense heat that now prevails here in Kent county. Men in the fields are exposed to the direct rays of the sun, as well as mechanics and housewives. We all, more or less, are effected by the heat. But remember this: our men at the front, fighting to make our lives safe, have been exposed to the weather for long stretches, often without food or water. They are wearing "tin hats" and carry a heavy load of equipment, while we carry nothing but the lightest clothing possible. These fighting men are putting forth every ounce of their energy. We are trying to take things more or less in a leisurely way while the heat is at its worst. They are the objects of the most malevolent and sinister force in all the world, while we have nothing worse to fear than a heat stroke, with plenty of ice here in Chestertown and a hospital not many miles away. So let us be as "game" against the heat with the same spirit as our fighters are opposing the sinister force on the field of conflict.

Hot Weather In Kent County.—Kent County experienced the hottest weather that there is any record of on Tuesday and Wednesday of this week. Much suffering was caused by it, especially in the big cities of the east, where, it is claimed, that there is no record of higher temperatures, which went to 106 degrees in Baltimore and Philadelphia. The weather bureaus of those cities have kept record for 48 years and it is calimed that the temperatures of this week have surpassed anything in their possession. Lofland & Culp's thermometer registered 100 degrees on Tuesday and 102 on Wednesday. Mr. W. Irving Walker's thermometer, on a shaded porch, in one of the coolest places in this section showed 104 on Tuesday and 108 on Wednesday. The thermometer at the Kennedyville railroad station registered 108 at 6 o'clock on Wednesday. All over Kent thermometers registered from 102 to 104 on Tuesday and from 103 to 108 on Wednesday. The storm of Wednesday night caused great relief among the sweltering people of the county, the thermometer dropping 12 or 15 degrees within a short time after the wind began blowing.

It looks now as if the line reader really knew his business.
