BE sure and get the BEST WORKMEN and the BEST MATERIAL. Don't waste good money on bad material. Masury's Paints are the best on the market. We are the sole agents for district, and are always ready to show you ple card and quote prices.

We Will Paper Your Room for $3 and upwards,

and guarantee satisfaction or no money.

YOU WANT YO PICTURES FRAMED

ell and see our selections of Moulding before going elsewhere. They are the finest in town. We an be found at the old stand, opposite Burk's hoe Shop, on Cross street.

Yours for Business,

W. L. FOWLER.

BONES AND BAGS.

On account of the war many of our supplies of Bones have been cut off, and in order to get all the nice dry country bones possible, we have determined to pay about twice as much for dry bones as we used to pay, if they are delivered at our factory.

The country boys should pick up all they can and bring them to us instead of selling them to the junk dealers.

We will also pay the highest market price for good second hand Fertilizer Bags. Please communicate with us.

Very truly yours,

The Peerless Fertilizer Co.,
CHESTERTOWN, MD.

THERE'S ONLY ONE BUSINESS TODAY

Chairman of Liberty Loan Committee Sends A Message to The People Of This Community.

WHERE'S YOUR BADGE?

Every Man, Woman and Child Should Be Wearing the Button That Stands For Loyalty to the Nation in This Time of Stress.

"The hour has struck for every man, woman and child in the State of Maryland to turn in and work for the Liberty Loan. We've made an excellent start. But what we want is an excellent finish, and such results as will do credit to the State of Maryland and to the patriotic spirit of our people cannot be achieved until the whole people of this commonwealth get busy with this business of all businesses."

This is the message that former Governor Phillips Lee Goldsborough, chairman of the Liberty Loan Committee of Maryland, sends to the people of this community.

"This is no one man's job," continues the ex-Governor. "This is no one committee's job. This is no job for any collection of committees. It is a whole people's job, and everybody's job. We have a fine organization of workers, but they will not be able to put this loan over without the active co-operation of every individual in the State.

"We've got at headquarters in Baltimore a poster, which reads:

The Fourth
LIBERTY LOAN
BUTTON
is the badge of every
RED BLOODED
AMERICAN
WHERE'S YOUR BADGE?

"There's the keynote of action for every one in the State who wants something to do. Buy bonds. Go out and sell bonds. Talk bonds to every one you meet. And then see that every one has a button. Ask the man or the woman you meet, "Where's your badge?" If he or she hasn't a badge some explanation is due, and there is no earthly or heavenly explanation that can excuse any individual from supporting his Government in this critical stage of the country's history. Any explanation offered must be born of the lower regions.

"Where's your badge? Let the question ring in the ears of every one of our people. Let it ring in their ears until it burns into their hearts and opens their pocketbooks. Don't be afraid to ask the same person twice or thrice. Don't be afraid to keep on asking until the badge of American citizenship; the badge of loyalty and devotion to our country; the badge of faithfulness to the boys who are spilling their blood overseas—until that badge is displayed by every person in your community.

"Where's your badge? Start now and keep it up until this grand old State that has never failed before shall go over the top with a spurt that will be as grand and gratifying as was the spurt with which the loan was inaugurated."

SHRINE OF THE "HOLY COAT"

Cathedral at Treves Contains One of Most Jealously Guarded Relics of the Roman Church.

At intervals of many years the old Prince Bishopric of Treves, wakens out of its half-slumbering condition and becomes the center of a great pilgrimage. Besides its numerous Roman remains, this quiet old town, claiming to be 1,300 years older than Rome, is the shrine of the "Holy Coat," one of the most jealously guarded relics in the possession of the Roman church.

The citizens of Treves are very proud of this seamless garment, and they have given it a prominent place on their coat-of-arms, says the Dundee Advertiser. It was not until 1196 that the "Holy Coat" was placed over the high altar, but it was not exposed to the public gaze for some three hundred years afterward. It was kept in a secret place of the cathedral known only to a few, and there were many who doubted its existence. A guide book of 1814 says:

"The existence of the relic at present is rather doubtful—at least, it is not visible. The attendants of the church say it is walled up." All doubts were removed in 1844, when Archbishop Arnoldi announced a centenary jubilee, at which it was exhibited to a million and a half of pilgrims from all parts of the world. The coat is a loose garment with wide sleeves, very simple in form, of coarse material, dark brown in color, probably as the result of age, and entirely without seam or decoration.

MESSAGES FLOAT FOR YEARS

United States Hydrographic Office Tells of Finding of Bottle Set Adrift in 1914.

Several instances of messages in bottles having floated about the Pacific for years before being recovered have been announced by the United States hydrographic office.

