For Representative In 66th Congress
HON. JESSE D. PRICE
of Wicomico County
Election on Tuesday, November 5th

NOTICE TO OUR PATRONS

The Priorities Board of the War Industries Board has listed paper mills as an essential industry, and has rated them in fourth class for priority for coal, on the distinct understanding that the greatest possible economy in the use of paper be exercised, and that the reduction in the use of paper by the newspapers shall be 15 per cent.

The Board, therefore, compels us to strictly observe the following rules:

No publisher may contiue subscriptions after three months after date of expiration, unless subscriptions are renewed and paid for.

No publisher may give free copies of his paper; except for actual service rendered; except to camp libraries and huts or canteens of organizations recognized by the Government, such as the Red Cross, Y. M. C. A., or K. of C.

No publisher shall send free copies to advertisers, except not more than one copy for checking purposes.

No publiher shall send free copies in exchange for other publications, except to such other publications as are printed within the county, or within a radius of 40 miles from his point of publications.

No publisher may issue holiday, industrial or other special editions.

THOMAS E. DONNELLEY,
Chief Pulp and Paper Section.

FOURTH LIBERTY LOAN DRIVE

Subscriptions to the Fourth Liberty Loan Bond Drive are lagging in this county. What is the reason? There must be some reason for this. Is it lack of interest? Is it a matter of delay on the part of those intending to purchase them? If for none of the above reasons, what is the reason? The campaign opened last Saturday and up to the present time only about $100,000 has been secured, which leaves $443,000 yet to be raised. The conditions are imperative for the sale of Kent's full allotment of $543,000. We must put this allotment over the top that our boys who are doing such grand fighting in the war sections of Europe may be properly protected. They are doing their part "over there"—let us do our part over here. The deposits in the savings departments of our banks show there is much more than a sufficient sum there to finance this loan to our government. Why not lend your government your savings at 4 1-4 per cent instead of keeping it in bank at 4 per cent? Those who have no savings account can buy bonds by paying 10 per cent of the original cost cash and pay the remainder in installments. Our boys are making great sacrifices. Why don't you make some and buy bonds? It is your duty and our duty to do it.

Two Ideals of War

Read these two ideals of war—one from President Wilson, expressing the sentiment of a free people, the other from the Kaiser, showing the sinister force then plotting for the overthrow of the world.

President Wilson said to the National Army, September 3, 1917:

"You are undertaking a great duty. The heart of the whole country is with you. The eyes of all the world will be upon you, because you are in some special sense the soldiers of freedom. Let it be your pride, therefore, to show all men, everywhere, not only what good soldiers you are, but also what good men you are, keeping yourselves fit and straight in everything and pure and clean through and through.

"Let us set ourselves a standard so high that it will be a glory to live up to it, and then let us live up to it and add a new laurel to the crown of America. My affectionate confidence goes with you in every battle and every test. God keep and guide you."

Compare these noble words with the blating egotism of the German Kaiser to his troops embarking for China on July 27, 1900:

"When you face the enemy he will be beaten! No quarter will be given! No prisoners will be taken! Whoever falls into your hands, let him be at your mercy! Just as the Huns a thousand years ago, under their king Attila gained a reputation in virtue of which they still appear mighty in tradition and story, so may the name German be established by you in China in such manner that for a thousand years no Chinaman will ever again even dare to look askance at a German."

Evolution of Women

How amazing the evolution of women. From aparently weak, helpless creatures, they are fast becoming the backbone of the nation. And this without the aid of the vote.

Think of two millions being called to enter productive work in positions now held by men to be released for the draft—to speed up production. Think what was written of them, not so many years ago—in the light of present-day accomplishment and laugh at the utter absurdity of it—"For men must work and women must WEEP."

The English poet never imagined four and a half million of English women would be employed in war-work alone, exclusive of nursing, domestic service, sale positions and other work generally assigned to the sex. And now America is calling for two millions of women to do war-work, work that seems hard even for men to do. This call does not include nurses—which should always be written with a capital N—or Red Cross or other workers. It is for productive work alone. How dare the government call for so many? Ah, there is where registration tells! The War Board believes it can secure the necessary number of women, basing its hopes upon the returns made to the National Council of Defense last spring. This is why registration is so important. Do not let any who desire government positions fail to register in their respective localities. The Chairman of this department of work should see that this important matter is attended to.

A meeting of the Chairmen of the various departments of work is called for Monday afternoon next, Oct. 7. A full attendance is requested and the public is cordialy invited to attend and hear of the work being done.

PUBLICITY CHAIRMAN FOR CO. DEFENSE COUNCIL.

Our People Hike Instead

Gasless Sundays have caused many Chestertown people to take walks instead of automobile rides. Last Sunday scores of persons walked out the state roads leading into Chestertown, and enjoyed nature at her best. Every person is enjoying these trips and being benefitted by them. The country was never more beautiful than at this season, and the leaves, just turning to red and gold, beneath the brush of the master painter, nature, and the golden rod blooming in all its golden glory, and the song of the bird as it takes one long, joyous rest before its southern flight, make people glad that the request has been made to conserve gas on Sunday, and give them an opportunity to see the real beauties of nature, which is hardly possible when plunging through the quiet country lanes in an auto.

Some of our residents who heretofore have spent large amounts of money in gasoline on Sundays have been taught a lesson by these Sundays that they will not soon forget, and will in the future take advantage of the outdoor exercise, and the benefit to be gained by walking, even when there is no restriction on gas.

—Mr. G. W. [illegible]eler, who moved here from Cana[illegible] purchased the farm of Mr. J. [illegible]ony, in Rich Neck, has had [illegible]rops this year. Mr. Keeler [illegible]d tomatoes before this yea[illegible]nearly seven tons to the ac[illegible]a good price for them.
