Red Cross Chirstmas Roll Call

The anti-tuberculosis associations, national, state and local, have played their united part in war preparedness, to prevent inroads on the United States that tuberculosis has made on France and other European countries. The hospitals, dispensaries and visiting nurses which they have secured and the health education which they have carried to all parts of the country, must be multiplied and intensified.

While fighting tuberculosis, the associations have established a board work for the control and prevention of many diseases, a national service in war and reconstruction.

To lend support to this health campaign, the American Red Cross has hitherto supplied the Tuberculosis Associations with their Christmas Seals to sell. This fall the Red Cross has made a direct appropriation of $2,500,000 as a war measure, to insure the enlargement of this work, preferring not to leave its support conditioned on a sale of seals in the midst of many financial drives. This sum, 40 per cent more than realized in the most successful seal sale, is paid to the National Tuberculosis Association to carry out the program of work before it and its co-operating associations in 1919.

No Red Cross seals are to be sold this year. 600,000,000 of them, however, are being distributed to Red Cross chapters over the country. They will serve as awards to Red Cross members, ten seals to every person joining during the RED CROSS ROLL CALL (December 16-23). The ten seals will be contained in a circular on tuberculosis and the war against it.

Since in all probability most of the 20,000,000 present members will renew and millions of new members will join, the prospects are the best for bringing home the health message of the seal to far more people than ever before. To accomplish this and out of appreciation for the support of the Red Cross, the tuberculosis associations have pledged themselves to assist to the utmost in making the answer to the RED CROSS CHRISTMAS ROLL CALL almost "universal." It is their earnest desire that not only all the adults that sold seals last year, but thousands of other representatives of the association will solicit memberships.

We invite your co-operation in all or any part of our work, either as an individual or with others as the local committee of the association. JOIN THE RED CROSS DURING THE ROLL CALL. Further information may be obtained by writing the Maryland Tuberculosis Association, McCoy Hall, Baltimore, Md.

Price of Wheat To Be $2.26.—Kent farmers will be glad to know that the guaranteed price for the 1919 wheat, fixed at $2.26 a bushel, Chicago basis, will stand, even though the Lever Act under which the price was fixed should become inoperative through conclusion of peace, in the opinion of the Food Administration. The Administration has issued a statement interpreting the Lever Act and pointing out that the law provides that "all rights or liabilities under this act arising befor its termination shall continue and may be enforced in the same manner as if the act had not terminated." Wheat growers in Kent county, it is said, have been apprehensive that the guaranteed price for the 1919 crop might be rescinded through conclusion of peace.