A bottle was set adrift by Capt. S. Nagahue of the Tamba Maru, Japanese, August 17, 1915, 900 miles east of Kamchatka, was recovered May 15 last near Moelips, Wash. Another bottle, set adrift in December, 1914, off Cape Corrientes, Mex., was found February 22 last 240 miles north of Christmas island, in the latitude of the Hawaiian islands.

A third bottle, tossed from the schooner W. H. Marsten by Capt. W. Wann February 14, 1915, 2,040 miles east of Chile and 660 miles south of Easter island, was picked up January 21 last four miles south of Wanganui island, New Zealand.

G. B. TAYLOR

ENGINE BUILT LIKE A WATCH

Fast, Modern Airplane May Readily Cost From $10,000 to $20,000 and Wears Out Quickly.

The engine of your motor car weighs from 500 to 1,200 pounds, or more. It will average from 20 to 30 horsepower at the lowest, says a writer in Collier's. The new airplane engines run less than three pounds per horsepower and the finest of them two pounds or less. Airplanes have been built with air-cooled engines for short-distance, fast scouting whose engines weigh less than a pound and three-quarters per horsepower. They must be quite literally, as an old advertisement used to say, "built like a watch."

At present a high-powered airplane engine of the best type—say 120 to 150 horsepower—cannot be purchased for much less than $3,000. And the whole airplane, a big one, may readily cost $10,000 to $20,000. You can readily see why the construction of only 15,000 airplanes, as in England's program, would easily equal, for a total expenditure for men and camps and hangars and repairs and wastage, more than half a billion dollars.

A fast modern airplane has an average life of only about two or three hundred hours of active service—say two months at the outside. This means that to keep 10,000 airplanes on a battle line you have to be able to build 5,000 per month or more. The cost would be almost unthinkable. That is why warfare in the air for any length of time would bankrupt the world. And that, in turn, is why warfare in the air means the end of all warfare.

SHIPS NEED OF AUSTRALIA

Grain of Little Value Without Transportation, as Little of It Is Used at Home.

"Australia's food production this year will average normal; it is neither unusually heavy nor light, but there is going to be considerable difficulty in handling the crops, because there are no facilities for transportation," said H. W. Stephens, a merchant of Melbourne, who was visiting the United States. "The greatest need of Australia today is transportation. Until ship tonnage is provided it is almost useless for the farmers to complete their harvesting, as it requires only a small percentage of the crops to supply the domestic needs. Heretofore great quantities of grain have been shipped to England and it is still going overseas, but in not sufficient quantity, for England needs wheat now as never before. But without ships it is impossible for us to send our wheat abroad.

"The wheat crop of Australia was damaged to some extent by mice, and until the farmers learned how to combat this pest it threatened to become a serious menace. The farmers used poison, water, gas and other means, and finally got rid of them."

Pray at Old Shrine.

Fifteen years ago the supreme court of the United States evicted 300 Indians from their old home on Warner's ranch, in California. Some time later the Sequoia league induced President Roosevelt to name a commission to find a new tract for the Indians. This resulted in the government buying the Pala valley, where the Indians found homes much better than those they were evicted from. But Warner's ranch was the old domicile, where Father Ubach of San Diego held services once a year, at which time all marriages, baptisms and funerals were held. The present priest is Father George G. Doyle, and he has rehabilitated the chapel "for memory's sake." On a recent Sunday the old chapel was rededicated, and the Indians from the Pala valley were happy in praying at the old shrine.

Ink for Labeling Bottles.

In a small bottle place an ounce and a quarter of methylated alcohol, add a half-ounce of shellac, and when this last is dissolved immerse the bottle in hot water until the solution is warm. Then add slowly, while stirring rapidly, a solution composed of one hundred and fifty grains of borax dissolved in two ounces of water. Finally add coloring matter to suit, four or five grains of methyl violet being satisfactory and dissolving well upon shaking. This makes a very fine waterproof ink for writing the labels upon bottles and for other purposes about the darkroom.

Dear Old Husband.

The superstition about the word "husband" is not yet slain. Recently a philologist went into a church and heard a young curate discourse on marriage. "Think," he said solemnly, "of the beautiful idea underlying the word 'husband'—houseband, the band or bond of the house." The philologist had difficulty in restraining himself from laughing aloud. The "band" of the word "husband" is merely a corruption of the Scandinavian "bonde," a peasant.—Exchange.

Distorted.

Escort (at sex play)—Doesn't the author of this drama hold the mirror up to nature?

Girl—Yes, but nature seems to be making up an awful face, or else the glass is crooked!—Town Topics.

Partially Concerted.

Jenks—How do you stand on the selective draft?

Jinks—Well, I'm strong for their selecting some of my drafts, for the banks to honor.—Judge.

