What is the difference between an OCULIST and an OPTOMETRIST? The Oculist treats diseased Eyes and fits glasses according to the laws of optics. The OPTOMETRIST USES THE SAME MEANS FOR DETECTING ANY DISEASE, but does not treat, but refers to the oculist or family physician. The OPTOMETRIST fits glasses according to the laws of OPTICS, just the same as the oculist, but without DRUGS or DROPS.

More About Sugar

Your attention is called to the following telegram, received this week from Mr. Hoover:

"Neither wholesaler or retailer will be permitted to average cost of any old sugar with any new sugar. They should not be allowed to advance prices until present stocks at old prices are exhausted and you should require any person who advances the price to new basis to justify it to your agents."

EDWIN G. BAETJER,
Federal Food Administrator for Md.

Md. Colleges To Be Military Schools

Washington College will be used by the government as a military training school the coming term. This will no doubt bring a great many more students here than heretofore. The students of Washington College will have the same academic and military training as other college units, and the same privileges. It is understood to be the intention of the government to give such training to these young men as will best fit them for service later on.

Western Maryland has also been added to the training units by the government for young men. This means that a regular army officer will be detailed as commandant at the college.

IMPORTANT NOTICE

Parties having sales of personal property should make returns of same to the office of the County Commissioners, otherwise this property will remain charged as listed on books for the year 1919.
