Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## FLYERS THEIR ESPECIAL CARE

### Corps of Doctors and Trainers to Look After the Aviators in This Country and Abroad.

For the care and conditioning of flyers in the air service the United States government is now appointing a corps of doctors and trainers large enough to equip each training field and camp for flyers, both here in the United States and in France, with a proper organization. The doctors will be known as flight surgeons and the trainers as physical directors. The medical branch of the air service is not alone confined to the selection of the flyer, but to his care and condition after he has been admitted to the service. It has become apparent that the flyer is unlike other soldiers, comments Science. In the air service he has become an intricate, highly sensitized piece of mechanism with troubles all his own. To keep his complex organism physically fit a special master mechanic had to be provided solely for him.

The flight surgeon, therefore, has been given freedom of independent initiative in all questions of fitness of the flyers. Subject to the approval of the commanding officer, he is expected to institute such measures as periods of rest, recreations and temporary excuse from duty as may seem advisable. He takes sick calls of aviators, he visits such cases as may be in the hospital and consults with the attending surgeon regarding them. He makes the examination of candidates for aviation and lives in close touch with flyers.

The physical directors are assistants to the flight surgeons and their duty is to supervise such recreation and physical training of the flyers as are considered necessary.

## WOMEN POLICE "MAKE GOOD"

### Abundant Testimony as to Splendid Work They Have Done in England Since War Started.

How England's women police have developed into a real force for the maintenance of order and public morality has appeared in the report of Miss Goldingham, deputy commandant of the women police service, at a meeting in Richmond, where the establishment of such a force was under discussion.

She said that these forces had been formed from voluntary workers early in the war, as a means of helping refugees and young English girls and boys who were in need of aid or advice. In three and a half years 1,000 women have been trained for the work and have found appointments.

At present women are policing 20 munition factories, where they perform all the duties, practically, that could be expected of masculine police. The women's police service has also supplied police for 18 towns, in four of which women have been sworn in as constables.

### Hun Captives Are Oxlike.

Once through Templeaux and on the main road for Peronne things became less exciting and we drew up to see a column of 900 prisoners pass us. Each side of the causeway was lined by Australians, with their keen clear-cut, falcon faces, and between lurched these heavy-jawed, beetle-browed, uncouth louts, new-caught and staring round with bewildered eyes at their debonnaire captors. I saw none of that relief at getting out of it which I have read of; nor did I see any signs of fear, but the prevailing impression was an oxlike stolidity and dullness. It was a herd of beasts, not a procession of men. It was indeed farcical to think that these uniformed bumpkins represented the great military nation, while the gallant figures who lined the road belonged to the race which they had despised as being unwarlike. Time and Fate between them have a pretty sense of humor.—Arthur Conan Doyle in the London Times.

### What Next?

Recently, after the routine of physical examinations and tests at the Indianapolis Orphans' home had been given, consisting of the typhoid and smallpox vaccinations, eye and ear tests and treatment recommended, search for and removal of adenoids and tonsils, dental tests and care, diphtheria immunity test and antitoxin and finally tuberculosis test, some of these requiring repeated trials and treatment, one little fellow said to his teacher in the school, in speaking of the various overhaulings: "They'll be testing us next to see if we have any brains, won't they?"

### New Source of Leather.

Durable leather from the bladders of animals is claimed by Rudolph Obrist-Doos, a Swiss. The bladders are stretched and dried, giving them a smooth surface, and are then made pliant and waterproof by a special process of felling and tanning. The pieces so obtained may be pressed together, with a suitable adhesive, and with or without felt, to give a leather or leather substitute of any desired thickness.

### Move Czar's Body Again.

A new chapter to the travels of the dead has been added by the exhumation and reinterment of the body of the former Emperor Nicholas. Napoleon's remains lay for nearly twenty years in St. Helena before removal to the Invalides. The body of Rameses the Great lies in Cairo, his heart in Paris. Christopher Columbus, dead, has traveled almost as far as the great voyager traveled when living.

### ALL TIRED OUT

### Hundreds More in Chestertown in the Same Plight

Tired all the time;
Weary and worn out night and day;
Back aches; head aches,
Your kidneys are probably weakened.

You should help them at their work.
Let one who knows tell you how.

Mrs. Romie Patrick, High St., Chestertown, says: "I was troubled with my kidneys. They acted too frequently. My back caused me a lot of pain and seemed as though weights were tied to it pulling me down. I felt tired all the time and I was surely in a miserable condition. I used Doan's Kidney Pills, procured from M. A. Toulson's Drug Store and the trouble entirely disappeared."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Patrick had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.