WHY ENGLAND HONORS HOOVER ---KEPT WOLF FROM DOOR

"The war is over—we are beaten," the British food controller is reported to have exclaimed when told the U. S. had already shipped its whole surplus of wheat. Britain at the beginning of the year was consuming half a million tons of food each month more than the margin of safety permitted. America then—not just the Government but the loyal American people—saved the day. The danger of Britain being starved out of the Allied Camp was averted till next summer at all events. The problem now is to build up a reserve so that no risk may again be run and the whole national energy thrown into the job of "getting on with the war."

If the United States had gone selfishly ahead, eating wheat as usual, and not saving in export meats, actual starvation might have faced the people of the United Kingdom before now. Fortunately, Mr. Hoover's masterful organizing genius was getting results, and the breakdown in transportation in the United States was gradually remedied. The American people have saved out of their domestic supply of wheat about 100,000,000 bushels, and likewise have enabled the Food Commissions to export far more meat, in the last six months, than was originally expected. In April, exports of bacon were nearly 100,000 tons, compared with 11,000 tons in April, 1917.

Having performed such splendid service in conjunction with Lord Rhondda, Mr. Hoover is fully entitled to the exceptional honors showered on him in England.

This splendid achievement, in which the people of Maryland played their full share, does not mean that wheat thrift can now cease. Efforts must not be relaxed. Next summer, if the war still lasts, the United States will again have the responsibility of keeping fed the armies and civilized population of the Allies whose man-power long ago was removed from the fields to the trenches. No chances can be run unless all the sacrifices of the past are to count for naught. A reserve must be built up. Therefore it is not possible that there should be here any material modifications in the wheat regulations.

Give up fried food; save the fats to defeat the Kaiser. A certain amount of fat each day is necessary to human life. Don't waste an ounce; it means the life of someone somewhere in the world.

Send It To Our Boys.

Saving wheat is a military necessity!

Will you permit appetite or habit to take precedence over patriotism and duty?

Eat no wheat!

COTTAGE CHEESE IS CHEAP

A saving of $30,000,000 worth of valuable food is sought in the campaign which the United States Food Administration and the Department of Agriculture have launched to curtail this country's enormous waste of skim milk. Agents are working from Atlantic to Pacific, calling attention to the score of palatable forms in which this nutritious commodity can be prepared.

In its most familiar form it bobs up as Cottage Cheese, which is equal to meat in food value. One pound of cottage cheese is as good as a dozen eggs.

In many cities milk distributors are sending their cottage cheese around on their routes, and the housewife is able to place her order for it along with the milk.

Sugarless Meringue.
(Official recipe.)

One cup corn or maple syrup. White of two eggs.

Method: Boil the syrup slowly until it makes a soft ball when dropped in cold water. Add this gradually to the stiffly-beaten whites of eggs, beating constantly. Spread this on pudding or pie and brown slightly in a slow oven.

Owing to the lateness of the new potato crop, the Berlin authorities have reduced the midsummer potato ration from three pounds to one each week. Some beans and peas are being added to what householders may obtain.

Drought, wind, and heat have played havoc with the Western Canadian wheat crop and from a section of this continent which was expected to contribute 300,000,000 bushels to the Allied food supply less than 200,000,000 bushels is now counted on.

Mary had a little lamb with which she used to play, but her brother feeds a little pig to fight the meatless day.

RIPE FRUIT NEEDS LESS SUGAR.

It is suggested to the patriotic housewife that it is better to pay a few cents more for fruit that is fully ripened and that does not require sugar (or at most a very little) than to purchase sour, small fruit that must be either cooked with sugar or deluged with it, when served in its natural freshness, to render it palatable. Remember that every housewife must take for her slogan just now: "Every little bit helps."

Add the leftover cheese to your cream soups. Two or three tablespoonfuls will improve the flavor of any soup.

There is no slacker more offensive to the patriotic eye than an empty jam jar. Fill it quickly with something that cannot be sent to our soldiers, if only to empty and fill it again before snow flies.

Pickling Olives.

A new method of pickling ripe olives which, it is claimed, will increase the capacities of the factories over 200 per cent has been discovered by the University of California. Heretofore it has taken 15 days to pickle ripe olives. By this new method it can be done in six days or less. The process is a result of four years of experiments.

Inquiries Will be Answered Promptly

¶ One of the advantages which customers who shop by mail appreciate most is a prompt answer to their inquiries.

¶ Baltimore's Best Store, through its Mail Shopping Service, aims to give its out-of-town customers the same courteous and prompt attention which we extend to those who make their purchases in person.

¶ So, if you desire any information as to the descriptions and prices of any merchandise in our stocks, write us, and we will answer your inquiry promptly.

¶ If samples of materials are desired, state the fabric, color, and the price you may wish to pay—in that way, we can send you those nearest to your description. If you ask for suggestions as to materials and colors most in favor, we will gladly give you the information.

Altogether, you will find Baltimore's Best Store the logical place at which to do your shopping by mail—or in person.
